**Whitaker's Books in Print**, 1998      *The Changing Status of Women in West Bengal, 1970-2000* Jasodhara Bagchi, Sarmistha Dutta Gupta, 2005-01-24 This important and comprehensive volume vividly depicts the current status of women and girls in West Bengal. The analysis has been conducted in the framework of the socio-economic and politico-cultural ambience that has characterized the state in recent decades. The contributors highlight both areas of strength and vulnerability and clearly demonstrate that the status of women cannot be conceived as monolithic or static; it has many facets and is in a state of constant flux. The analysis of macro data is supported by revealing micro studies based on field surveys and an examination of cultural trends.

**E-learning and Disability in Higher Education** Jane Seale, 2013-10-08 Most people working within the higher education sector understand the importance of making e-learning accessible to students with disabilities; yet it is not always clear exactly how this should be accomplished. *E-Learning and Disability in Higher Education* evaluates current accessibility practice and critiques the extent to which best practices can be confidently identified and disseminated. This second edition has been fully updated and includes a focus on research that seeks to give voice to disabled students in a way that provides an indispensable insight into their relationship with technologies and the institutions in which they study. Examining the social, educational and political background behind making online learning accessible in higher and further education, *E-Learning and Disability in Higher Education* considers the roles and perspectives of the key stakeholders involved in e-learning: lecturers, professors, instructional designers, learning technologists, student support services staff, developers and senior managers and administrators.

**The British National Bibliography** Arthur James Wells, 2000      *Aquaculture and Fisheries Biotechnology* Rex A. Dunham, 2023-02-28 The genetic improvement of fish for aquaculture and related fisheries has seen huge advances over recent years. Building upon the previous two editions of *Aquaculture and Fisheries Biotechnology: Genetic Approaches*, this 3rd edition offers a presentation of traditional selective breeding, modern genetic biotechnology, genomics, gene transfer and gene editing and the latest developments in genetic biotechnology such as epigenetics, xenogenesis and genome-wide association study coupled with commercial application, the impact of government regulation and expectations for the future. It provides a firm grounding in relevant aspects of classical genetics before focusing on particular aspects such as sex reversal and breeding as applied in aquaculture and fisheries. It also explores how more recent molecular genetics, genomics and biotechnology techniques can be used and combined in improvement programmes for fish and aquaculture species. A glossary explains the latest terminology used in biotechnology and genetics. This book will be useful for research scientists and students in marine biotechnology, aquaculture, biotechnology and fish genetics and breeding.
