Mid-Atlantic Freshwater Wetlands: Advances in Wetlands Science, Management, Policy, and Practice Robert P. Brooks,Denise Heller Wardrop,2013-01-25 The lands and waters of the Mid Atlantic Region MAR have changed significantly since before the 16th century when the Susquehannock lived in the area Much has changed since Captain John Smith penetrated the estuaries and rivers during the early 17th century since the surveying of the Mason Dixon Line to settle border disputes among Maryland Pennsylvania and Delaware during the middle of the 18th century and since J Thomas Scharf described the physiographic setting of Baltimore County in the late 19th century As early as 1881 Scharf provides us with an assessment of the condition of the aquatic ecosystems of the region albeit in narrative form and already changes are taking place the conversion of forests to fields the founding of towns and cities and the depletion of natural resources We have always conducted our work with the premise that man is part of and not apart from this ecosystem and landscape This premise and the historical changes in our landscape provide the foundation for our overarching research question how do human activities impact the functioning of aquatic ecosystems and the ecosystem services that they provide and how can we optimize this relationship **Archaeology, Copper, and Complexity in the Middle Atlantic Region** Gregory Denis Lattanzi,2022-01-14 For the prehistoric people of the Middle Atlantic region copper held a fascination higher than rank achievement or status Native copper artifacts along with other exotic objects were seen as a conduit or connection between

the living and the dead and were used in burial Other studies have viewed the use of such artifacts in burials as indicative of an individual's status and rank providing evidence for complex society In Archaeology Copper and Complexity Gregory Denis Lattanzi contends that such economic explanations should be rethought arguing that the presence of highly exotic artifacts like copper beads and gorgets could be representative of the different mechanisms at play within prehistoric ideology ceremonialism and ritual
