Moral Struggle and Religious Ethics David A. Clairmont, 2011-03-31 *Moral Struggle and Religious Ethics* offers a comparative discussion of the challenges of living a moral religious life This is illustrated with a study of two key thinkers Bonaventure and Buddhaghosa who influenced the development of moral thinking in Christianity and Buddhism respectively Provides an important and original contribution to the comparative study and practice of religious ethics Moves away from a comparison of theories by discussing the shared human problem of moral weakness Offers a fresh approach with a comparison of the understanding of the problem of moral weakness between the two key thinkers Bonaventure and Buddhaghosa Written by a highly respected academic in the dynamic and fast growing field of comparative religious ethics

Overcoming Our Evil Aaron Stalnaker, 2006-07-26 Can people ever really change Do they ever become more ethical and if so how *Overcoming Our Evil* focuses on the way ethical and religious commitments are conceived and nurtured through the methodical practices that Pierre Hadot has called spiritual exercises These practices engage thought imagination and sensibility and have a significant ethical component yet aim for a broader transformation of the whole personality Going beyond recent philosophical and historical work that has focused on ancient Greco Roman philosophy Stalnaker broadens ethical inquiry into spiritual exercises by examining East Asian as well as classical Christian sources and taking religious and seemingly aesthetic practices such as prayer ritual and music more seriously as objects of study More specifically *Overcoming Our Evil* examines and compares the thought and practice of the early Christian Augustine of Hippo and the early Confucian Xunzi Both have sophisticated and insightful accounts of spiritual exercises and both make such ethical work central to their religious thought and practice Yet to understand the two thinkers recommendations for cultivating virtue we must first understand some important differences Here Stalnaker disentangles the competing aspects of Augustine and Xunzi's ideas of human nature His groundbreaking comparison of their ethical vocabularies also drives a substantive analysis of fundamental issues in moral psychology especially regarding emotion and the complex idea of the will to examine how our dispositions to feel think and act might be slowly transformed over time The comparison meticulously constructs vivid portraits of both thinkers demonstrating where they connect and where they diverge making the case that both have been misunderstood and misinterpreted In throwing

light on these seemingly disparate ancient figures in unexpected ways Stalnaker redirects recent debate regarding practices of personal formation and more clearly exposes the intellectual and political issues involved in the retrieval of classic ethical sources in diverse contemporary societies illuminating a path toward a contemporary understanding of difference The Concept of Self in Hinduism, Buddhism, and Christianity and Its Implication for Interfaith Relations Kiseong Shin, 2017-05-05 This is the first comparative study of the self and no self in Hinduism Buddhism and Christianity In spite of doctrinal differences within these three belief systems they agree that human beings are in a predicament from which they need to be liberated Indian religions including Hinduism and Buddhism share the belief that human nature is inherently perfectible while the epistemological and psychological limitation of the human being is integral to Christian belief Regarding the immortality of the human being Hinduism and Christianity traditionally and generally agree that human beings as atman or soul possess intrinsic immortality On the contrary Buddhism teaches the doctrine of no self anatta Further in their quest to analyze the human predicament and attempt a way out of it they employ different concepts such as sin and salvation in Christianity attachment tanka and enlightenment nirvana in Buddhism and ignorance avidya and liberation moksha in Hinduism This volume seeks to show that behind these concepts are deep concerns related to human existence and its relationship with the whole creation These common concerns can be a basis for a greater understanding and dialogue between Christians Hindus and Buddhists Redescribing Paul and the Corinthians Society of Biblical Literature, 2011 This second volume of studies by members of the SBL Seminar on Ancient Myths and Modern Theories of Christian Origins reassesses the agenda of modern scholarship on Paul and the Corinthians The contributors challenge the theory of religion assumed in most New Testament scholarship and adopt a different set of theoretical and historical terms for redescribing the beginnings of the Christian religion They propose explanations of the relationship between Paul and the recipients of 1 Corinthians the place of Paul's Christ myth for his gospel the reasons for a disinterest in and rejection of Paul's gospel and or for the reception and attraction of it and the disjunction between Paul's collective representation of the Corinthians in 1 Corinthians and the Corinthians own engagement with Paul in mythmaking and social formation including mutual mis translation and mis appropriation of the other's discourse and practices *The Future of the Philosophy of Religion* M. David Eckel, C. Allen Speight, Troy DuJardin, 2020-10-12 This collection of essays on the philosophy of religion and its future brings together accomplished thinkers across several related fields from comparative philosophy to analytic and continental philosophy of religion and beyond Contributing authors address pressing questions including Where does philosophy stand in relation to religion and the study of religion in the 21st century How ought the philosophy of religion to interact with religious studies and theology to make for fruitful interdisciplinary engagement And what does philosophy uniquely have to offer to the broad discourse on religion in the modern world Through exploring these questions and more the authors goal is not that of meeting the philosophical future but of forging it Readers will enter a vivid conversation through engaging essays

which demonstrate the importance of disciplinary openness and show that we do not need to sacrifice depth in order to achieve breadth. Modernity and postmodernity come together in a constantly evolving discussion that moves the philosophy of religion forward while keeping an eye toward the experience accumulated in past centuries. This book will interest students of philosophy, theology, religious studies, and other fields that wonder about the place of philosophy and religion in today's world. It also has much to offer advanced scholars in these fields through its breadth and forward thinking.

The Hebrew Bible and Philosophy of Religion Jaco Gericke, 2012-11-01. This study pioneers the use of philosophy of religion in the study of the Hebrew Bible. After identifying the need for a legitimate philosophical approach to Israelite religion, the volume traces the history of interdisciplinary relations and shows how descriptive varieties of philosophy of religion can aid the clarification of the Hebrew Bible's own metaphysical, epistemological, and moral assumptions. Two new interpretative methodologies are developed and subsequently applied through an introduction to what the biblical texts took for granted about the nature of religious language, the concept of deity, the properties of Yhwh, the existence of gods, religious epistemology, and the relation between religion and morality.

Signs and Society Richard J. Parmentier, 2016-10-03. A major voice in contemporary semiotic theory offers a new perspective on potent intersections of semiotic and linguistic anthropology. In *Signs and Society*, noted anthropologist Richard J. Parmentier demonstrates how an appreciation of signs helps us better understand human agency, meaning, and creativity. Inspired by the foundational work of C. S. Peirce and Ferdinand de Saussure and drawing upon key insights from neighboring scholarly fields, Parmentier develops an array of innovative conceptual tools for ethnographic, historical, and literary research. Parmentier's concepts of transactional value, metapragmatic interpretant, and circle of semiosis, for example, illuminate the foundations and effects of such diverse cultural forms and practices as economic exchanges on the Pacific island of Palau, Pindar's *Victory Odes* in ancient Greece, and material representations of transcendence in ancient Egypt and medieval Christianity. Other studies complicate the separation of emic and etic analytical models for such cultural domains as religion, economic value, and semiotic ideology. Provocative and absorbing, these fifteen pioneering essays blaze a trail into anthropology's future while remaining firmly rooted in its celebrated past.

The Blackwell Companion to Religious Ethics William Schweiker, 2008-04-15. Written by internationally renowned scholars, this *Companion* maps the moral teachings of the world's religions and also charts new directions for work in the field of religious ethics. Now available in paperback, this is a rich resource for understanding the moral teachings and practices of the world's religions. Includes detailed discussions of issues in moral theory. Offers extensive treatment of the world's major religious traditions, including Judaism, Christianity, Islam, Buddhism, Hinduism, Chinese religions, and African religions. Compares the ways in which the religions provide resources for addressing current moral challenges in areas such as ecology, economics, global dynamics, religious war, human rights, and other topics.
