Misplaced Compassion Ward M. Clark, 2001 There are groups out there that want to radically change the way you live your life They want to stop you from hunting and fishing in the great outdoors They want to stop life saving medical research They want to ban circuses and zoos They want to force you to stop eating meat and using other animal based products They even want to stop you from owning pets These groups resort to a variety of tactics from lobbying Congress to protests and rallies They even resort in some cases to violence Who are these groups They are proponents of the Animal Rights agenda Read this book to find out who these groups are and what they are doing to change the way you are allowed to live your life This book debunks the shaky foundations of the AR agenda with equal doses of common sense and scientific evidence It is fully referenced for further research by the curious reader

with Noah Jeffrey P. Bonner, 2013-06-03 Written by the president of the nation's number one zoo Sailing with Noah is an intensely personal behind the scenes look at modern zoos Jeffrey P Bonner who was trained as an anthropologist and came to the zoo world quite by accident shares some of the most compelling stories ever told about contemporary zoos The stories jump between zoos in different cities and between countries on different continents Some are fun and funny Others are sad even tragic Pete Hoskins the director of the Philadelphia Zoo is in bed sound asleep when his phone rings There's been a fire in the World of Primates he is told You've got to get over here Whatever he has been dreaming it is nothing like the nightmare he will find now that he is awake They're all gone They're all gone All of the animals in the building the gorillas the lemurs the orangutans and the gibbons all twenty three of them are dead Written in a lively accessible style Sailing with Noah explores the role of zoos in today's society and their future as institutions of education conservation and research Along the way Bonner relates a variety of true stories about animals and those who care for them or abuse them offering his perspective on heavily publicized incidents and describing less well known events with compassion and humor in turn By bringing the stories of the animals' lives before us Bonner gives them a voice He strongly believes that zoos must act for living things and he argues that conservation is a shared responsibility of all mankind This book helps us to understand why biodiversity is important and what it means to be a steward of life on earth From the day to day aspects of caring for some of the world's most exotic creatures to the role of zoos as field conservation organizations saving wild things in wild places this book takes the reader on an incredible journey a journey that begins within the zoo and continues around the globe Everyone from zoo visitors to animal lovers to professional conservationists the young and old alike will be fascinated by this extraordinary book Besinnelse Hans Kolstad, 2013-12-06 Tsunamien i Stillehavet orkanen Katarina i USA skogbranner i

campaign on behalf of a species that is not their own Responses to this question provide important insights into the much misunderstood animal rights movement and the people in it who challenge the moral orthodoxy that underpins our attitudes towards nonhuman animals The norm of moderate concern for animals that animals matter albeit less than humans permits the abuse of animals in vivisection factory farming bloodsports and other contexts where animals suffer Social movement theory is used to show how animal rights activists are engaged in the social construction of cruelty as a social problem which they seek to prevent by their intellectual practical and emotion work in seminal campaigns against cruelty in the United States England and Australia
