Manual of Drug and Alcohol Abuse A. Arif,J. Westermeyer,2012-12-06 During the last few centuries and particularly in recent decades problems result ing from the excessive use of drugs and alcohol have spread virtually as an epidemic to every country in the world and to almost every community Abuse of alcohol and drugs is related to numerous other health problems such as the spread of acquired immune deficiency syndrome AIDS on all continents Health and social services today cannot afford to ignore this crisis since it affects all levels of society and manifests itself in diverse health and social problems In recent years the World Health Organization has received numerous requests for training material for physicians in this field This manual therefore meets an urgent need The availability of new data and the dearth of suitable textbooks have made its preparation mandatory The influence of sociocultural factors on drug dependence and alcohol related problems on their cause development and consequences as well as on their treatment and prevention has been taken into account in the preparation of this manual in order to ensure that its usefulness is not limited to one country or region It has been prepared primarily for the teaching of physicians and medical students although much of it is relevant to the training of nurses midwives health educators primary care workers medical social workers counselors and psychologists In fact suggestions have been included for adapting the manual for use in the training of such varied groups of students

Alcohol and Drug Abuse as Encountered in Office Practice Frank L. Iber,2020-07-24 This book has been written to serve as a manual for physicians practicing in a private office setting to recognize and recommend appropriate treatment for patients believed to be substance abusers While it is not written for drug abuse specialists it provides information regarding the diagnosis and treatments a competent concerned physician can provide without becoming immersed in addiction treatment Topics discussed include the degree to which a physician should become involved when it is appropriate to refer using other professions and volunteer groups and useful medications Guidelines for recognizing substance abuse testing to confirm the abuse confronting the patient and motivating the patient into specific treatment are also presented Tables and illustrations are used to summarize major points making this an extremely useful reference tool for internists and other non specialist private practitioners
