Rebuilding Community Policy And Practice In Urban Regeneration:

Rebuilding Community Joan Smith, 2001-10-10 Our poorest urban neighbourhoods experience economic and social difficulties that uniquely affect the lives of those who live there This volume examines the policies and initiatives now underway on both sides of the Atlantic to revitalize those areas With contributors from the US France and the UK the volume explains the nature of specific community building programmes and explores critical issues such as the role of partnerships and the importance of race and gender in urban regeneration Urban Regeneration in the UK Andrew Tallon, 2009-08-21 Exploring the streets of London Manchester Belfast Edinburgh or Cardiff one cannot help but notice the striking transformations taking place in the urban landscapes This prominent regeneration of urban areas in the UK and around the world has become an increasingly important issue amongst governments and populations The growing concern has been a result of the impacts of the decline of cities since the collapse of manufacturing industries and the heightening of global competition A range of innovative approaches to tackle urban problems have been taken over many decades to attempt to regenerate the fortunes of towns and cities across the UK This text provides an accessible yet critical synthesis of urban regeneration in the UK incorporating key policies approaches issues and debates The central objective of the book is to place the historical and contemporary regeneration agenda into context Section one sets up the conceptual and policy framework for urban regeneration in the UK Section Two traces policies that have been adopted by central government to influence the social economic and physical development of cities including early municipal interventions in the late nineteenth century community focused urban policies of the late 1960s entrepreneurial property led regeneration of the 1980s and competition for urban funds in the 1990s The penultimate section illustrates the key thematic policies and strategies that have been pursued by cities themselves focusing particularly on improving economic competitiveness and tackling social disadvantage These approaches are contextualized by discussions covering for example urban competitiveness policies and the focus on sustainable urban regeneration The final section summarizes key issues and debates facing urban regeneration and speculates upon future directions Urban Regeneration in the UK blends the approaches taken by central government programmes and cities themselves in the regeneration process The latest ideas and examples from across disciplines and across the UK's urban areas are illustrated This book provides a comprehensive and up to date synthesis that will fill a significant gap in the current literature on regeneration and will be a tool for students as well as a seminal read for practitioners and researchers Community Regeneration Masterplan Francesco Manfredi, Dario Costi, 2023-01-01 This book reports on a large research project on community regeneration which integrated the spatial social economic and organizational factors with the dimensions of sustainability resilience and participation Upon providing a detailed review on concepts of community and urban regeneration it analyses a set of successful case studies from 30 European cities which were selected by the authors from different rankings and awards Fifty seven key performance indicators and the results of

self assessment questionnaires are here introduced to allow a comparative study of best practices and eventually to outline 20 guidelines and 100 strategic actions for future community regeneration projects All in all this book offers extensive information and a source of inspiration for urban planners economists sociologists public administrators stakeholders and all those involved in the development and management of sustainable cities *Tackling Social Exclusion* John Pierson,2003-09-02 The concept of social exclusion is a central focus of goverment policy and is rapidly moving to the core of practitioner activity This textbook shows how social workers can combat the social exclusion experienced by service users and at the same time promote social inclusion Tackling Social Exclusion covers the meanings of social exclusion and the common elements of practice needed to reverse it the skills needed when working with specific groups of people including children and families young people and vulnerable adults the neighbourhood dimension in social exclusion the link between race and ethnic minorities and social exclusion and the implications of the Macpherson Report for practice how service agencies can change their organisation to promotie inclusion how to work with communities to effect change Each chapter is grounded in real practice examples and explores through activities case studies and exercises how the perspective of social exclusion is changing social work today **Key Concepts in Community Studies** Tony Blackshaw,2010 This book is both insightful and engaging enriched with diverse and up to date readings Tony Blackshaw lays bare debates surrounding the uses and abuses of key concepts of community studies and breathes new life into community as theory and community studies as method Peter Bramham Leeds Metropolitan University I would highly recommend this book to any student who is studying communities and groups in society The book and chapters are structured in a way that students will find it easy to move from one theme to another to dip into relevant chapters when needed to gain a good understanding of concepts and how and why they are applied to individuals and communities The book encompasses both breadth and depth of key concepts and issues This book will be compulsory reading on our Community Studies degree Lesley Groom University of Bolton This book defines the current identity of community studies provides a critical but reliable introduction to its key concepts and is an engaging guide to the key social research methods used by community researchers and practitioners Concise but clear it caters for the needs of those interested in community studies by offering cross referenced accessible overviews of the key theoretical issues that have the most influence on community studies today It incorporates all of the important frames of reference including those which are theoretical research focused practice and policy oriented political concerned about the place of community in everyday life The extensive bibliographies and up to date guides to further reading reinforce the aim of the book to provide an invaluable learning resource Interdisciplinary in approach and inventive in its range of applications this book will be of value to students studying sociology social policy politics and community development **Tackling Social Exclusion** John H. Pierson,2009-10-16 The concept of social exclusion has been a central focus of government policy for the past ten years and is now at the core of much practitioner activity Thoroughly updated this much needed second

edition shows how social workers can combat the social exclusion experienced by service users and at the same time promote social inclusion It clearly and accessibly demonstrates how concepts and theories of social exclusion can be used to improve practice Tackling Social Exclusion covers social work perspectives and approaches promoting social inclusion contemporary issues such as preventative work with young children and families anti social behaviour and tensions relating to ethnicity immigration and faith the role of the voluntary sector and how service agencies can change their organisation to promote inclusion the skills needed when working with specific groups including children and families young people vulnerable adults and communities as well as new material on social exclusion in more rural areas Each chapter is grounded in up to date practice examples and explores through activities case studies and exercises how the perspective of social exclusion is changing social work today

Housing and Social Policy Peter Somerville,Nigel Sprigings,2005-09-19 This topical book transforms the analysis of housing problems into a lively interesting and contentious subject of social scientific study addressing themes of residential experience inclusion empowerment sustainability and professionalism managerialism which lie at the heart of the housing and social policy debate Each chapter considers a specific social category such as class gender or disability and evaluates the experience and understanding of housing and social policy under this category With innovative approaches to conceptualising housing and a clear defined structure Housing and Social Policy encourages students and practitioners in both arenas to think reflexively about housing as a central instrument of social policy and social experience

Developing Coalfields Communities David Waddington,2003-12-03 In 1998 following a sobering report by the Coalfields Task Force New Labour unveiled a 350 million package of measures to remedy coalfield deprivation and social exclusion This book examines the impact of this investment in Warsop Vale a village which has starkly emphasised the negative consequences of coalfield decline

Producing Welfare Chris Miller, 2017-05-02 This book is about the organization and delivery of welfare services a subject that is currently the focus of hot debate as successive governments seek to modernize public services in response to recent social economic and political change Written specifically for a student readership it provides a critical and contemporary exploration of the organizational models processes and structures associated with different approaches to welfare including traditional post war approaches and the new right Particular emphasis is given to the formulation and implementation of policy under the current British Labour government

Architectural Regeneration Aylin Orbasli, Marcel Vellinga, 2020-08-03 A comprehensive and detailed overview of the active regeneration rehabilitation and revitalisation of architectural heritage The combined processes of globalisation urbanisation environmental change population growth and rapid technological development have resulted in an increasingly complex dynamic and interrelated world in which concerns about the meaning of cultural heritage and identity continue to grow As the need for culturally and environmentally sustainable design grows the challenge for professionals involved in the management of inherited built environments is to respond to this ever changing context in a critical dynamic and creative way Our knowledge and understanding of the principles approaches and methods to sustainably adapt existing buildings and places is rapidly expanding Architectural Regeneration contributes to this knowledge base through a holistic approach that links policy with practice and establishes a theoretical framework within which to understand architectural regeneration It includes extensive case studies of the regeneration rehabilitation and revitalisation of architectural heritage from around the world Different scales and contexts of architectural regeneration are discussed including urban suburban rural and temporary At a time when regeneration policy has shifted to the recognition that heritage matters and that the historic environment and creative industries are a vital driver of regeneration an increasing workload of architectural practices concerns the refurbishment adaptive re use or extension of existing buildings As a result this book is ideal for undergraduate and graduate students of architecture historic conservation urban and environmental design sustainability and urban regeneration as well as for practitioners and decision makers working in those fields

Spiritual Care in

Everyday Nursing Practice Janice Clarke, 2013-05-31 As changes in technology policy and management put an increasing emphasis on processes and procedures in nursing and health care how do we continue to make room for compassion the ancient human value that calls most nurses to the profession In *Spiritual Care in Everyday Nursing Practice* Janice Clarke argues that it is compassionate care of the whole person body and soul which is at the heart of nursing practice that values the individual and respects their dignity Rather than seeing spiritual care as an addition to what nurses already do this new approach considers it a natural part of compassionate care which doesn't present the nurse with an extra ambiguous burden to deal with Providing a brief historical introduction to the concept of spirituality Clarke examines the ways in which our spiritual life a source of strength and meaning can be influenced by factors such as age illness and suffering and mental illness as well as our religious beliefs Providing a practical guide to talking about and working with spirituality she explores how nurses might imbue all their practice including the physical aspects of care from use of touch to helping patients to move bathe and eat with an attention to spiritual needs A timely accessible and practical introduction to a concept that is under explored in contemporary nursing literature this book will be of great value to students and professionals alike

Community Planning Stephanie B. Kelly, 2004-10-17 *Community Planning How to Solve Urban and Environmental Problems* covers the basic theoretical principles of community planning and how planning has evolved in the United States The book defines the interdisciplinary nature of the field identifies the forces that shape the planning process and explains the sub specialized areas of community planning Throughout the text the author draws connections between the theoretical principles of planning and their practical applications leading to an emphasis on the essential skill that links theory to implementation and practice problem solving After reading each chapter and corresponding exercises students learn to link the theoretical concepts with real world planning problems on their campus downtown and hometowns Several major themes run throughout the text First understanding the theoretical principles of community planning leads to effective practical applications in problem solving Second using the problem oriented approach is an effective way of dealing with the immediate situations that confront community planners and lastly planners are confronted with their political implications therefore discussions about the role of federal state and local regulations on planning practice are woven into the text *Community Planning How to Solve Urban and Environmental Problems* provides students with an understanding of the events that shape community planning the particular forces that impact the planning process and the knowledge that is needed to link content areas together to solve planning problems The book is suitable for students in regional environmental city and community planning courses as well as for students in related fields including geography sociology criminal justice public administration and economics The content and problem solving techniques are valuable for all students in order to participate in community service activities in the future and the practical aspects of the text make it suitable Social Networks and Social Exclusion Graham Allan, 2017-03-02 How important are social networks to daily life There is now

substantial evidence that attachment to a network may be vital in securing employment in promoting good health in maintaining positive relationships and in supporting people in transitions through the life course. Equally, lack of access to networks may lead to problems of various kinds such as poverty, lack of support in old age and social isolation. Providing an overview of the social network literature with a particular focus on the USA and Britain, this illuminating volume reviews the range of social issues and concerns associated with the social network perspective. Examples of quantitative and qualitative studies are given using a broad network approach and the volume concludes with a discussion of the implications for social and public policy of a network perspective.

Race and the Politics of Deception Christopher Mele, 2017-01-10. Unpacks America's history of dealing with racial problems through the inequitable use of public space. Focuses on Chester, Pennsylvania, a small city comprised of primarily low-income black residents, roughly twenty miles south of Philadelphia. Like many cities throughout the United States, Chester is experiencing post-industrial decline. A development plan touted as a way to save the city proposes to turn one section into a desirable waterfront destination while leaving the rest of the struggling residents in fractured communities. Dividing the city into spaces of tourism and consumption versus the everyday spaces of low-income residents. While these development plans are described as socially inclusive and economically revitalizing, Mele asserts that political leaders and real estate developers intentionally exclude certain types of people, most often low-income people of color.
