A Companion of Feminisms for Digital Design and Spherology Amanda Windle, 2018-12-13 This book questions if spherology is a philosophy for designers giving guidance on ways to read Spheres how to approach the trilogy's indexicality and apply the key tropes and ethics of atmospheres to digital design Each chapter includes a design in that is a practical entry point into the many tropes of Spheres including bubbles globes and foam The book also applies spherology to an atmosphere design issue involving endangered species and geospatial threats to the environment Spherology refers to the Spheres trilogy by the philosopher Peter Sloterdijk which traces spherical ideas theories sensations and feelings related to the philosophical concept of being and the human centered position of being in It is the first cynical feminist companion of spherology to take a practice led approach and to cover all three controversial volumes to with and against Spheres Windle draws on feminist science and technology studies STS through parody within reading writing and design practices Design provides navigation so that

academics and students can engage with spherology through an embodied concern with digital materiality As a feminist companion for today s design issues the book is an essential read for feminist STS scholars design practitioners and digital R D specialists working both in industry and academia including more specifically data visualisers interface and interaction designers

Distributed Computer Control Systems 1994 J.A. De La Puente, M.G. Rodd, 2014-05-23 One of the most important issues in the development of distributed computer control systems is the ability to build software and hardware which is both reliable and time deterministic this is an area where control engineering and computer science naturally meet This publication brings together the latest key papers on research and development in this field allowing cross fertilization between the two engineering disciplines involved and allowing both academics and industrial practitioners to find new insights and learn from each other s views
