Regions and Regionalism in South Asian Studies: an Exploratory Study Robert I. Crane, 1967 *Geography of the South Asian Subcontinent* Aijazuddin Ahmad, 2009 This book attempts to explore the possibility of discovering the roots of unity of the South Asian countries Describing the nations nationalities and nationalism in Afghanistan Pakistan Bangladesh Nepal Bhutan Srilanka Maldives and India It makes a comprehensive study of their geographical features shared history and political evolution Taking a close look at their shifting identities it also presents a detailed account of their society and social formations ethnic antecedents race and caste regions and regionalism culture realms languages and economic as well as human development The Sufis of Bijapur, 1300-1700 Richard Maxwell Eaton, 2015-03-08 The Sufis were heirs to a tradition of Islamic mysticism and they have generally been viewed as standing more or less apart from the social order Professor Eaton contends to the contrary that the Sufis were an integral part of their society and that an understanding of their interaction with it is essential to an understanding of the Sufis themselves In investigating the Sufis of Bijapur in South India he author identifies three fundamental questions What was the relationship he asks between the Sufis and Bijapur s ulama the upholders of Islamic orthodoxy Second how did the Sufis relate to the Bijapur court Finally how did they interact with the non Muslim population surrounding them and how did they translate highly developed mystical traditions into terms meaningful to that population In answering these questions the author advances our knowledge of an important but little studied city state in medieval India Originally published in 1978 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **The Oriental, the Ancient and the Primitive** Jack Goody, 1990-02-08 Continuing the comparative survey of pre industrial family formation undertaken in *The Development of Family and Marriage in Europe* 1983 Professor Goody looks in depth at kinship practice in Asia His findings cause him to question many traditional assumptions about the primitive East and he suggests that in contrast to pre colonial Africa kinship practice in Asia has much in common with that prevailing in parts of pre industrial Europe Goody examines the transmission of productive and other property in relation both to the prevailing political economy and to family and ideological structures and explores the distribution of mechanisms and strategies of

management across cultures The book concludes that notions of western uniqueness are often misplaced and that much previous work on Asian kinship has been unwittingly distorted by the application of concepts and approaches derived from other inappropriate social formations

Decentring the Indian Nation Andrew Wyatt, John Zavos, 2023-03-31 First published in 2003 Decentring the Indian Nation examines the various centrifugal forces apparent in recent Indian politics After achieving independence in 1947 India's elite opted to build a modern nation state This idea was carefully nurtured during the fight for freedom from British rule by the dominant Congress movement In recent years the idea of a centralised state has been challenged from a number of directions Strong regional political movements have questioned the assumption that India's federal system requires a dominant centre The related trend of identity based mobilisation has challenged settled notions of Indian national identity The authors discuss the idea that as a nation India is becoming decentred and consider the implications of this idea for the development of the Indian polity This book will be of interest to students of politics geography and development

Studying Early India Brajadulal Chattopadhyaya, 2006 A focal study of the methodological changes that confront historians of pre colonial India

Driving the Change Anjana Mangalagiri, 2025-05-01 A Royal Rescript issued in 1817 by Rani Gouri Parvati Bayi queen of Travancore Kerala proclaimed that the state would defray the entire cost of education She envisioned that only free and universal education would enable her state to overcome backwardness and empower its people to contribute to the state's advancement To uphold the continued relevance of that spirit the Institute of Social Sciences in New Delhi India commemorated the bicentenary of the Royal Rescript in 2017 This volume consolidates a selection of contributions from educational experts academics and scholars which were presented at the commemoration The papers in this volume attempt to deconstruct conventional approaches to understanding education They discuss the underlying forces that have continued to perpetuate inter generational inequalities in the provision and attainment of education especially amongst the low income and marginalized populations The chapters also present an analysis of the aspects of equity and quality in primary secondary and tertiary education accountability in public policy the power of building progressive partnerships and alliances and most importantly the cumulative benefits of forging multi sectoral linkages Print edition not for sale in South Asia India Sri Lanka Nepal Bangladesh Pakistan or Bhutan

Spatial Fragmentation of Political Behaviour in India Sheel Chand Nuna, 1989 Revision of the author's thesis Ph D Jawaharlal Nehru University

The Concept of Bharatavarsha and Other Essays B. D. Chattopadhyaya, 2018-08-23 This exploration of key terms related to social and political order found in early Indian texts challenges the idea of a unified ancient India and a unified national identity at that time This collection explores what may be called the idea of India in ancient times Its undeclared objective is to identify key concepts which show early Indian civilization as distinct and differently oriented from other formations The essays focus on ancient Indian texts within a variety of genres They identify certain key terms such as janapada desa var a dharma bh va in their empirical contexts to suggest that neither the ideas embedded in these terms nor the idea of

Bharatavarsha as a whole are given entities but that they evolved historically Professor Chattopadhyaya examines these texts to unveil historical processes Without denying comparative history he stresses that the internal dynamics of a society are best decoded via its own texts His approach bears very effectively on understanding ongoing interactions between India's Great Tradition and Little Traditions As a whole this book is critical of the notion of overarching Indian unity in the ancient period It punctures the retrospective thrust of hegemonic nationalism as an ideology that has obscured the diverse textures of Indian civilization Renowned for his scholarship on the ancient Indian past Professor Chattopadhyaya's latest collection only consolidates his high international reputation

God Willing Ali Riaz, 2004-06-03 Is Bangladesh becoming a Taliban state Talibanization has become an international fear in our post 9/11 era and attention has begun to focus on Bangladesh in light of the growing strength of militant groups supposedly aligned with Al Qaeda the landslide victory of the center right coalition in the general election of October 2001 and the deliberate and planned violence against religious minorities that followed *God Willing* answers the explosive question of Talibanization by analyzing the politics of Islamism in Bangladesh the world's third most populous Muslim country The book's detailed analysis of events constitutional measures and political processes reveals how once banned religious political forces assumed a preeminent position within the democratic polity Far from being a recent trend the Islamization process in Bangladesh has been escalating for more than two decades Looking beyond the sensational glare of media coverage Ali Riaz helps the reader to understand the emergence of Islamism as a legitimate political force through democratic means in a largely secular state as opposed to the media's portrayal of Bangladesh as a country overrun by Islamist forces with a supranational agenda The author compares Bangladesh with Indonesia and Pakistan thus adding a valuable global context for evaluating the politics of Muslim countries

The Cult of Draupadi, Volume 1 Alf Hildebeitel, 1988-03-21 This is the first volume of a projected three volume work on the little known South Indian folk cult of the goddess Draupadi and on the classical epic the Mahabharata that the cult brings to life in mythic ritual and dramatic forms Draupadi the chief heroine of the Sanskrit Mahabharata takes on many unexpected guises in her Tamil cult but her dimensions as a folk goddess remain rooted in a rich interpretive vision of the great epic By examining the ways that the cult of Draupadi commingles traditions about the goddess and the epic Alf Hildebeitel shows the cult to be singularly representative of the inner tensions and working dynamics of popular devotional Hinduism
