Todo ser vivo necesita interactuar con el medio que lo rodea generando un tipo de información que lo lleva a crear un acto de comunicación. Así se desarrollan una serie de lenguajes que los llevan a comunicarse con la comunidad. Por ejemplo en el caso de los animales se puede observar cómo emiten diferentes sonidos para realizar cualquier tipo de acción o incluso para advertir de cualquier peligro a su alrededor. En el caso de los seres humanos desde nuestros orígenes hemos generado gestos y expresiones que varían de un lugar a otro así como también hemos elaborado sistemas de comunicación basados en señales para poder comunicarnos. No obstante en el caso de los seres humanos todo esto va más allá en tanto que hemos sido capaces de desarrollar un sistema de comunicación verbal y escrito otorgándole convenciones que varían de un lugar a otro. Siguiendo esta línea nuestra forma de comunicación ha ido más allá de la simbología hasta tal punto de elaborar un sistema de símbolos sonoros y gráficos que se articulan de diferentes formas con el fin de elaborar un sistema complejo de estructuras que nos llevan a comentar nuestro presente pasado y futuro lo que se ha denominado lengua. Además de todo esto hay que tener en cuenta el factor geográfico puesto que no se puede hablar en exclusiva de una única lengua. En este contexto la lengua o las lenguas varían en función de los fenómenos socioculturales que la rodean es decir existe una relación intrínseca entre lengua lenguaje y sociedad teniendo en cuenta sus usos y el contexto en el que se desenvuelven.

[A Companion to Jorge Luis Borges](#) Steven Boldy,2013 Jorge Luis Borges is one of the key writers of the twentieth century in the context of both Hispanic and world literature. This Companion has been designed for keen readers of Borges whether they approach him in English or Spanish within or outside a university context. It takes his stories and essays of the forties and fifties especially *Ficciones* and *El Aleph* to be his most significant works and organizes its material in consequence. About two thirds of the book analyzes the stories of this period text by text. The early sections map Borges's intellectual trajectory up to the fifties in some detail and up to his death more briefly. They aim to provide an account of the context which will allow the reader maximum access to the meaning and significance of his work and present a biographical narrative developed against the Argentine literary world in which Borges was a key player the Argentine intellectual tradition in its historical context and the Argentine and world politics to which his works respond in more or less obvious ways. STEVEN BOLDY is Reader in Latin American Literature at the University of Cambridge.
