Relics Apocalypse And The Deceits Of History Ademar Of Chabannes 989 1034:

Relics, Apocalypse, and the Deceits of History Richard Landes, Richard Allen Landes, 1995 Landes traces the life and career of Ademar of Chabannes a monk historian liturgist and hagiographer who lived at the turn of the first Christian millennium Using over 1 000 folios of autograph manuscript that Ademar left behind Landes has been able to reconstruct in great detail the development of Ademar s career and the events of his day Relics, Apocalypse, and the Deceits of History Richard Allen Landes, 1995 A Most Holy War Mark Gregory Pegg, 2009-10-30 Historian Pegg has produced a swift moving gripping narrative of a horrific crusade drawing in part on thousands of testimonies collected by inquisitors in the years 1235 to 1245 These accounts of ordinary men and women bring the story vividly to life *Here, George Washington Was Born* Seth C. Bruggeman, 2011-08-15 In *Here George Washington Was Born* Seth C Bruggeman examines the history of commemoration in the United States by focusing on the George Washington Birthplace National Monument in Virginia s Northern Neck where contests of public memory have unfolded with particular vigor for nearly eighty years Washington left the birthplace with his family at a young age and rarely returned The house burned in 1779 and would likely have passed from memory but for George Washington Parke Custis who erected a stone marker on the site in 1815 creating the first birthplace monument in America Both Virginia and the U S War Department later commemorated the site but neither matched the work of a Virginia ladies association that in 1923 resolved to build a replica of the home The National Park Service permitted construction of the replica house until a shocking archeological discovery sparked protracted battles between the two organizations over the building s appearance purpose and claims to historical authenticity Bruggeman sifts through years of correspondence superintendent logs and other park records to reconstruct delicate negotiations of power among a host of often unexpected claimants on Washington s memory By paying close attention to costumes furnishings and other material culture he reveals the centrality of race and gender in the construction of Washington s public memory and reminds us that national parks have not always welcomed all Americans What s more Bruggeman offers the story of Washington s birthplace as a cautionary tale about the perils and possibilities of public history by asking why we care about famous birthplaces at all **Heresy and the Making of European Culture** Andrew P. Roach, James R. Simpson, 2016-04-22 Scholars and analysts seeking to illuminate the extraordinary creativity and innovation evident in European medieval cultures and their afterlives have thus far neglected the important role of religious heresy The papers collected here reflecting the disciplines of history literature theology philosophy economics and law examine the intellectual and social investments characteristic of both deliberate religious dissent such as the Cathars of Languedoc the Balkan Bogomils the Hussites of Bohemia and those who knowingly or unknowingly bent or broke the rules creating their own unofficial orthodoxies Attempts to understand police and eradicate all these through methods such as the Inquisition required no less ingenuity The ambivalent dynamic evident in the tensions between coercion and dissent is still recognisable

The Cultural Power of Medieval Monarchy Manuel Alejandro Rodríguez de la Peña,2023-09-22 This book focuses on why the diffusion of the political theology of royal wisdom created Solomonic princes with intellectual interests all around the medieval West and how these learned rulers changed the face of Western Europe through their policies and the cultural power of medieval monarchy Princely wisdom narratives have been seen simply as a tool of royal propaganda in the Middle Ages but these narratives were much more than propaganda being rather a coherent ideology which transformed princely courts shaped mentalities and influenced key political decisions This cultural power of medieval monarchy was channelled mainly through princely patronage of learning and the arts but the rise of administrative monarchy and its bureaucracy are equally related to these policies This can only be understood through a cultural approach to the history of medieval politics that is a history of the relationship between knowledge and power in the Middle Ages a topic much analyzed regarding the medieval church but sometimes neglected in the princely sphere This volume is a study that supplies an important comparative study of the reception in princely courts of a key aspect of European medieval civilization The ideal of Christian sapiential rulership and its corollary rationality in government This volume is essential reading for students and scholars interested in understanding the medieval roots of the cultural process which gave rise to the modern state **The Early**

History of Greed Richard Newhauser,2000-04-20 The history of avarice as the deadliest vice in western Europe has been said to begin in earnest only with the rise of capitalism or earlier the rise of a money economy In this first full length study of the early history of greed Richard Newhauser shows that avaritia the sin of greed for possessions has a much longer history and is more important for an understanding of the Middle Ages than has previously been allowed His examination of theological and literary texts composed between the first century CE and the tenth century reveals new significance in the portrayal of various kinds of greed to the extent that by the early Middle Ages avarice was available to head the list of vices for authors engaged in the task of converting others from pagan materialism to Christian spirituality

After Dispensationalism Brian P. Irwin,2023-05-03 What God wants his people to know about the end times Christians fixation on the end times is not new While eschatological speculation has sometimes resulted in distraction or despair Scripture does speak about the end So what does God most want us to know and do with prophecy In After Dispensationalism Brian P Irwin and Tim Perry sympathetically yet critically sketch the history beliefs and concerns of dispensationalism Though a minority view in the sweep of church history and tradition dispensationalism is one of the most influential end times systems today and there is much to learn from it And yet sometimes it gets sidetracked by overlooking the prophets main concerns Irwin

and Perry reexamine the key texts and show that Ezekiel Daniel and Revelation primarily give a word of hope to God's people

pallium was effective because it was a gift with strings attached This band of white wool encircling the shoulders had been a papal insigne and liturgical vestment since late antiquity It grew in prominence when the popes began to bestow it regularly on other bishops as a mark of distinction and a sign of their bond to the Roman church Bonds of Wool analyzes how through adroit manipulation this gift came to function as an instrument of papal influence It explores an abundant array of evidence from diverse genres including chronicles and letters saints lives and canonical collections polemical treatises and liturgical commentaries and hundreds of papal privileges stretching from the eighth century to the thirteenth and representing nearly every region of Western Europe These sources reveal that the papal conferral of the pallium was an occasion for intervening

in local churches throughout the West and a means of examining approving and even disciplining key bishops who were eventually required to request the pallium from Rome *The New Cambridge Medieval History: Volume 3, C.900-c.1024*

Rosamond McKitterick, Timothy Reuter, David Abulafia, 1995 Sample Text **Center and Periphery**, 2013-03-15 William Chester Jordan's scholarship has demonstrated the complexity of negotiating power at both the center and margins of medieval society taking us into the inner chambers of medieval power structures where kings, churchmen and courtiers dwell to the margins of society inhabited by disenfranchised peoples such as Jews, women and the poor Center and Periphery Studies on Power in the Medieval World in Honor of William Chester Jordan edited by Katherine L. Jansen, G. Geltner and Anne E. Lester honors Professor Jordan by taking up these themes and expanding them from France into Spain, Italy, the Lowlands and the Mediterranean. The volume highlights how Jordan's work inspired and influenced a generation of medievalists working in North America and Europe today. Contributors are John W. Baldwin, Adam J. Davis, Jonathan Elukin, Hussein Fancy, Michelle Garceau, G. Geltner, Erica Gilles, Holly J. Grieco, Maya Soifer, Irish Katherine L. Jansen, Emily Kadens, Richard Landes, Jacques Le Goff, Anne E. Lester, Christopher MacEvitt, David Nirenberg, Mark Gregory Pegg, Jarbel Rodriguez, E. M. Rose and Teofilo Ruiz Understanding Medieval Primary Sources Joel T. Rosenthal, 2014-06-03 Medieval society created many kinds of records and written material which differ considerably giving us such sources as last wills, sermons, manorial accounts or royal biographies. Primary sources are an exciting way for students to engage with the past and draw their own ideas about life in the medieval period. Understanding Medieval Primary Sources is a collection of essays that will introduce students to the key primary sources that are essential to studying medieval Europe. The sources are divided into two categories: the first part treats some of the many generic sources that have been preserved such as wills, letters, royal and secular narratives and sermons. Chapter by chapter, each expert author illustrates how they can be used to reveal details about medieval history. The second part focuses on areas of historical research that can only be fully discovered by using a combination of primary sources covering fields such as maritime history, urban history, women's history and medical history. Understanding Medieval Primary Sources will be an invaluable resource for any student embarking on medieval historical research **The New Cambridge Medieval History: c. 1024-c. 1198.
