The Minimalist Vision of Transcendence Jerome A. Stone,1992-11-03

The Promise of Religious Naturalism Michael S. Hogue,2010-12-28 The Promise of Religious Naturalism explores religious naturalism as a distinctly promising form of contemporary religious ethics Examining how religious naturalism responds to the challenges of recent religious transformations and ecological peril worldwide author Michael Hogue argues that religious naturalism is emerging as an increasingly plausible and potentially rewarding form of religious moral life Beginning with an introduction of religious naturalism in the larger context of religious and ethical theories the book undertakes the first extended study of the works of religious naturalists Loyal Rue Donald Crosby Jerome Stone and Ursula Goodenough Hogue pays particular attention to the ethical components of religious naturalism in relation to religious pluralism and ecological issues

The Making of American Liberal Theology Gary J. Dorrien,2006-01-01 In this first of three volumes Dorrien identifies the indigenous roots of American liberal theology and demonstrates a wider longer running tradition than has been thought The tradition took shape in the nineteenth century motivated by a desire to map a modernist third way between orthodoxy and rationalistic deism atheism It is defined by its openness to modern intellectual inquiry its commitment to the authority of individual reason and experience its conception of Christianity as an ethical way of life and its commitment to make Christianity credible and socially relevant to modern people Dorrien takes a narrative approach and provides a biographical reading of important religious thinkers of the time including William E Channing Ralph Waldo Emerson Horace Bushnell Henry Ward Beecher Elizabeth Cady Stanton and Charles Briggs Dorrien notes that although liberal theology moved into elite academic institutions its conceptual foundations were laid in the pulpit rather than the classroom

Sacred Nature Jerome A. Stone,2017-06-26 Sacred Nature examines the crisis of environmental degradation through the prism of religious naturalism which seeks rich spiritual engagement in a world without a god Jerome Stone introduces students to the growing field of religious naturalism exploring a series of questions about how it addresses the environmental crises evaluating the merits of public prophetic discourse that uses the language of spirituality He presents and defends the concept of religious naturalism while drawing out the implications of religious naturalism for addressing some of the major environmental issues facing humans today This book is designed for undergraduate and graduate students as well as scholars specializing in contemporary religious thought or environmental studies

Essays in Postfoundationalist Theology Jacobus Wentzel Van Huyssteen,Wentzel Van Huyssteen,1997 This collection of essays boldly addresses many of the challenges faced by Christian

theology in the context of contemporary postmodern thought Handling abstract topics in a remarkably clear and concise way J Wentzel van Huyssteen presses the case for a postfoundationalist theology as a viable third option beyond the extremes of foundationalism and nonfoundationalism Van Huyssteen discusses themes related to rationality epistemology and philosophy of science In the process he critically engages the work of such thinkers as Wolfhart Pannenberg Nancey Murphy Jerome Stone and Gerd Theissen The result is a convincing argument that only a truly accessible and philosophically credible notion of interdisciplinarity will be able to pave the way for a plausible public theology that can play an important intellectual role in our fragmented culture today

Phenomenology of the Visual Arts (even the frame) Paul Crowther, 2009-09-16 Why are the visual arts so important and what is it that makes their forms significant Countering recent interpretations of meaning that understand visual artworks on the model of literary texts Crowther formulates a theory of the visual arts based on what their creation achieves both cognitively and aesthetically He develops a phenomenology that emphasizes how visual art gives unique aesthetic expression to factors that are basic to perception At the same time he shows how various artistic media embody these factors in distinctive ways Attentive to both the creation and reception of all major visual art forms picturing sculpture architecture and photography *Phenomenology of the Visual Arts* also addresses complex idioms including abstract conceptual and digital art

The Shaping of Rationality J. Wentzel van Huyssteen, 1999-07-20 This book arises out of a deep fascination with the relationship between human intelligence and rationality and with how our fragile but uniquely human ability to be rational invariably affects our everyday lives as well as our involvement with faith theology and the spectacular scientific achievements of our time After carefully analyzing the notion of rationality and examining how the skill of rationality is being challenged by postmodern culture J Wentzel van Huyssteen argues that it is precisely the problem of rationality that holds the key to understanding the complex forces shaping the radically different domains of religion and science today

The Open Secret Alister E. McGrath, 2011-09-23 Natural theology in the view of many is in crisis In this long awaited book Alister McGrath sets out a new vision for natural theology re establishing its legitimacy and utility A timely and innovative resource on natural theology the exploration of knowledge of God as it is observed through nature Written by internationally regarded theologian and author of numerous bestselling books Alister McGrath Develops an intellectually rigorous vision of natural theology as a point of convergence between the Christian faith the arts and literature and the natural sciences opening up important possibilities for dialogue and cross fertilization Treats natural theology as a cultural phenomenon broader than Christianity itself yet always possessing a distinctively Christian embodiment Explores topics including beauty goodness truth and the theological imagination how investigating nature gives rise to both theological and scientific theories the idea of a distinctively Christian approach to nature and how natural theology can function as a bridge between Christianity and other faiths

The Tangled Bank Michael S Hogue, 2010-07-29 In response to the confluence of moral uncertainty with the increase of human power to alter nature and through critical integration of the philosophical

naturalism of Hans Jonas and the critical religious naturalism of James M Gustafson The Tangled Bank argues for an ecotheological ethics of responsible participation By making the case that the moral pressures of our time call for a vision that is as deeply naturalistic as it is deeply theological a critical perspective is advanced that is attuned to human embeddedness within nature as well as to human distinctiveness In support of this a moral anthropological method is deployed as a creative new way to integrate the comparative critical and constructive tasks of theological ethics The insights of Hans Jonas and James M Gustafson interpreted comparatively for the first time are critically drawn together to suggest new directions for scholarship and teaching in theology and religion and science studies A Religion of Nature Donald A. Crosby, 2012-02-01 The beauty sublimity and wonder of nature have been justly celebrated in all of the religious traditions of the world but usually these traditions have focused on beings or powers presumed to lie behind nature providing nature's ultimate explanation and meaning In a radical departure Donald A Crosby makes an eloquent case for regarding nature itself as the focus of religion conceived without God gods or animating spirits of any kind and argues that nature is metaphysically ultimate He explores the concept of nature the place of humans in nature the responsibilities of humans to one another and to their natural environments and offers a religious vision that grants to nature the kind of reverence awe love and devotion formerly reserved for God Crosby also shares his personal journey from theistic faith to a religion of nature *Underground Rap as Religion* Jon Ivan Gill, 2019-10-28 Underground rap is largely a subversive grassroots and revolutionary movement in underground hip hop tending to privilege creative freedom as well as progressive and liberating thoughts and actions This book contends that many practitioners of underground rap have absorbed religious traditions and ideas and implement critique or abandon them in their writings This in turn creates processural mutations of God that coincide with and speak to the particular context from which they originate Utilising the work of scholars like Monica Miller and Alfred North Whitehead Gill uses a secular religious methodology to put forward an aesthetic philosophy of religion for the rap portion of underground hip hop Drawing from Whiteheadian process thought a theopoetic argument is made Namely that it is not simply the case that is God the poet of the world but rather rap can in fact be the poet creator of its own form of quasi religion This is a unique look at the religious workings and implications of underground rap and hip hop As such it will be of keen interest to scholars of Religious Studies Hip Hop Studies and Process Philosophy and Theology Religious Naturalism Today Jerome A. Stone, 2008-12-18 Previously a forgotten option in religious thinking religious naturalism is coming back It seeks to explore and encourage religious ways of responding to the world on a completely naturalistic basis without a supreme being or ground of being In this book Jerome A Stone traces its history and analyzes some of the issues dividing religious naturalists He includes analysis of nearly fifty distinguished philosophers theologians scientists and figures in art and literature both living and dead They range from Ursula Goodenough Gordon Kaufman William Dean Thomas Berry and Gary Snyder to Jan Christiaan Smuts William Bernhardt Gregory Bateson and Sharon Welch **Engaging Our Theological**

Diversity Unitarian Universalist Commission on Appraisal, 2005 *Religious Humanism*, 2001 *Representations of Homosexuality* R. Sneed, 2010-03-29 Roger A Sneed offers an alternative approach to black homosexuality for black religious scholars who have traditionally viewed homosexuality as a problem Instead by drawing on a range of black gay writers *Representations of Homosexuality* points black religious scholarship towards an ethics of openness **Pragmatic Theology** Victor Anderson, 1998-01-29 Argues that while contemporary American philosophies and philosophers of religion are proclaiming the end of theology a neopragmatism has arrived to fill the void in meaning and moral fulfillment to which theology once supplied answers **The Concept of Nature in Science and Theology** Niels Henrik Gregersen, Michael W. S. Parsons, Christoph Wassermann, 1997 **Reason and Reverence** William R. Murry, 2007 **Naturalizing God?** Mikael Leidenhag, 2021-07-01 Can nature be considered a religious object Religious naturalists answer yes as they seek to carve out a middle path between supernaturalism and atheistic secularism In this book Mikael Leidenhag critically examines the religious proposals philosophical commitments and ecological ambitions of key religious naturalists including Willem B Drees Charley D Hardwick Donald Crosby Ursula Goodenough Stuart Kauffman Gordon Kaufman Karl Peters and Loyal Rue Leidenhag argues that contemporary religious naturalism faces several problems both with regard to its understanding of naturalism and the ways in which it seeks to uphold a religious conception of reality He evaluates possible routes for moving forward considering naturalistic and theistic proposals He also analyzes the philosophical thesis of panpsychism the idea that mind is a pervasive feature of the universe and reaches down to the fundamental levels of reality The author concludes that panpsychism offers the most promising framework against which to understand the metaphysics and eco ethical ambitions of religious naturalism
