Mykhailo Hrushevsky The Politics Of National Culture:

Mykhailo Hrushevsky and the Politics of National Culture Thomas M. Prymak, 1983 **Mykhailo Hrushevsky** Thomas Michael Prymak, 1987 Historian educator and author Mykola Kostomarov was a leading figure in the Ukrainian national awakening of the nineteenth century and played an important role in the cultural life of Russia as well As an ethnographer he sought to uncover the mysterious soul of the Ukrainian people and his poetry contributed to the development of a Ukrainian literary language An outspoken proponent of social and national emancipation he was imprisoned and exiled for his role in the Cyril Methodian Brotherhood which worked towards a Ukrainian national renaissance and a pan Slavic federalism In Russia he led the populist school which shifted the focus of history away from the realm of tsars and princes and argued the centrality of the people to their own story This first English language biography of Kostomarov and first large scale study of the subject in any language offers a compelling account of his original and controversial scholarship and his role in the cultural politics of his day Prymak brings to light a legacy long buried by the censoring mechanisms of both Tsarist Russia and the Soviet Empire Claimed by both Ukraine and Russia as a major historian Kostomarov s biography provides insight into the complex question of inter ethnic and international relations in Eastern Europe and in the former Russian and Soviet empires A History of Modern Political Thought in East Central Europe Balázs Trencsényi, Michal Kopeček, Luka Lisjak Gabrijelčić, Maria Falina, Mónika Baár, Maciej Janowski, 2018-11-10 A History of Modern Political Thought in East Central Europe is a synthetic work authored by an international team of researchers covering twenty national cultures and 250 years It goes beyond the conventional nation centered narratives and presents a novel vision especially sensitive to the cross cultural entanglement of political ideas and discourses Its principal aim is to make these cultures available for the global market of ideas and revisit some of the basic assumptions about the history of modern political thought and modernity as such The present volume is a sequel to Volume I Negotiating Modernity in the Long Nineteenth Century It begins with the end of the Great War depicting the colorful intellectual landscape of the interwar period and the increasing political and ideological radicalization culminating in the Second World War Taking the war experience both as a breaking point but in many ways also a transmitter of previous intellectual traditions it maps the intellectual paradigms and debates of the immediate postwar years marked by a negotiation between the democratic and communist agendas as well as the subsequent processes of political and cultural Stalinization Subsequently the post Stalinist period is analyzed with a special focus on the various attempts of de Stalinization and the rise of revisionist Marxism and other critical projects culminating in the carnivalesque but also extremely dramatic year of 1968 This volume is followed by Volume II Negotiating Modernity in the Short Twentieth Century and Beyond Part II 1968 2018 **The Cossack Myth** Serhii Plokhyy, 2012-07-26 The fascinating story of The History of the Rus one of the most influential historical texts of the modern era **Geography and National Identity** David Hooson, 1994-10-20 This volume of especially commissioned

essays explores the geography of and the role of geography in national and proto national identity Place and national identity are bound together Attachment to the one is almost always inseparable from the sense of the other Yet as this volume shows the articulated self conscious linking of place and identity is by and large a modern phenomenon that took root in nineteenth century Europe The formation of supranational states and the much vaunted globalization of culture led many to believe there would be a progressive dilution of national identities and a growing agglomeration of places and nations into larger state units Precisely the reverse has taken place This book explores the connections between identity and homeland showing how a place may be perceived as archetypal endowed with love and celebrated in music and poetry yet be a pretext for violence and war It examines the evolution of ideas about identity and their manifestations in a wide variety of settings from the former Soviet Union to the island states of the South Pacific

Public Opinion and the Making of Foreign Policy in the 'New Europe' Nathaniel Copsey, 2016-04-15 By drawing a new boundary between the EU and its eastern neighbours the European Union has since 1989 created a frontier that has been popularly described in the frontier states as the new Berlin Wall This book is the first comparative study of the impact of public opinion on the making of foreign policy in two Eastern European states on either side of the divide Poland and Ukraine Focusing on the vocal informed segment of public opinion and drawing on results of both opinion polls and a series of innovative focus groups gathered since the Orange Revolution Nathaniel Copsey unravels the mystery of how this crucial segment of the public impacts on foreign policy makers in both states He also takes a closer look at the business community and the importance of economic factors in forming public opinion The book presents a fresh approach to our understanding of how the public's view of the past influences contemporary politics
