Matter Memory 1st Edition:

Memory systems, new and old. Enlarged by G.S. Fellows. 1st Amer. ed A E. Middleton, 1888 *Bioproperty, Biomedicine and Deliberative Governance* Katerina Sideri, 2016-04-08 Biomedical patents have been the subject of heated debate Regulatory agencies such as the European Patent Office make small decisions with big implications which escape scrutiny and revision when they decide who has access to expensive diagnostic tests whether human embryonic stem cells can be traded in markets and under what circumstances human health is more important than animal welfare Moreover the administration of the Trade Related Aspects of Intellectual Property Rights by the World Trade Organization has raised considerable disquiet as it has arguably created grave health inequities Those doubting the merits of the one size fits all approach ask whether priority should be given to serving the present needs of populations in dire need of medication or to promoting global innovation The book looks in detail into the legal issues and ethical debates to ask the following three main questions First what are the ideas goals and broader ethical visions that underpin questions of governance and the legal reasoning employed by administrative agencies Second how can we democratize the decision making process of technocratic institutions such as the European Patent Office Finally how can we make the global intellectual property system more equitable In answering these questions the book seeks to contribute to our understanding of the role and function of regulatory agencies in the regulation of the bioeconomy explains the process of interpretation of legal norms and proposes ways to rethink the reform of the patent system through the lens of legitimacy **Learning and Memory** Darrell Rudmann, 2017-10-20 Learning and Memory provides an integration of theoretical perspectives presented clearly concisely and with an approachable writing style ensuring a coherent and comprehensive learning experience for the reader

Making Spirit Matter Larry Sommer McGrath, 2020-10-19 The connection between mind and brain has been one of the most persistent problems in modern Western thought even recent advances in neuroscience haven't been able to explain it satisfactorily Historian Larry Sommer McGrath's Making Spirit Matter studies how a particularly productive and influential group of nineteenth and early twentieth century French thinkers attempted to solve this puzzle by showing the mutual dependence of spirit and matter The scientific revolution taking place at this point in history across disciplines from biology to psychology and neurology located our mental powers in the brain and offered a radical reformulation of the meaning of society spirit and the self Tracing connections among thinkers such as Henri Bergson Alfred Fouille Jean Marie Guyau and others McGrath plots alternative intellectual movements that revived themes of creativity time and experience by applying the very sciences that seemed to undermine metaphysics and religion Making Spirit Matter lays out the long legacy of this moment in the history of ideas and how it might renew our understanding of the relationship between mind and brain today

Comics Memory Maaheen Ahmed, Benoît Crucifix, 2018-08-01 Despite the boom in scholarship in both Comics Studies and Memory Studies the two fields rarely interact especially with issues beyond the representation of traumatic and autobiographical memories in comics With a focus on the roles played by styles and archives in their physical and metaphorical manifestations this edited volume offers an original intervention highlighting several novel ways of thinking about comics and memory as comics memory Bringing together scholars as well as cultural actors the contributions combine studies on European and North American comics and offer a representative overview of the main comics genres and forms including superheroes Westerns newspaper comics diary comics comics reportage and alternative comics In considering the many manifestations of memory in comics as well as the functioning and influence of institutions public and private practices the book exemplifies new possibilities for understanding the complex entanglements of memory and comics

Dangerous Memory in Nagasaki Gwyn McClelland, 2019-09-10 On 9th August 1945 the US dropped the second atomic bomb on Nagasaki Of the dead approximately 8500 were Catholic Christians representing over sixty percent of the community In this collective biography nine Catholic survivors share personal and compelling stories about the aftermath of the bomb and their lives since that day Examining the Catholic community's interpretation of the A bomb this book not only uses memory to provide a greater understanding of the

destruction of the bombing but also links it to the past experiences of religious persecution drawing comparisons with the Secret Christian groups which survived in the Japanese countryside after the banning of Christianity Through in depth interviews it emerges that the memory of the atomic bomb is viewed through the lens of a community which had experienced suffering and marginalisation for more than 400 years Furthermore it argues that their dangerous memory confronts Euro American centric narratives of the atomic bombings whilst also challenging assumptions around a providential bomb Dangerous Memory in Nagasaki presents the voices of Catholics many of whom have not spoken of their losses within the framework of their faith before As such it will be invaluable to students and scholars of Japanese history religion and war history

Memory, Grief, and Agency Sunder John Boopalan, 2017-09-18 This book argues that an active memory of and grief over structural wrongs yields positive agency Such agency generates rites of moral responsibility that serve as antidotes to violent identities and catalyze hospitable social practices By comparing Indian and U S contexts of caste and race Sunder John Boopalan proposes that wrongs today are better understood as rituals of humiliation which are socially conditioned practices of domination affected by discriminatory logics of the past Grief can be redressive by transforming violent identities and hostile in group out group differences when guided by a liberative political theological imagination This volume facilitates interdisciplinary conversations between theorists and theologians of caste and race and those interested in understanding the relation between religion and power

Fighting Over the Founders Andrew M. Schocket, 2017-02 Explores how politicians screenwriters activists biographers jurists museum professionals and reenactors portray the American Revolution The American Revolution is all around us It is pictured as big as billboards and as small as postage stamps evoked in political campaigns and car advertising campaigns relived in museums and revised in computer games As the nation s founding moment the American Revolution serves as a source of powerful founding myths and remains the most accessible and most contested event in US history more than any other it stands as a proxy for how Americans perceive the nation s aspirations Americans increased fascination with the Revolution over the past two decades represents more than interest in the past It s also a site to work out the present and the future What are we using the Revolution to debate In Fighting over the Founders Andrew M Schocket explores how politicians screenwriters activists biographers jurists museum professionals and reenactors portray the American Revolution Identifying competing essentialist and organicist interpretations of the American Revolution Schocket shows how today s memories of the American Revolution reveal Americans conflicted ideas about class about race and about gender as well as the nature of history itself Fighting over the Founders plumbs our views of the past and the present and illuminates our ideas of what United States means to its citizens in the new millennium
