Reinventing Justice, 2008 Drug courts offer radically new ways to deal with the legal and social problems presented by repeat drug offenders often dismissing criminal charges as an incentive for participation in therapeutic programs Since the first drug court opened in 1989 in F

The Machinery of Criminal Justice Stephanos Bibas, 2012-04-26 Two centuries ago the criminal justice system was primarily run by laymen In court victims and defendants interacted face to face while lay jurors from the community sat in judgment Jury trials passed moral judgment on crimes vindicated victims and innocent defendants denounced guilty defendants and reconciled and healed wounded relationships But over the last two centuries lawyers have taken over the process silencing victims and defendants and in many cases substituting a plea bargaining system for voice of the jury This lawyerized machinery has purchased efficient speedy processing of many cases at the price of sacrificing softer values such as reforming defendants and healing wounded victims and relationships In other words the U S legal system has bought quantity at the price of quality without recognizing either the trade off or the great gulf separating lawyers and laymen s incentives interests values and powers The Machinery of Criminal Justice explores these trends and considers how criminal justice could better accommodate lay participation values and relationships

Reimagining Restorative Justice David O'Mahony, Jonathan Doak, 2017-09-21 Restorative justice theory has largely failed to keep pace with the rapid expansion of restorative practices worldwide indeed it is remarkable how much support RJ has when so few advocates can even define what it is As such this insightful and comprehensive new contribution from two of the top scholars on the frontlines of restorative justice research is hugely welcome Professor Shadd Maruna Centre for Criminology and Criminal Justice University of Manchester Reimagining Restorative Justice is a reflective and balanced reconsideration of restorative justice It deftly sweeps across the large literature on the subject putting it in perspective seeing anew through its wide angle lens Empowerment and accountability provide a fertile framework for this richly reimagined justice Professor John

Braithwaite Australian National University David O Mahony and Jonathan Doak have made a significant contribution to the confusing and over complicated field of restorative justice theory They do so through their use of empowerment theory to bring conceptual and operational clarity to the concepts of agency and accountability in restorative processes and outcomes As a result they develop a convincing argument for face to face dialogue between victim and perpetrator within the core of the criminal justice system Their emphasis upon ethical and skilful practice is a welcome riposte to the rapid spread of restorative justice lite driven by managerialism and the need to cut costs Tim Chapman Lecturer at the University of Ulster O Mahony and Doak convincingly argue that rapid developments in the practice of restorative interventions have outstripped restorative justice theory They provide both an outstandingly helpful review of the literature and a fresh theoretical approach based on empowerment theory Everyone seriously interested in restorative justice will want to reflect carefully on the authors conclusions Anthony Bottoms Emeritus Wolfson Professor of Criminology at the University of Cambridge In recent years restorative based interventions have expanded rapidly and are increasingly viewed as a legitimate and even superior means of delivering justice The result of this swift but piecemeal development has been that restorative justice practice has outpaced the development of restorative justice theory This book takes up this challenge by reimagining a new framework for the operation of restorative justice within criminal justice In essence it is contended that the core empowering values of agency and accountability provide a lens for reimagining how restorative justice works and the normative goals it ought to encompass

Juvenile Justice Preston Elrod, R. Scott Ryder, 1999 *Criminal Justice Law Enforcement Emotions, Crime and Justice* Susanne Karstedt, Ian Loader, Heather Strang, 2011-04-01 The return of emotions to debates about crime and criminal justice has been a striking development of recent decades across many jurisdictions This has been registered in the return of shame to justice procedures a heightened focus on victims and their emotional needs fear of crime as a major preoccupation of citizens and politicians and highly emotionalised public discourses on crime and justice But how can we best make sense of these developments Do we need to create emotionally intelligent justice systems or are we messing recklessly with the rational foundations of liberal criminal justice This volume brings together leading criminologists and sociologists from across the world in a much needed conversation about how to re calibrate reason and emotion in crime and justice today The contributions range from the micro analysis of emotions in violent encounters to the paradoxes and tensions that arise from the emotionalisation of criminal justice in the public sphere They explore the emotional labour of workers in police and penal institutions the justice experiences of victims and offenders and the role of vengeance forgiveness and regret in the aftermath of violence and conflict resolution The result is a set of original essays which offer a fresh and timely perspective on problems of crime and justice in contemporary liberal democracies

Reconstructing Restorative Justice Philosophy Theo Gavrielides, Vasso Artinopoulou, 2016-04-08 This book takes bold steps in forming much needed philosophical foundations for restorative justice through deconstructing and reconstructing various models of thinking It

Civil Procedure: Access to Commercial Justice Petra Butler, Allannah Colley, 2025-10-16 The financial burden of litigation continues to be the single most important consideration for parties in determining whether to fight their case in court The financial burden of embarking on civil litigation can influence litigation strategy and determine who has and who is denied access to justice This edition provides a comprehensive study of the financial obstacles of access to justice in civil litigation It draws on the contributions of eighteen jurisdictions to examine what impact the commitment to access to justice has made regarding access to civil litigation

The Psychology of Justice and Legitimacy D. Ramona Bobocel, Aaron C. Kay, Mark P. Zanna, James M. Olson, 2011-02-25 In response to the international turmoil violence and increasing ideological polarization social psychological interest in the topics of legitimacy and social justice has blossomed considerably Social psychologists have explored the psychological underpinnings of people's reactions to injustice and illegitimacy including the behavioral and psychological consequences of the motivation to view individual outcomes and governmental systems as just and legitimate Although injustice and illegitimacy are clearly related at conceptual and theoretical levels these two rich literatures are rarely integrated Social justice researchers have focused on how people make sense of particular instances of injustice whereas legitimacy researchers have tended to focus primarily on people's reactions to unfair systems of intergroup relations This 11th volume of the Ontario Symposium series brings together the work of leading researchers in fields of social justice and legitimacy to facilitate the cross pollination and integration of these fields The contributions address broad theoretical issues and cutting edge empirical advances while illustrating the diversity and richness of research in the two fields By uniting these two domains this volume will stimulate new directions in theory and research that seek to explain how and why people make sense of injustice at all levels of analysis

Sviridoff, 2014-01-02 This book shows the significant impact and success that can be accomplished when courts are designed to meet the needs of the community regardless of traditional proceedings The presentation of this unique approach marks the way for courts and ancillary justice agencies of all sizes to work together to build community confidence and assure not only quality of life but quality of justice **Criminal Justice Theory, Volume 26** Cecilia Chouhy, Joshua C. Cochran, Cheryl Lero Jonson, 2020-02-14 Criminal Justice Theory Explanations and Effects undertakes a systematic study of theories of the criminal justice system which historically have received very little attention from scholars This is a glaring omission given the risk of mass imprisonment the increasing presence of police in inner city communities and the emergence of new policy initiatives aimed at improving the quality and effectiveness of the administration of justice Fortunately however a number of disparate theoretical works have appeared that seek to provide insight into the nature and impact of criminal justice Based on 13 original essays by influential scholars this volume pulls together the most significant of these perspectives thus creating a state of the art assessment of contemporary criminal justice theory Criminal justice theory can be divided into two main categories The first includes works that seek to explain the operation of the criminal justice system Most of these contributions have grappled with the core reality of American criminal justice its rising embrace of punitiveness and the growth of mass imprisonment The second category focuses on works that identify theories that have often guided efforts to reduce crime The issue here focuses mainly on the effects of certain theoretically guided criminal justice interventions The current volume is thus organized into these two categories explanations and effects The result is an innovative and comprehensive book that not only serves researchers by advancing scholarship but also is appropriate for advanced undergraduate or graduate classroom use U.S. Criminal Justice Policy Karim Ismaili, 2015-10-16 Revised edition of U S

Street Justice Bruce A. Worthy of Justice Jamie Rowen, 2025-12-09 Over the past three decades jurisdictions across the United States have developed alternatives to traditional criminal procedures and punishments for adults accused of crimes that are associated with substance use and mental health disorders The Veterans Treatment Court VTC is one example of these problem solving courts VTCs benefit from the availability of extensive and free medical and social services through the Department of Veterans Affairs as well as the social and political legitimacy that comes with serving veterans Worthy of Justice takes this specific form of problem solving court as lens for examining broader social inequalities in the criminal legal system Jamie Rowen argues that the rationale for VTCs flows not from what veterans have done but from who they are Their operations are fueled by the notion that their participants criminal behavior is the result of military service rather than other personal choices made thus making them uniquely worthy of public support In this way VTCs powerfully expose the contradictions inherent in the idea that criminals deserve punishment Rowen draws on fieldwork at three such courts across the US Ultimately she illustrates how the politics of crime and the politics of welfare increasingly intersect and together construct classes of Americans who are either worthy or not

American Criminal Justice Policy Daniel P. Mears, 2010-04-12 American Criminal Justice Policy examines many of the most prominent criminal justice policies on the American landscape and finds that they fall well short of achieving the accountability and effectiveness that policymakers have advocated and that the public expects The policies include mass incarceration sex offender laws supermax prisons faith based prisoner reentry programs transfer of juveniles to adult court domestic violence mandatory arrest laws drug courts gun laws community policing private prisons and others Optimistically Daniel P Mears argues that this situation can be changed through systematic incorporation of evaluation research into policy development monitoring and assessment To this end the book provides a clear and accessible discussion of five types of evaluation needs theory implementation or process outcome and impact and cost efficiency It identifies how these can be used both to hold the criminal justice system accountable and to increase the effectiveness of crime control and crime prevention efforts
