Mapping Subaltern Studies And The Postcolonial:

Mapping Subaltern Studies and the Postcolonial Vinayak Chaturvedi, 2000 This volume in the Mapping series offers a balance sheet of the Subaltern Studies Project an intervention in South Asian history and politics which has generated an impact in Latin American Irish and African Studies **The Postcolonial Orient** Vasant Kaiwar, 2014-05-08 In *The Postcolonial Orient* Vasant Kaiwar presents a far reaching analysis of the political economic and ideological cross currents that have shaped and informed postcolonial studies preceding and following the 1989 moment of world history The valences of the post in postcolonialism are unfolded via some key historical political postcolonial texts showing inter alia that they are replete with elements of Romantic Orientalism and the Oriental Renaissance Kaiwar mobilises a critical body of classical and contemporary Marxism to demonstrate that far richer understandings of Europe not to mention colonialism modernity and difference are possible than with a postcolonialism captive to phenomenological existentialism and post structuralism concluding that a narrative so enriched is indispensable for a transformative non Eurocentric internationalism ***The Cambridge Companion to Postcolonial Literary Studies*** Neil Lazarus, 2004-07-15 Offers a lucid introduction to postcolonial studies one of the most important strands in recent literary theory and cultural studies **The Postcolonial Unconscious** Neil Lazarus, 2011-06-30 *The Postcolonial Unconscious* is a major attempt to reconstruct the whole field of postcolonial studies In this magisterial and at times polemical study Neil Lazarus argues that the key critical concepts that form the very foundation of the field need to be re assessed and questioned Drawing on a vast range of literary sources Lazarus investigates works and authors from Latin America and the Caribbean Africa and the Arab world South Southeast and East Asia to reconsider them from a postcolonial perspective Alongside this he offers bold new readings of some of the most influential figures in the field Fredric Jameson Edward Said and Frantz Fanon A tour de force of postcolonial studies this book will set the agenda for the future probing how the field has come to develop in the directions it has and why and how it can grow further *Remapping the Indian Postcolonial Canon* Nirmala Menon, 2016-12-27 This book critically examines the postcolonial canon questioning both the disproportionate attention to texts written in English and their overuse in attempts to understand the postcolonial condition The author addresses the non representation of Indian literature in theory and the inadequacy of generalizing postcolonial experiences and subjectivities based on literature produced in one language English It argues that while postcolonial scholarship has successfully challenged Eurocentrism it is now time to extend the dimensions beyond Anglophone and Francophone literatures to include literatures in other languages such as Hindi Telugu Tamil Tagalog and Swahili *Globalization and Postcolonialism* Sankaran Krishna, 2009 Globalization has become a widely used buzzword yet popular discussions often miss its deeper realities This book offers the first clear explanation of the impact of colonialist legacies in a globalized world in an era defined by the War on Terror Sankaran Krishna explores the history of the relationship between Western dominance and the forms of resistance that have emerged to challenge it Moving

beyond the simple formulation of They hate us because we are rich we are free and they are crazy he asks What have we done that might generate such animosity What face has the United States presented to the developing world over time Krishna argues that we live on an interrelated globe that history matters a great deal in constructing contemporary realities and that others create stories or narratives about the world based on their experiences just as we do based on ours He contends that the interactions between the West and the non West have not been politically innocent economically egalitarian or culturally benign in their consequences Presenting a lucid exploration of the intertwined histories of both globalization and postcolonialism this book uses compelling real world examples to make sense of this crucial relationship

Transitional Justice from Below Kieran McEvoy, Lorna McGregor, 2008-07-15 Although relatively new as a distinct field of study transitional justice has become rapidly established as a vital field of enquiry From vaguely exotic origins on the outer edges of political science the study of justice in times of transition has emerged as a central concern of scholarship and practical policy making A process of institutionalisation has confirmed this importance The ICTY the ICTR the ICC hybrid tribunals in Sierra Leone and East Timor and local processes such as the Iraqi Higher Tribunal IHT have energised international law and international criminal justice scholarship The South African TRC was for a time lauded as the model for dealing with the past and remains one of the most researched institutions in the world It is one of approximately two dozen such institutions established in different transitional contexts over the past twenty years to assist conflicted societies to come to terms with a violent past At the national level international donors contribute huge sums of money to Rule of Law programmes designed to transform national justice systems This collection seeks to offer something quite different to the mainstream of scholarship in this area emphasising the need for bespoke solutions to different transitions rather than off the shelf models The collection is designed to offer a space for diversity prompted by a series of perspectives from below of societies beset by past violent conflict which have sought to effect their transition to justice In doing so the contributors have also sought to enrich discussion about the role of human rights in transition the continuing usefulness of perspectives from above and the still contested meanings of transition

Out of the Dark Night Achille Mbembe, 2021-01-19 Achille Mbembe is one of the world's most profound critics of colonialism and its consequences a major figure in the emergence of a new wave of French critical theory His writings examine the complexities of decolonization for African subjectivities and the possibilities emerging in its wake In *Out of the Dark Night* he offers a rich analysis of the paradoxes of the postcolonial moment that points toward new liberatory models of community humanity and planetarity In a nuanced consideration of the African experience Mbembe makes sweeping interventions into debates about citizenship identity democracy and modernity He eruditely ranges across European and African thought to provide a powerful assessment of common ways of writing and thinking about the world Mbembe criticizes the blinders of European intellectuals analyzing France's failure to heed postcolonial critiques of ongoing exclusions masked by pretenses of universalism He develops a new reading of African

modernity that further develops the notion of Afropolitanism a novel way of being in the world that has arisen in decolonized Africa in the midst of both destruction and the birth of new societies Out of the Dark Night reconstructs critical theory's historical and philosophical framework for understanding colonial and postcolonial events and expands our sense of the futures made possible by decolonization

Videogames and Postcolonialism Souvik Mukherjee, 2017-07-24 This book focuses on the almost entirely neglected treatment of empire and colonialism in videogames From its inception in the nineties Game Studies has kept away from these issues despite the early popularity of videogame franchises such as Civilization and Age of Empire This book examines the complex ways in which some videogames construct conceptions of spatiality political systems ethics and society that are often deeply imbued with colonialism Moving beyond questions pertaining to European and American gaming cultures this book addresses issues that relate to a global audience including especially the millions who play videogames in the formerly colonised countries seeking to make a timely intervention by creating a larger awareness of global cultural issues in videogame research Addressing a major gap in Game Studies research this book will connect to discourses of post colonial theory at large and thereby provide another entry point for this new medium of digital communication into larger Humanities discourses

Theology in the Capitalocene Joerg Rieger, 2022-08-30 In times of rising pressures and catastrophes people yearn for alternatives So does the planet Protests are often a start but rebellion is not revolution nor does it always lead to transformation In this incisive and compelling new book Joerg Rieger takes a new look at the things that cause unease and discomfort in our time leading to the growing destruction and death of people and the planet Only when these causes are understood he argues can real alternatives be developed And yet understanding is only a start Solidarity and the willingness to work at the seemingly impossible intersections of everything the triad of gender race and class yes but more beyond must mark the work of theology Without solidarities that match the complexities of our world the best we can hope for is inclusion in the dominant system but hardly the systemic change and liberation we so desperately need
