Manual Of Cardiopulmonary Transplantation:

The Stanford Manual of Cardiopulmonary Transplantation Julian Smith, Patrick McCarthy, George Sarris, Edward Stinson, Bruce Reitz, 1996-08-13 This text is an up to date comprehensive review of the practical day to day management of heart and lung transplant patients from the time of their initial referral through to their post transplant rehabilitation The surgical and management strategies are presented in a clear precise manner for an easily retrievable format Several talented and dedicated medical professionals combined their efforts to solve the difficult clinical problems of cardiopulmonary transplantation Many of the methods described in this book were pioneered at Stanford University School of Medicine and have since achieved universal acceptance This manual is based on more than 25 years of clinical experience and is deliberately didactic in places to give the reader a very clear picture of what is involved with a given topic The outstanding illustrations created by the Visual Arts Service at Stanford University greatly enhance the text **Cardiac Transplantation**

Jeffrey D. Hosenpud, Adnan Cobanoglu, Douglas J. Norman, Albert Starr, 2012-12-06 Over the past ten years cardiac transplantation has evolved from an experimental procedure performed in a handful of university centers to a viable therapeutic modality now performed in more than 150 centers worldwide The complexity of the procedure the changing immunosuppressive regimens and the follow up care have necessitated a multidisciplinary approach involving a variety of medical nursing and social sciences specialties and subspecialties In addition health care trainees and referring physicians are increasingly becoming involved in the care of the cardiac transplant recipient This book does not attempt to be a comprehensive treatise on cardiac transplantation rather we hope that it will serve as a manual and guideline for all health professionals involved in cardiac transplantation JEFFREY D HOSENPU D M D Contents Preface v Contributors IX 1 Cardiac Transplantation An Overview JEFFREY D HOSENPU D AND ALBERT STARR Immunogenetics and Immunologic Mechanisms of 2 Rejection 15 DOUGLAS J NORMAN 3 Medical Therapy Tailored for Advanced Heart Failure 33 LYNNE WARNER STEVENSON 4 Ventricular Assistance as a Bridge to Cardiac Transplantation 53 D GLENN PENNINGTON AND MARC T SWARTZ Recipient Selection for Cardiac Transplantation 71 5 GEORGE A PANTEL 6 Donor Selection and Management for Cardiac Transplantation 85 JEFFREY SWANSON AND ADNAN COBANOGU 7 Operative Techniques and Early Postoperative Care in Cardiac Transplantation 95 ADNAN COBANOGU Endomyocardial Biopsy Techniques and Interpretation of 8 **Cardiac Transplantation** Niloo M.
