Mircea Eliades Vision For A New Humanism:

Mircea Eliade's Vision for a New Humanism David Cave,1993-01-28 The influential scholar of religion Mircea Eliade envisioned a spiritually destitute modern culture coming into renewed meaning through the recovery of archetypal myths and symbols Eliade defined this restoration of meaning as a new humanism of existential meaning and cultural religious unity Through a biographical exegesis of Eliade's life and writings from his earliest years in Romania to his final ones as professor of the history of religions at the University of Chicago Cave sets forward a structural description of what this new humanism might have meant for Eliade and what it signifies for modern culture Cave concludes by endorsing Eliade's radically pluralistic vision which he argues offers a key to the revitalization of our demythologized and material culture This study repositions previous Eliadean studies and places the new humanism as the paradigm in relation to which future readings of Eliade should be evaluated

International Eliade, The , The New Humanism of Mircea Eliade John David Cave, 1991 *Understanding World Religions* Irving Hexham, 2011-03-22 Globalization and high speed communication put twenty first century people in contact with adherents to a wide variety of world religions but usually valuable knowledge of these other traditions is limited

at best On the one hand religious stereotypes abound hampering a serious exploration of unfamiliar philosophies and practices On the other hand the popular idea that all religions lead to the same God or the same moral life fails to account for the distinctive origins and radically different teachings found across the world s many religions Understanding World Religions presents religion as a complex and intriguing matrix of history philosophy culture beliefs and practices Hexham believes that a certain degree of objectivity and critique is inherent in the study of religion and he guides readers in responsible ways of carrying this out Of particular importance is Hexham s decision to explore African religions which have frequently been absent from major religion texts He surveys these in addition to varieties of Hinduism Buddhism Judaism Christianity and Islam

Schopenhauer's Doctrine of Salvation in Relation to his Critique of Religion and Philosophical Teachings Anil Dominic Batti,2023-10-31 Arthur Schopenhauer 1788 1860 was perhaps the last polymath among the great Germanic philosophers Switching with ease and elegance between epistemic positions and fields as diverse as idealism and empiricism fideism and rationalism realism and nominalism art and religion jurisprudence and politics psychology and occultism Schopenhauer erected an imposing edifice bearing testimony to his universal learning This study is an investigation into the very conclusion of Schopenhauer s philosophy and endeavours to answer the following question did Schopenhauer s doctrine of salvation issue forth organically from his intellectual output or was it annexed to his philosophy as a result of his critical engagement with religion The labyrinthine paths through which Schopenhauer arrives at the soteriological culmination of his philosophy are subjected to critical assessment the picture that emerges is of a philosopher who seemed convinced that he had solved some of the most pressing cosmic riddles to have tormented mankind through the ages *Fifty Key Thinkers on Religion* Gary Kessler,2013-03 Fifty Key Thinkers on Religion is an accessible guide to the most important and widely studied theorists on religion of the last 300 years Arranged chronologically the book explores the lives works and ideas of key writers across a truly interdisciplinary range from sociologists to psychologists Thinkers covered include Friedrich Nietzsche James Frazer Sigmund Freud Emile Durkheim Ludwig Wittgenstein Mary Douglas Talal Asad S ren Kierkegaard Providing an indispensable

McCutcheon,1997-06-19 In this new book author Russell McCutcheon offers a powerful critique of traditional scholarship on religion focusing on multiple interrelated targets Most prominent among these are the History of Religions as a discipline Mircea Eliade one of the founders of the modern discipline recent scholarship on Eliade s life and politics contemporary textbooks on world religions and the oft repeated bromide that religion is a sui generis phenomenon McCutcheon skillfully analyzes the ideological basis for and service of the sui generis argument demonstrating that it has been used to constitute the field s object of study in a form that is ahistoric apolitical fetishized and sacrosanct As such he charges it has helped to create departments jobs and publication outlets for those who are comfortable with such a suspect construction while establishing a disciplinary ethos of astounding theoretical naivete and a body of scholarship to match Surveying the textbooks available for introductory courses in comparative religion the author finds that they uniformly adopt the sui generis line and all that comes with it As a result he argues they are not just uncritical which helps keep them popular among the audiences for which they are intended but badly disserve but actively inhibit the emergence of critical perspectives and capacities And on the geo political scale he contends the study of religion as an ahistorical category participates in a larger system of political domination and economic and cultural imperialism **The Other Worldview** Peter Jones,2015-06-24 A must read for every concerned American and especially for every Christian who weeps at the graveside of his culture R C Sproul A cataclysmic change has occurred as our culture has shifted toward belief in Oneism Every religion and philosophy fits into one of two basic worldviews Oneism asserts that everything is essentially one while Twoism affirms an irreducible distinction between creation and Creator The Other Worldview exposes the pagan roots of Oneism traces its spread throughout Western culture and demonstrates its inability to save For bodily holiness and transformed thinking we depend entirely on one amazing thing the incredibly powerful message of the Gospel to a sinful world which is the ultimate expression and goal of Twoism The only hope is in Christ alone
