**Mining Tsar** Kett Howard Kennedy,1986-01      **The Race to Save the Romanovs** Helen Rappaport,2018-06-26 In this international bestseller investigating the murder of the Russian Imperial Family Helen Rappaport embarks on a quest to uncover the various plots and plans to save them why they failed and who was responsible The murder of the Romanov family in July 1918 horrified the world and its aftershocks still reverberate today In Putin s autocratic Russia the Revolution itself is considered a crime and its anniversary was largely ignored In stark contrast the centenary of the massacre of the Imperial Family was commemorated in 2018 by a huge ceremony attended by the Patriarch of the Russian Orthodox Church While the murders themselves have received major attention what has never been investigated in detail are the various plots and plans behind the scenes to save the family on the part of their royal relatives other governments and Russian monarchists loyal to the Tsar Rappaport refutes the claim that the fault lies entirely with King George V as has been the traditional view for the last century The responsibility for failing the Romanovs must be equally shared The question of asylum for the Tsar and his family was an extremely complicated issue that presented enormous political logistical and geographical challenges at a time when Europe was still at war Like a modern day detective Helen Rappaport draws on new and never before seen sources from archives in the US Russia Spain and the UK creating a powerful account of near misses and close calls with a heartbreaking conclusion With its up to the minute research The Race to Save the Romanovs is sure to replace outdated classics as the final word on the fate of the Romanovs      **Outskirts of Empire** John Fisher,2018-09-03 Outskirts of Empire Studies in British Power Projection investigates the substructure of Britain s interests in the Near East and beyond during the nineteenth and twentieth centuries Essays address themes in British power projection in a geographically wide area encompassing parts of the Ottoman Empire Morocco and Abyssinia illuminating interlinking elements of Britain s power and presence through commerce religion consular activity expatriates travel and exploration and technology Through careful investigation of the interface of these themes the book develops a deeper sense of Britain s presence in the Near East and contiguous areas and highlights the network of Britons who were required to sustain that presence      **Mining Tycoons in the Age of Empire, 1870-1945** Raymond E. Dumett,2016-12-05 The years of the late nineteenth and early twentieth centuries aptly described by Mark Twain as the Gilded Age witnessed an unprecedented level of technological change material excess untrammled pursuit of profit and imperial expansion Within this dynamic and often ruthless environment many colorful characters strode across the world stage among them the great mining tycoons who with the thousands of prospectors diggers shift bosses timbermen blastmen and muckers in mining enterprise constituted one of the major spearheads of global capitalistic expansion and colonial exploitation This volume which carries the epic story to the mid twentieth century provides a truly international perspective on the role of mining entrepreneurs investors and engineers in shaping the economic and political map of the globe in testing management techniques and in setting a vogue for extravagant displays of

wealth among the world's rich. Each chapter is loosely focussed on a biographical account of a particular mining tycoon that allows for broad and comparative accounts to be made about the individuals, their business interests, the technologies they employed and the national and international political considerations under which they operated. Furthermore, this structure also allows for consideration of the effect that these tycoons had on the countries and territories in which they worked, particularly the often long-lasting impact on indigenous populations, the environment, transport links and economic development. By approaching the subject matter through this stimulating mix of cultural, social, economic, business and colonial history, many intriguing and thought-provoking conclusions are reached that will reward any scholars with an interest in late nineteenth and early twentieth-century history.

**The Life of Herbert Hoover: The humanitarian, 1914-1917** George H. Nash, 1983. His family life, business affairs and the other aspects of his life with the larger historical context. Book Jacket.

**Reflecting Imperial Overstretch and New Realities** Brian O'Sullivan, 2024-07-03. This book is the first comprehensive history of the British Trade Corporation which was constituted under a Royal Charter on 21st April 1917. Its charter was meant to last for sixty years but in 1926, after a turbulent existence of only nine years, it was amalgamated with the Anglo-Austrian Bank and absorbed into the Anglo-International Bank. The corporation, together with its two main subsidiaries, the Levant Company and the National Bank of Turkey, conducted business not only in Britain but in Russia, Turkey, the Middle East and in Continental Europe. Although the corporation was not an agent of empire, it reflected Britain's imperialistic ambitions after the First World War. As a result, it invested in some of the most unstable regions of the world. It was also severely affected by British foreign policy which was often misjudged and at times duplicitous, resulting in serious damage to British trade. Within five years of its launch, the British Trade Corporation needed to be refinanced. The economic downturn in the early 1920s and ongoing hostilities in Eastern Europe and the Near East meant that it struggled to survive. Its difficulties reflected many of those faced by Britain in general after the war and the need to come to terms with the new realities of the post-war world. Despite its innovative attempt to address the perceived deficiencies in Britain's financial system, especially in respect of industrial finance, the British Trade Corporation has been largely ignored by financial historians. Based on substantial archival research, this book rectifies this neglect and makes an important contribution to the financial history of interwar Britain.

**On Arbitration** Samuel Wordsworth, Marie Veeder, 2023-08-29. This volume brings together the most important articles, lectures and essays of Van Vechten Johnny Veeder, a towering figure in the worlds of international commercial arbitration and arbitration between States and foreign investors. As noted by Judge Stephen Schwebel in his introduction to the volume, Johnny Veeder was unsurpassed as an arbitrator, tribunal chairman, expositor, analyst and historian of international arbitration. The writings in this collection address a wide range of topics in the field, including the historical context of international arbitration and its influence on the modern-day practice, the role and responsibilities of the arbitrator and the principles upholding international arbitration. The included works span the length of

Johnny's career drawing on his extensive learning and practical engagement. They analyse the past and present while asking prescient questions about arbitration's future in a changing global context. The reader of Johnny's essays and other contributions will profit by his extraordinary legal insight and by the breadth and depth of his devotion to the arbitral process. The volume also gives a sense of his humanity, of his warmth and wit. Loved by his colleagues, his students and indeed all those who came to know him, this volume is in celebration of the extraordinary achievements of this remarkable jurist, teacher and human being.

Consolidated Gold Fields in Australia Robert Porter, 2020-04-29 Consolidated Gold Fields was a major British mining house founded by Cecil Rhodes in 1892. Diversifying from its South African gold interests, the company invested widely during the following century. This included investments in the Western Australian gold sector from the 1920s and exploration and mining activities elsewhere in Australia and the Territory of New Guinea. In the 1960s Consolidated Gold Fields Australia (CGFA) was formed. CGFA had ambitious plans and the financial backing from London to establish itself as one of the main diversified mining companies in Australia. Investments were held in the historic Mount Lyell Mining and Railway Company in Renison and it was one of the first groups to develop iron ore deposits in the Pilbara of Western Australia. It also acquired a major interest in mineral sands. While the London-based Consolidated Gold Fields ceased to exist in 1989, taken over and dismembered by renowned corporate raider Hanson Plc, its Australian subsidiary, renamed Renison Goldfields Consolidated (RGC), continued for another nine years as a diversified mining group before it suffered its own corporate demise, facilitated by Hanson. CGFA and RGC were important participants in Australia's post World War II mining sector. This book is a history of a once great British mining finance house and its investments in Australia. Consolidated Gold Fields had a rich and broad history in Australia; its ultimate fate did not demonstrate its potential as an Australian mining company.

The Prize Daniel Yergin, 2012-09-11 The Prize recounts the panoramic history of oil and the struggle for wealth, power that has always surrounded oil. This struggle has shaken the world economy, dictated the outcome of wars and transformed the destiny of men and nations. The Prize is as much a history of the twentieth century as of the oil industry itself. The canvas of this history is enormous, from the drilling of the first well in Pennsylvania through two great world wars to the Iraqi invasion of Kuwait and Operation Desert Storm. The cast extends from wildcatters and rogues to oil tycoons and from Winston Churchill and Ibn Saud to George Bush and Saddam Hussein. The definitive work on the subject of oil and a major contribution to understanding our century. The Prize is a book of extraordinary breadth, riveting excitement and great importance.

**From Empire to Eurasia** Sergey Glebov, 2017-05-15 The Eurasianist movement was launched in the 1920s by a group of young Russian migr s who had recently emerged from years of fighting and destruction Drawing on the cultural fermentation of Russian modernism in the arts and literature as well as in politics and scholarship the movement sought to reimagine the former imperial space in the wake of Europe s Great War The Eurasianists argued that as an heir to the nomadic empires of the steppes Russia should follow a non European path of development In the context of rising Nazi and Soviet powers the Eurasianists rejected liberal democracy and sought alternatives to Communism and capitalism Deeply connected to the Russian cultural and scholarly milieus Eurasianism played a role in the articulation of the structuralist paradigm in interwar Europe However the movement was not as homogenous as its name may suggest Its founders disagreed on a range of issues and argued bitterly about what weight should be accorded to one or another idea in their overall conception of Eurasia In this first English language history of the Eurasianist movement based on extensive archival research Sergey Glebov offers a historically grounded critique of the concept of Eurasia by interrogating the context in which it was first used to describe the former Russian Empire This definitive study will appeal to students and scholars of Russian and European history and culture
