Paris, a New Rome Michèle Lowrie,Barbara Vinken,2024-05-06 However shared the Roman inheritance may be it hardly unifies Which Rome is the model the Republic or the Empire The Rome of imperial conquest or of civil war By whom is it ruled By the glorious conqueror who extended universal peace the rule of law and infrastructure roads and aqueducts or by the detested tyrant who imposed domination Or worse the corruptor of republican liberty and source of putrefying decadence Rome always returns but which Rome France presents itself as a privileged locus for Rome s return since the beginnings of its history The perennial recourse to ancient Rome as model or anti model binds together a cohesive tradition The logic of this gesture asserts a unity beyond modern identity politics which depend on defining a them against us to resist nativist assumptions about national character French German Italian American etc All share the same polysemous inheritance for good or ill All are Roman and all resist Rome without needing to agree on what exactly is shared The unity underlying the discourse however no longer depends on defining Rome as an origin Instead Rome s figuration persists discursively as a translation to be translated time and time again
