Regions Nations And European Integration Remaking The Celtic Periphery:

Regions, Nations and European Integration Graham Day, 1991 **Irish nationalism and European integration** Katy Hayward, 2013-07-19 How has it been possible for Irish political leaders to actively promote two of the largest challenges to Irish nation statehood the concession of sovereignty to the European Union and the retraction of the constitutional claim over Northern Ireland The author of this book argues that such discourses are integrally connected and what is more embody the enduring relevance of nationalism in modern Ireland As the most comprehensive study to date of official discourse in twentieth century Ireland this book traces the ways in which nationalism can be simultaneously redefined and revitalised through European integration The text begins with an overview of the origins and development of Irish official nationalism It then analyses the redefinition of this nationalism in meeting the challenges to Irish nation statehood posed by the conflict in Northern Ireland and membership of the EU New interpretations of the symbolic and practical importance of the island of Ireland have been central to this process Indeed the genius of the Irish was to employ innovative EU inspired concepts in finding agreement with and within Northern Ireland on the one hand whilst on the other legitimising further European integration through the notion that it furthers traditional nationalist ideals such as Irish unity Thus Irish political leaders were remarkably successful in not only accommodating potent nationalist and pro European discourses but in making them appear complementary An over reliance on this discourse however plus a critical failure to adjust it to the conditions it helped to fashion contributed to the failure of the Yes campaigns in the Irish referendums on the EU Treaties of Nice and Lisbon The book concludes with an assessment of the reasons for these results and argues that the symbiotic relationship between Irish nationalism and European integration can be redeemed for a new era in EU member state relations This book will appeal to any reader with an interest in the changing dynamics of Ireland's relationship with the European Union and with Northern Ireland as well as scholars of discourses on identity territory and governance in Europe **Multinationals and European Integration** Nicholas A. Phelps, 2013-10-18 This book examines the role of the multinational firms in processes of European integration It is primarily concerned with the implications of market integration and industrial restructuring for peripheral European regions Nicholas Phelps argues that because of the complex relationship between competition and economies of scale the persistence of market segmentation and because of the embeddedness of multinational investment in established production locations there is considerable inertia in the existing trade and investment patterns of multinationals in the EU This argument is explored empirically in relation to multinationals operating in Wales This study suggests that processes of restructuring accompanying market integration are slow to take effect and based on a diversity of motives **Four Nations Approaches to Modern 'British' History** Naomi Lloyd-Jones, Margaret Scull, 2017-10-26 This collection brings together leading and emerging scholars to evaluate the viability of four nations approaches to the history of the United Kingdom from the eighteenth to the twentieth century It recognises the separate

histories of England Ireland Scotland and Wales and explores the extent to which they share a common British history They are entwined with the points at which they interweave and detach dependent upon the nature of our inquiry where we locate our core and our periphery and the cause and effect of our subject The collection demonstrates that four nations frameworks are relevant to a variety of topics and tests the limits of the methodology The chapters illuminate the changing shape of modern British history writing and provide fresh perspectives on subjects ranging from state governance nationalism and Unionism economics cultural identities and social networking *Postcolonialism Revisited* Kirsti Bohata,2009-06-15

Postcolonialism Revisited is a ground breaking book the first to explore and analyse Anglophone Welsh writing both literary and otherwise in the context of contemporary thinking about colonial and post colonial cultures Kirsti Bohata considers how far the paradigms of postcolonial theory may be usefully adopted and adapted to provide an illuminating exploration of Welsh writing in English while simultaneously considering the challenges that such writing might offer to the field of postcolonial theory *Poetry, Geography, Gender* Alice Entwistle,2013-09-15

Poetry, Geography, Gender explores literary and geographical analysis cultural criticism and gender politics in the work of such well known literary figures as Gwyneth Lewis Menna Elfyn Christine Evans and Gillian Clarke alongside newer names like Zo Skoulding and Samantha Wynne Rhydderch Drawing on her unpublished interviews with many of the featured poets Alice Entwistle examines how and why their various senses of affiliation with a shared cultural hinterland should encourage us to rethink the relationship between nation identity and literary aesthetics in post devolution Wales This series of lively and detailed close readings reveals how writers use the textual terrain of the poem both literally and metaphorically to register and script aesthetic as well as geo political and cultural historical change As an innovative critical study this volume thus takes particular interest in the ways in which author text and territory help to inform and produce each other in the culturally complex and confident small nation that is twenty first century Wales **Education in a Federal UK** John Furlong,Ingrid Lunt,2019-10-23

Britain's two recent referenda on Brexit 2016 and on Scottish independence 2014 have raised in the public mind fundamental questions about the future of the UK It seems that for the first time the public the media and the political elite have woken up to the fact that in different parts of the UK there are different histories different aspirations and different imagined futures in relation to a whole range of vitally important political issues But what the public debate often fails to recognise is that in many areas of public life perhaps especially education the UK is already a federal state and in key respects has been so for many years The aim of this volume is therefore to take stock to try and capture what the current state of educational policy and practice is across the whole of the UK This has been achieved by commissioning two different papers from each of the four countries Wales Scotland Northern Ireland and England The first is an overview exploring the distinctive history principles and current policies of each country The second paper has been specifically chosen as a case study of a key policy that highlights the distinctiveness of each country the Foundation Phase for Wales assessment policy in Scotland shared education initiatives in

Northern Ireland and higher education policy in England Taken together these eight papers give an important insight into the complexities of educational policy and practice across the whole of the UK today This volume was originally published as a special issue of Oxford Review of Education

Making Sense of Wales Graham A S Day,2002-07-30 Making Sense of Wales gives an account of the main changes that have taken place in Welsh society over the last fifty years as well as analysing the major efforts to interpret those changes By placing work done in Wales in the context of broader developments within sociological approaches over the period Graham Day demonstrates that there is a body of work on Wales worth considering in its own right as a specific contribution to sociology He also shows the relevance of sociological accounts of Wales for understanding contemporary empirical and theoretical concerns in social analysis Beginning with post war analysis which considered Wales in terms of regional planning and policy Day shows how more theoretically informed perspectives have come to the fore in recent years He also examines more contemporary developments such as gender and class transformations the emphasis on the centrality of the Welsh language for conceptions of Wales and Welshness as well as the impact of new forms of governance and questions of social exclusion

The New Industrial Geography Trevor Barnes,Meric S Gertler,2002-01-04 Drawing on the theoretical resources of institutional economics The New Industrial Geography opens new perspectives in economic geography In its focus on historical and geographical context institutional embeddedness and tacit rules and formal regulations institutional economics is shown to be the perfect basis for understanding the profound economic and geographical changes of the last two decades and on which also to build a new kind of industrial geography Issues covered include the retheorization of the geography of industrial districts the analysis of institutional thickness and the economic geographical effects of institutional rigidity and sclerosis the economic geographical consequences of new regulatory bodies and policies and the geographically situated character of institutions and regulatory frameworks and the effects of separating them from their originating context the development of new strategies for achieving more equitable forms of regional development

Regional Culture and Economic Development Ullrich Kockel,2017-07-05 From an interdisciplinary perspective based primarily on European ethnology and political economy this book explores issues and concepts concerning the link between culture and economy A historical introduction to key theoretical problems is followed by five empirical chapters discussing aspects of development in rural as well as urban locations The author considers local leadership looking in particular at part time farming counter urban migration and pluriactivity The classification of informal economy is illustrated with examples drawn from fieldwork and urban poverty and migration are each explored in detail A discussion of heritage and identity as a resource for development questions whether the concern with the authenticity of culture s may be an inappropriate approach to take The book concludes with a theoretical reflection on the problematic of culture and economy and a call for a return to the roots of European ethnology as an essentially political science

Celtic Geographies David C. Harvey,Rhys Jones,Neil McInroy,Christine

Protectionism to Liberalisation Maurice Fitzgerald, 2018-02-06 This title was first published in 2000 This work examines Irish government towards European integration in the second post war decade by concentrating on crisis points or flash points it does this in a fairly subject oriented manner concerning Dublin's decision making processes The central themes of this study are concentrated on economic matters but they deal with other tenets when relevant too be they of a cultural diplomatic ideological military political or social nature

The Dynamics of Conflict in Northern Ireland Joseph Ruane, Jennifer Todd, 1996-11-13 This book offers a uniquely comprehensive account of the conflict in Northern Ireland providing a rigorous analysis of its dynamics and present structure and proposing a new approach to its resolution It deals with historical process communal relations ideology politics economics and culture and with the wider British Irish and international contexts It reveals at once the enormous complexity of the conflict and shows how it is generated by a particular system of relationships which can be precisely and clearly described The book proposes an emancipatory approach to the resolution of the conflict conceived as the dismantling of this system of relationships Although radical this approach is already implicit in the converging understandings of the British and Irish governments of the causes of conflict The authors argue that only much more determined pursuit of an emancipatory approach will allow an agreed political settlement to emerge
