Singing Salsa Cantando Salsa

Jenny Terrero Rivera

Singing Salsa Cantando Salsa:

The Book of Salsa César Miguel Rondón, 2008 Rondón tells the engaging story of salsa's roots in Puerto Rico, Cuba, Colombia, the Dominican Republic, and Venezuela and of its emergence and development in the 1960s as a distinct musical movement in New York. Rondón presents salsa as a truly pan-Caribbean phenomenon emerging in the migrations and interactions, the celebrations and conflicts that marked the region. Although salsa is rooted in urban culture, Rondón explains it is also a commercial product produced and shaped by professional musicians, record producers, and the music industry from publisher description.

Musical Migrations F. Aparicio, C. Jáquez, 2003-01-03 A dynamic and original collection of essays on the transnational circulation and changing social meanings of Latin music across the Americas. The transcultural impact of Latin American musical forms in the United States calls for a deeper understanding of the shifting cultural meanings of music. *Musical Migrations* examines the tensions between the value of Latin popular music as a metaphor for national identity and its transnational meanings as it traverses national borders, geocultural spaces, audiences, and historical periods. The anthology analyzes, among others, the role of popular music in Caribbean diasporas in the United States and Europe, the trans-Caribbean identities of Salsa and reggae, the racial, cultural, and ethnic hybridity in rock across the Americas, and the tensions between tradition and modernity in Peruvian indigenous music, mariachi music in the United States, and in Trinidadian music.

The Garland Handbook of Latin American Music Dale Olsen, 2007-12-17 The *Garland Handbook of Latin American Music* is comprised of essays from *The Garland Encyclopedia of World Music*, Volume 2: South America, Mexico, Central America, and the Caribbean, 1998. Revised and updated, the essays offer detailed regional studies of the different musical cultures of Latin America and examine the ways in which music helps to define the identity of this particular area. Part One provides an in-depth introduction to the area of Latin America and describes the history, geography, demography, and cultural settings of the regions that comprise Latin America. It also explores the many ways to research Latin American music, including archaeology, iconography, mythology, history, ethnography, and practice. Part Two focuses on issues and processes such as history, politics, geography, and immigration, which are responsible for the similarities and the differences of each region's uniqueness and individuality. Part Three focuses on the different regions, countries, and cultures of Caribbean Latin America, Middle Latin America, and South America, with selected regional case studies. The second edition has been expanded to cover Haiti, Panama, several more Amerindian musical cultures, and Afro-Peru. Questions for Critical Thinking at the end of each major section guide focus attention on what musical and cultural issues arise when one studies the music of Latin America.

Billboard, 1986-06-28 In its 114th year, *Billboard* remains the world's premier weekly music publication and a diverse digital events brand content and data licensing platform. *Billboard* publishes the most trusted charts and offers unrivaled reporting about the latest music, video, gaming, media, digital, and mobile entertainment issues and trends.
