Gibbs,Philip A. Grey,2011-06-08 Five Foundations of Human Development FFHD is a philosophical religious and practical discourse on human development based on the following five foundations Spiritual Moral Social Intellectual and Physical The authors proffer that human beings possess the capacity to rise to a higher state of civilization when we allow Spiritual Intelligence to underpin human intelligence as our capable guide The indomitable spirit within human beings that brought civilization out of the Dark Ages and into an Age of Enlightenment demonstrates our capacity to transcend moral hope and optimism for a better world with peaceful coexistence among individuals families and nations This book will help inform enlighten and empower individuals and leaders in such fields as engineering science religion politics the military and other great institutions to engender solutions to the myriad of unsolved problems of past centuries problems of the present and emerging problems of the future Problems such as wars genocide greed and the exploitation of human beings begin within our destructive spiritual nature and manifest in the physical nature Therefore solutions also lie in the spiritual realm as a counterbalance to the natural realm of human existence FFHD is a blueprint for human survival based on adherence to physical laws and spiritual laws that transcend a belief in an omnipotent all powerful omnipresent everywhere and omniscient all knowing being It will awaken the conscience to comprehend the lifethreatening issues that face humankind The solutions therefore cannot merely be left only to the educated elite the military forces and those in high public and private office The global significance of this book is that it informs a more communal view of our world It is the only perspective that will allow us to enter the global village prepared for the racial social cultural environmental and economic challenges that lie ahead **Pre-Christian skepticism** John Owen,1881 [The Failure of Bible Prophecy](#) Sandoval Chris Sandoval,Chris Sandoval,2010 Fundamentalists say the fulfillment of prophecy proves the divine inspiration

of the Bible Supposedly the prophets predicted Jesus Christ s birth ministry death and resurrection centuries before he existed They also supposedly predicted the rise and fall of nations such as Tyre Egypt Edom and Babylon And they claim to have described the threat of Russia the founding of Israel in 1948 and the political unification of Europe Upon closer examination the claims do not hold up The so called messianic prophecies are taken out of context and have nothing to do with Jesus This book proves Nebuchadnezzar never made a wasteland out of Egypt for forty years as Ezekiel predicted The world did not end immediately after the fall of Jerusalem in 70 AD as Jesus had purportedly predicted in Matthew 24 The biblical prophets predicted nothing about Christ or Antichrist in the distant future but plenty about apocalyptic doom and messianic glory in their own near future And much more Find out why biblical explanations of the world today do not add up and why this matters in The Failure of Bible Prophecy
