Lassen,2024-12-23 This book analyzes the influence of the Cuban Revolutionary Government on the evolution of the Afro Asian Peoples Solidarity Organization AAPSO The author argues that Cuba s accession to AAPSO and the convocation of two solidarity conferences 1966 1967 in Havana initiated a political shift for the organization The Cuban Revolutionary Government thus promoted the inclusion of Latin American delegations that represented their countries leftist and pro Cuban dissidence as well as rural guerilla movements Adding to that Fidel Castro s independent stance towards AAPSO s two main financers the USSR and the PR China fostered a gradual emancipation of the postcolonial organization from the dominance of its sponsors The book offers a better understanding of the theoretical foundations of Cuba s foreign policy and explains how Havana used the two solidarity conferences to better the island s international prestige at times of diplomatic isolation Retracing the diplomatic influence of a small but key diplomatic actor of the Cold War this study will appeal to postcolonial and Latin America scholars as well as to academic researchers in contemporary history and political sciences

War and the Market Economy Lester B Stone,2017-02-01 War has influenced economic history profoundly across time and space Winners of wars have shaped economic institutions and trade patterns Wars have influenced technological developments Above all recurring war has drained wealth disrupted markets and depressed economic growth The role of war in the world economy is complex yet pervasive The shadow of war lies across economic history influencing its pace and direction and war continues to both shape economic developments and respond to them The market economy involves peaceful cooperation The division of labor cannot function effectively amidst a war Warfare among primitive tribes did not suffer this drawback because the warring parties had not been engaged in trade before the hostilities Thus they engaged in total war Modern wars are won with mat riel Capitalist countries defeat their socialist rivals because private entrepreneurs are more efficient in churning out products whether consumer goods during peacetime or weapons for their governments Even so ultimately war and the market economy are incompatible as the market relies on peaceful cooperation This concise and legible book will provide key text to all students teachers and researchers
