Sacra Pagina: Galatians Frank J. Matera, 2023-05-30 Paul's Letter to the Galatians has played a major role in the history of theology especially in the Church's teaching on grace faith and justification This commentary argues that Paul's doctrine of justification by faith is essentially social in nature and has important ecumenical implications for the Church today In its original setting Galatians established a foundation for the unity of Jewish and Gentile Christians all are justified by the faith of Jesus Christ In addition to illuminating the historical situation that led Paul to write his Letter to the Galatians this commentary pays careful attention to the rhetorical structure of this letter and its theological message The author provides a fresh translation of Galatians critical notes on each verse of the text and a careful commentary of the letter in light of Paul's theology Theories abound on the question of Galatians why it was written what it says and what the implications of that message are Yet few scholars have devoted themselves at length to this letter What sets this work apart is its extent and detail and its academic rather than popular intent

The Text of the Apostolos in Athanasius of Alexandria Gerald J. Donker, 2011 The text critical study of the Apostolos all of the New Testament apart from the Gospels of the fourth century Greek Father Athanasius of Alexandria has two aims in view one analytical and one methodological An initial review of Athanasius life and writings and a survey of the Alexandrian text type precede an analysis of Athanasius text to determine its classification within the major New Testament text types and particularly its suspected Alexandrian character The book also compares the results of methods traditionally used on the texts of the Fathers with the use of an alternative and advanced method multivariate analysis Unlike quantitative and group profile analyses multivariate analysis utilizes not just a single dimension but the full dimensionality of the source data

Galatians (Paideia: Commentaries on the New Testament) Peter Oakes, 2015-04-14 In this volume respected New Testament scholar Peter Oakes offers a translation and reading of Galatians as presenting a gospel of unity in diversity in Christ He shows that Paul treats the Galatians possible abandonment of his gospel as putting at stake their fidelity to Christ As with other volumes in the Paideia series this volume is conversant with contemporary scholarship draws on ancient backgrounds and attends to the theological nature of the text Students pastors and other readers will appreciate the historical literary and theological insight offered in this practical commentary

Scribal Habits in Sixth-Century Greek Purple Codices Elijah Hixson, 2019-09-16 In Scribal Habits in Sixth Century Greek Purple Codices Elijah Hixson assesses the extent to which unique readings reveal the tendencies of the scribes who produced three luxury manuscripts of Matthew's Gospel The manuscripts Codex Purpureus Petropolitanus N 022 Codex Sinopensis O 023 and Codex Rossanensis 042 were each copied in the sixth century from the same exemplar Hixson

compares the results of a modified singular readings method to the number of actual changes each scribe made. An edition of the lost exemplar and transcriptions of Matthew in each manuscript follow in the appendices. Of particular relevance to New Testament textual criticism is the observation that the singular readings method does not accurately reveal the habits of these three scribes.

The Freer Biblical Manuscripts Larry W. Hurtado, 2006

The six biblical manuscripts that reside in the Freer Gallery of Art in Washington DC are historically significant artifacts for tracing the early history of the transmission of the writings that make up the New Testament and the Septuagint. The manuscripts, all purchased in Egypt at the beginning of the twentieth century by Charles Freer, date to the third through fifth centuries and include codices of the four Gospels, Deuteronomy and Joshua, the Psalms, and the Pauline Epistles, as well as a Coptic codex of the Psalms and a papyrus codex of the Minor Prophets, which until the discovery of the Dead Sea Scrolls was the earliest Greek manuscript of the Minor Prophets known.

The ten essays in this volume are a notable collection of fresh scholarship with long-term value for the study of what is a small but highly valuable treasure trove of biblical manuscripts. The contributors are Malcolm Choat, Kent D. Clarke, Kristin De Troyer, Timothy J. Finney, Dennis Haugh, Larry W. Hurtado, J. Bruce Prior, Jean-François Racine, James R. Royse, Ulrich Schmid, and Thomas A. Wayment.

Perspectives on New Testament Textual Criticism, Volume 2 Eldon Jay Epp, 2020-11-30

Eldon Jay Epp's second volume of collected essays consists of articles previously published during 2006-2017. All treat aspects of the New Testament textual criticism but focus on historical and methodological issues relevant to constructing the earliest attainable text of New Testament writings. More specific emphasis falls upon the nature of textual transmission and the text-critical process and heavily on the criteria employed in establishing that earliest available text. Moreover, textual grouping is examined at length and prominent is the current approach to textual variants not approved for the constructed text, for they have stories to tell regarding theological, ethical, and real-life issues as the early Christian churches sought to work out their own status, practices, and destiny.

The Oxford Handbook of Pauline Studies Matthew V. Novenson, R. Barry Matlock, 2022-04-08

The Oxford Handbook of Pauline Studies brings together a diverse international group of experts on the apostle Paul. It examines the authentic texts from his own hand, other ancient texts falsely attributed to him, the numerous early Christian legends about him, and the many meanings that have been and still are made of these texts to give a twenty-first-century snapshot of Pauline Studies. Divided into five key sections, the Handbook begins by examining Paul the person, a largely biographical sketching of the life of Paul himself to the limited extent that it is possible.

to do so It moves on to explore Paul in context and Pauline Literature looking in detail at the letters manuscripts and canons that constitute most of our extant evidence for the apostle Part Four uses a number of classic motifs to describe what modern experts describe as Pauline Theology and Part Five considers the many productive reading strategies with which recent interpreters have made meaning of the letters of Paul It is demonstrated that reading Paul is not and never has been just one thing It has always been a matter of the particular questions and interests that the reader brings to these very generative texts The Oxford Handbook of Pauline Studies thoroughly surveys the state of Pauline studies today paying particular attention to theory and method in interpretation It considers traditional approaches alongside recent approaches to Paul including gender race and ethnicity and material culture Brought together the chapters are an ideal resource for teachers and students of Paul and his letters

The Blackwell Companion to Paul Stephen Westerholm, 2014-01-07 The Blackwell Companion to Paul presents a distinctive dual focus approach that encompasses both the historical Paul and the history of Paul's influence In doing so expert contributors successfully address the interests of students of early Christianity and those of Christian theology Offers a complete overview of the life writings and legacy of one of the key figures of Christianity The essays compass the major themes of Paul's life and work as well as his impact through the centuries on theology Church teaching social beliefs art literature and contemporary intellectual thought Edited by one of the leading figures in the field of Pauline Studies The contributors include a range of world renowned academics

New Testament Greek manuscripts: 2 Corinthians Reuben J. Swanson, **Paul's Negotiation of Abraham in Galatians 3 in the Jewish Context** Per Jarle Bekken, 2021-07-05 This work offers a fresh reading of Paul's appropriation of Abraham in Gal 3 6 29 against the background of Jewish data especially drawn from the writings of Philo of Alexandria Philo's negotiation on Abraham as the model proselyte and the founder of the Jewish nation based on his trust in God's promise relative to the Law of Moses provides a Jewish context for a corresponding debate reflected in Galatians and suggests that there were Jewish antecedents that came close to Paul's reasoning in his own time This volume incorporates a number of new arguments in the context of scholarly discussion of both Galatian 3 and some of the Philonic texts and demonstrates how the works of Philo can be applied responsibly in New Testament scholarship
