True Stories of Law & Order Kevin Dwyer, Juré Fiorillo, 2006-11-07 *True Stories of Law Order* reveals the fascinating and shocking facts behind 25 of the hit show's most popular episodes from the incredible account of how a woman's repressed memory leads to the solving of a 30 year old cold case to the high profile investigation of transvestite millionaire Robert Durst And just like in *Law Order* the actual crime is just the beginning as you follow these cases from the initial stages of the investigation through the trial and up to the often controversial verdicts Part of the reason millions of fans tune in to *Law Order* is the gritty realism of its storytelling The monumentally popular show has included many episodes inspired by actual cases ripped from the headlines true crimes that are often stranger and more chilling than fiction

The Postmodern Short Story Farhat Iftekharrudin, Joseph Boyden, Mary Rohrberger, Jaie Claudet, 2003-12-30 Short stories are usually defined in terms of characteristics of modernism in which the story begins in the middle develops according to a truncated plot and ends with an epiphany This approach tends to ignore postmodernism a movement often characterized by a negation of objective reality where plots are seemingly abandoned surfaces are extraordinary and symbols turn inward on themselves This book examines postmodern forms and characteristic themes by analyzing a group of short stories that make use of postmodern narrative strategies including nonfictional fiction gender profiling and death as an image The volume begins with a discussion of the blurred lines between fiction and nonfiction in the short story and imaginative personal essay It then looks at the role of women in works by such authors as Sandra Cisneros Leslie Marmon Silko Joyce Carol Oates and Lorrie Moore This is followed by a section of chapters on postmodern masculinity and short fiction The next section focuses on death as an image and theme in works by Richard Ford Richard Brautigan and James Joyce The final set of chapters considers postmodern short fiction from South Africa and Canada

Smith,2016-09-23 This volume investigates the diverse applications and conceptions of the term The Golden Age The phrase resonates with the theme of nostalgia which is popularly understood as a wistful longing for the past but which also denotes homesickness and the unrecoverability of the past While the term Golden Age typically conjures up idealised visions of the past and gestures forward to utopian visions of future golden ages the idea of nostalgia is suggestive of a discontented present The Golden Age and nostalgia are therefore related ideas but are also partly in conflict with one another as many nostalgic sentiments are not idealised and may indeed

be dark ironic or self aware There are of course many other ways to characterise the relationship between the Golden Age and nostalgia and the tension between the two can produce myths and romantic idylls or in religious terms images of prelapsarian innocence or dogmas relating to values associated with childhood The Golden Age is also often used to refer to specific respected periods of cultural production in all kinds of literature and visual media Indeed nearly every period genre nation and cultural form has some kind of mythic often illusory Golden Age against which it is defined and in which nostalgia often plays a part This collection interrogates the notion of the Golden Age and its connection to feelings of nostalgia from a range of interdisciplinary perspectives with a strong focus on the relationship between word and image It will interest scholars working on the subject of the Golden Age nostalgia particularly in English literature film studies comics studies history and the fine arts
