Mirror Up To Nature:

Holding a Mirror up to Nature James Gilligan, David A.J. Richards, 2021-12-02 Shakespeare has been dubbed the greatest psychologist of all time This book seeks to prove that statement by comparing the playwright's fictional characters with real life examples of violent individuals from criminals to political actors For Gilligan and Richards the propensity to kill others even or especially when it results in the killer's own death is the most serious threat to the continued survival of humanity In this volume the authors show how humiliated men with their desire for retribution and revenge apocryphal violence and political religions justify and commit violence and how love and restorative justice can prevent violence Although our destructive power is far greater than anything that existed in his day Shakespeare has much to teach us about the psychological and cultural roots of all violence In this book the authors tell what Shakespeare shows through the stories of his characters what causes violence and what prevents it

The Mirror Up to Nature Bertram A. Young, 1982 *Tragedy and Philosophy* Walter Kaufmann, 1992 A critical re-examination of the views of Plato Aristotle Hegel and Nietzsche on tragedy Ancient Greek tragedy is revealed as surprisingly modern and experimental while such concepts as mimesis catharsis hubris and the tragic collision are discussed from different perspectives

Shakespeare the Actor and the Purposes of Playing Meredith Anne Skura, 1993 For the Renaissance all the world may have been a stage and all its people players but Shakespeare was also an actor on the literal stage Meredith Anne Skura asks what it meant to be an actor in Shakespeare's England and shows why a knowledge of actual theatrical practices is essential for understanding both Shakespeare's plays and the theatricality of everyday life in early modern England Despite the obvious differences between our theater and Shakespeare's sixteenth century testimony suggests that the experience of acting has not changed much over the centuries Beginning with a psychoanalytically informed account of acting today Skura shows how this intense and ambivalent experience appears not only in literal references to acting in Shakespearean drama but also in recurring narrative concerns details of language and dramatic strategies used to engage the audience Looking at the plays in the context of both public and private worlds outside the theater Skura rereads the canon to identify new configurations in the plays and new ways of understanding theatrical self-consciousness in Renaissance England Rich in theatrical psychoanalytic biographical and historical insight this book will be invaluable to students of Shakespeare and instructive to all readers interested in the dynamics of performance

Going the Distance David R. Jarraway, 2003-01-01 This bold new theoretical study explores dissident subjectivity that is the struggle for unique authorial identity in American literary discourse that has existed according to David Jarraway since the Romantics From Emerson's Experience remarking upon the focal distance within the actual horizon of human life to Toni Morrison's Nobel Prize address

sanctifying the artist's sophisticated privileged space American literature has continuously recognized a necessary distance the gap between culturally accepted ideas of selfhood and the intractable reality of the self's never completed construction in time Jarraway's fascinating examination of modernist poets shows that engaging with this artistic space or going the distance empowers writers and their readers to create and perceive identities that resist the frozen certainties of conventional gender sexual and social roles Employing this theory with grace and precision Jarraway ranges through the dissident process in Gertrude Stein the cultural criticism of William Carlos Williams the deferred racialism of Langston Hughes the queer perversities of Frank O'Hara and the spectral lesbian poetics of Elizabeth Bishop Bolstered further by insights from the pragmatism of William James through the cultural critique of Theodor Adorno to the queer theory of Judith Butler the author challenges his audience with politically engaged insistence on the life affirming potentialities of human subjectivity in literature His passionate conclusion demonstrates the liberating fluidity of self made possible by feminist chartings of modern identity's depths Lucidly composed theoretically sophisticated and up to the minute *Going the Distance* painstakingly recovers the dissident American subjective in modernist literary discourse within its fullest cultural context Jarraway's readings are a major contribution to poetry scholarship and to cultural studies that will provoke further investigations into the history of subjectivity in American literature as a whole

Shakespeare's Mirrors Edward Evans, 2024-09-26 Clear mirrors and The Geneva Bible revolutionary innovations of the Elizabethan age inspired Shakespeare's drive towards a new purpose for drama Shakespeare reversed the conventional mirror metaphor for drama implying drama cannot reflect the substance of human nature and developed a method of characterization through metadrama self awareness and soliloquy to project St Paul's idea of conscience onto the Elizabethan stage This revolutionary method of characterization aesthetic existence beyond performance has long been sensed but remains frustratingly uncategorized Shakespeare's *Mirrors* charts the invention of a drama that staged the unstageable St Paul's metaphysical conception of human nature glimpsed through a looking glass darkly Chapters 4 and 6 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license 1894

On Qian Zhongshu's Conceptualization of Translation Chang, Chung-An, 2025-10-14 This book brings new perspectives and insights to the discipline of translation studies at a time when Western theories dominate its main discourse By highlighting the significant contribution of Chinese scholar Qian Zhongshu which encompasses a theoretical probing of the process and product of translation in both China and the West the author demonstrates how Qian's reconceptualization of the concept of translation expands the discourse to include and integrate concepts from the history of translation in China The concept of *huajing* which is one of these cultural perspectives developed by Qian transcends the conventional view of translation as a linguistic transfer envisioning it instead as a dynamic realm where encounters with

meaning between the textual worlds of China and the West can take place Through a meticulous analysis of Qian's profound though stylistically fragmentary commentaries the author reveals how his comparative vision creates connections by breaking down linguistic and cultural barriers challenging notions of untranslatability that often hinder cross cultural exchange and anticipating an inclusive and globalized understanding of translation so urgently needed today *The Latter-Day Saints' Millennial Star*, 1865 **The Good of the Novel** Liam McIlvanney, Ray Ryan, 2011-10-13 Brings together leading critics and novelists with some of the finest contemporary novels to answer probing questions about the role of the modern novel *THE LATTERS-DAY SAINTS' MILLENNIAL STAR*, 1865 *Shakespeare and the Language of Translation* Ton Hoenselaars, 2014-05-13 Shakespeare's international status as a literary icon is largely based on his masterful use of the English language yet beyond Britain his plays and poems are read and performed mainly in translation Shakespeare and the Language of Translation addresses this apparent contradiction and is the first major survey of its kind Covering the many ways in which the translation of Shakespeare's works is practised and studied from Bulgaria to Japan South Africa to Germany it also discusses the translation of Macbeth into Scots and of Romeo and Juliet into British Sign Language The collection places renderings of Shakespeare's works aimed at the page and the stage in their multiple cultural contexts including gender race and nation as well as personal and postcolonial politics Shakespeare's impact on nations and cultures all around the world is increasingly a focus for study and debate As a result the international performance of Shakespeare and Shakespeare in translation have become areas of growing popularity for both under and post graduate study for which this book provides a valuable companion **Philosophy and Literature in Times of Crisis** Michael Mack, 2014-02-27 Highlighting literature and philosophy's potential impact on economics health care bioethics public policy and theology this book analyses the heuristic value of fiction It alerts us to how we risk succumbing to the deceptions of fiction in our everyday lives because fictional representations constantly feign to be of the real and claim a reality of their own Philosophy and literature disclose how the substantive sphere of social economic and medical practice is sometimes driven and shaped by the affect ridden and subjective Analysing a wide range of literature from Augustine Shakespeare Spinoza and Deleuze to Kafka Sylvia Plath Philip Roth W G Sebald and Jonathan Littell Michael Mack rethinks ethical attitudes towards the long or eternal life In so doing he shows how philosophy and literature turn representation against itself to expose the hollowness of theologically grand concepts that govern our secular approach towards ethics economics and medicine Philosophy and literature help us resist our current infatuation with numbers and the numerical and contribute towards a future politics that is at once singular and diverse *Shakespeare and Interpretation, or What You Will* Brayton Polka, 2011-06-24 Brayton Polka takes both a textual and theoretical approach to seven plays of Shakespeare Macbeth Othello Twelfth Night All's Well That Ends Well Julius Caesar Troilus and Cressida and Hamlet He calls upon the Bible and the ideas of major European thinkers above all Kierkegaard and Spinoza to argue that the concept of interpretation underlying both Shakespeare's plays

and our own lives is the golden rule of the Bible the command to love your neighbor as yourself *In the Way of Nature* Robert Boschman, 2009-04-01 Exploring the connections between nature and culture this volume discusses the works of three female American poets Anne Bradstreet 1612 1672 Elizabeth Bishop 1911 1979 and Amy Clampitt 1920 1994 Though only Bradstreet was born outside North America each poet is shown to grapple with the ways that European civilization was transformed on the new continent The author s analysis highlights the interconnected themes of travel geography cartography and wildness *Shakespeare's Webs* Arthur F. Kinney, 2012-12-06 In this book renowned Renaissance drama critic Arthur F Kinney argues that Shakespeare s method of composing plays through networks of meanings can be seen as a harbinger of today s information technology Drawing upon hypertext and cognitive theory areas that have for some time promised to take on more importance in the sphere of Shakespeare Studies as well as the central metaphor of the Routledge collection *The Renaissance Computer* Kinney looks in detail at four objects images in Shakespeare s plays mirrors maps clocks and books and explores the ways in which they make up networks of meaning within single plays and across the dramatist s body of work that anticipate in some ways the networks of meaning or information now possible in the computer age **Christian Settings in Shakespeare's Tragedies** D. Douglas Waters, 1994 Battenhouse s Shakespearean tragedy Its art and Christian premises Irving Ribner s Patterns in Shakespearean tragedy Virgil K Whitaker s The mirror up to nature The techniques of Shakespeare s tragedies and Robert Grams Hunter s Shakespeare and the mystery of God s judgments Waters questions for example Battenhouse s validity of Christian theological and didactic emphases on the old purgation theory of catharsis His approach differs also from Northrop Frye s views on the tragedies in Northrop Frye on Shakespeare an archetypal approach to representative plays including the tragedies
