

Realism: Values/Beliefs

- Contrasts w/Romanticism & Transcendentalism
- Describes life w/out Romantic subjectivity & idealism
- Romantics *transcend* the immediate to find the ideal; Realists focus on the immediate, the here & now and its consequences
- Present life as it *is*, not as it *might* be
- Like Romantics, focus on common person & daily human experience & progressive, but stimulated change through telling a story that reveals truth & portrays ugliness & cruelty, not preaching (left readers to draw their own conclusions)
- Multiple views of life: all classes, races, genders
 - Particularly lower/middle classes
 - Highlight class stratification/inequity
 - Reveal the ugliness & cruelty of life, but leave conclusions to the reader

Realism And Human Values:

Realism and Human Values Erika Erdmann, 1978-01-01 **God and Realism** Peter Byrne, 2017-07-05 Peter Byrne's study of God and realism offers a critical survey of issues surrounding the realist interpretation of theism and theology. Byrne presents a general argument for interpreting the intent of talk about God in a realist fashion and argues that judging the intent of theistic discourse should be the primary object of concern in the philosophy of religion. He considers a number of important ideas and thinkers supporting global anti-realism and finds them all wanting. After the refutation of global anti-realism, Byrne considers a number of important arguments in favour of the notion that there is something specific to talk about God which invites an anti-realist interpretation of it. Here he looks at verificationism, the writings of Don Cupitt, forms of radical feminist theory and the ideas of D. Z. Phillips. The book concludes with a discussion of whether theology as a discursive academic discipline can be interpreted realistically. Offering a comprehensive survey of the topic and of the leading literature in the field, this book presents key arguments for exploring issues brought to bear upon the realism debate. Students and scholars of philosophy of religion, philosophy of language, metaphysics, theory of knowledge and theology will find this an invaluable new contribution to the field.

Edinburgh Companion to Political Realism Robert Schuett, 2018-11-14 Political realism is a highly diverse body of international relations theory. This substantial reference work examines political realism in terms of its history, its scientific methodology and its normative role in international affairs. Split into three sections, it covers the 2000-year canon of realism, the different schools of thought, the key thinkers and how it responds to foreign policy challenges faced by individual states and globally. It brings political realism up to date by showing where theory has failed to keep up with contemporary problems and suggests how it can be applied and adapted to fit our new globalised world order.

Realism & Rethinking Private Law Theory Hanoch Dagan, 2013-09-19 In *Reconstructing American Legal Realism: Rethinking Private Law Theory*, Hanoch Dagan provides an innovative and useful interpretation of legal realism. He revives the legal realists' rich account of law as a growing institution accommodating three sets of constitutive tensions between power and reason, science and craft, and tradition and progress, and demonstrates how the major claims attributed to legal realism fit into this conception of law. This book demonstrates how legal realism offers important and unique jurisprudential insights that are not just a part of legal history but are also relevant and useful for a contemporary understanding of legal theory.

Realism & Antirealism William P. Alston, 2002 Throughout the past century a debate has raged over the thesis of realism and its alternatives. In this volume of original essays, a group of philosophers explores the ongoing controversy.

Nuclear Realism Rens van Munster, Casper Sylvest, 2016-04-14 What is a realist response to nuclear weapons This book is animated by the idea that contemporary attempts to confront the challenge of nuclear weapons and other global security problems would benefit from richer historical foundations Returning to the decade of deep thermonuclear anxiety inaugurated in the early 1950s the authors focus on four creative intellectuals G nther Anders John H Herz Lewis Mumford and Bertrand Russell whose work they reclaim under the label of nuclear realism This book brings out an important oppositional and resolutely global strand of political thought that combines realist insights about nuclear weapons with radical proposals for social and political transformation as the only escape from a profoundly endangered planet Nuclear Realism is a highly original and provocative study that will be of great use to advanced undergraduates graduates and scholars of political theory International Relations and Cold War history

Political Realism in International Theory Roger D. Spegele, 1996-08-22 In this 1996 book Roger Spegele argues that in the past international theorists have failed to recognise that there is not one conception of international relations subdivided into different theories and approaches but at least three wholly different conceptions of the subject Though scholars are increasingly prepared to accept this there is still no consensus about what to call these conceptions how to describe them and why they should be studied This book attempts to fill this gap The author first examines two conceptions of IR positivism empiricism and emancipatory international relations which challenge political realism He then defends a revised version of realism called evaluative political realism from challenges arising from its rivals with the aim of defining a conception of political realism

Introduction to International Criminal Law M. Cherif Bassiouni,2013 This title covers the history nature and sources of international criminal law the *ratione personae* *ratione materiae* sources of substantive international criminal law the indirect enforcement system the direct enforcement system and much more The Good, the Right, and the Real: Is Value a Fact? David Baggett,Professor of Philosophy/Scholar in Residence Jerry L Walls,2025-09-03 The book argues for a strongly objective understanding of ethics Positive arguments in its favor are discussed and anticipated objections are answered

Alternatives to objectivist views of ethics are considered at length Among such views include that all moral claims are false that no moral sentences express truth claims and that moral judgments derive their truth from the preferences or sentiments of human beings Having argued for a strongly objectivist understanding of morality the case is made that God deserves to be taken seriously as a contender for its best explanation

The Value of Humanity L. Nandi Theunissen, 2020-02-06 L Nandi Theunissen develops a non Kantian account of the value of human beings Against the Kantian tradition in which humanity is absolutely valuable and unlike the value of anything else Theunissen outlines a relational proposal according to which our value is continuous with the value of other valuable things She takes the Socratic starting point that good is affecting and more particularly that good is a notion of benefit If people are bearers of value the proposal is that our value is no exception Theunissen explores the possibility that our value is explained through reciprocal relations or relations of interdependence as when as daughters or teachers or friends we benefit others by being part or constitutive of relationships with them She also investigates the possibility that we can be said to stand in a valuable relationship with ourselves Ultimately in *The Value of Humanity* she proposes that people are of value because we are constituted in such a way that we can be good for ourselves in the sense that we are able to lead flourishing lives Intuitively a person matters because she matters to herself in a very particular sort of way to appropriate a phrase she is a being for whom her life can be an issue

Blooming and Contending Michael S. Duke, 1985 Chinese literature has been the slave of politics at least since 1948 and especially during the Cultural Revolution So repressed and convoluted is most Chinese literature that the West cannot read it as literature at all but rather as sociological and political texts Professor Duke believes this has changed enough since 1977 to permit genuine literary analysis This book surveys and analyzes the most important literary events in the PRC from 1977 to 1982 Chapter I covers the significant changes in the Chinese Party line on literature and art during this period and thus provides the backdrop for literary and artistic endeavor Subsequent chapters deal with the critique of Chinese literature by China's own writers the neo realistic fiction of 1979-80 the nonfiction works of a courageous investigative reporter for the People's Daily and the theme of humanism and its treatment in the works of Bai Hua and Dai Houying The final chapter discusses the post Mao generation of young writers who are trying to create works that go beyond narrowly ideological boundaries of the past and reach toward a true modern Chinese literature
