Minorities and the Modern Arab World Laura Robson, 2016-05-18 In the wake of recent upheavals across the Arab world a simplistic media portrayal of the region as essentially homogenous has given way to a new though equally shallow portrayal casting it as deeply divided along ethnic linguistic and religious lines The essays gathered in *Minorities and the Modern Arab World* seek to challenge this representation with a nuanced exploration of the ways in which ethnic religious and linguistic commitments have intersected to create minority communities in the modern era Bringing together the fields of history political science anthropology sociology and linguistics contributors provide fresh analyses of the construction and evolution of minority identities around

the region They examine how the category of minority became meaningful only with the rise of the modern nation state and find that Middle Eastern minority nationalisms owe much of their modern self definition to developments within diaspora populations and other transnational frameworks The first volume to upend the conceptual frame of reference for studying Middle Eastern minority communities in nearly two decades Minorities and the Modern Arab World represents a major intervention in modern Middle East studies

Findlay, 2002-09-11 Disruption following the Gulf War and the need to satisfy both rising economic aspirations and the Islamic values of the region s peoples demands fresh examination of development issues in the Arab world This introductory text assesses how agricultural industrial and urban development has evolved in the Arab region Contrasting Arab and Western interpretations of development it draws on case studies covering states as diverse as Saudi Arabia Yemen Morocco and Jordan The author suggests that until the Arabs define their own identity there will continue to be change but not necessarily progress in the region *Routledge Handbook of Minorities in the Middle East* Paul S Rowe, 2018-09-20 The Routledge Handbook of Minorities in the Middle East gathers a diverse team of international scholars each of whom provides unique expertise into the status and prospects of minority populations in the region The dramatic events of the past decade from the Arab Spring protests to the rise of the Islamic state have brought the status of these populations onto centre stage The overturn of various long term autocratic governments in states such as Tunisia Egypt Libya and Yemen and the ongoing threat to government stability in Syria Iraq and Lebanon have all contributed to a new assertion of majoritarian politics amid demands for democratization and regime change In the midst of the dramatic changes and latent armed conflict minority populations have been targeted marginalized and victimized Calls for social and political change have led many to contemplate the ways in which citizenship and governance may be changed to accommodate minorities or indeed if such change is possible At a time when the survival of minority populations and the utility of the label minority has been challenged this handbook answers the following set of research questions What are the unique challenges of minority populations in the Middle East How do minority populations integrate into their host societies both as a function

of their own internal choices and as a response to majoritarian consensus on their status Finally given their inherent challenges and the vast sweeping changes that have taken place in the region over the past decade what is the future of these minority populations What impact have minority populations had on their societies and to what extent will they remain prominent actors in their respective settings This handbook presents leading edge research on a wide variety of religious ethnic and other minority populations By reclaiming the notion of minorities in Middle Eastern settings we seek to highlight the agency of minority communities in defining their past present and future

State of the World's Minorities 2006

Richard Green, 2005-12-22 The way in which we treat minorities is the measure of civilization of a society Mahatma Gandhi In the era of globalization societies are becoming more diverse Every country around the globe exhibits some ethnic religious or cultural diversity Instead of an asset to be celebrated however governments too often treat this as a threat States in every world region repress the rights of their minorities or even deny their existence For some minorities or indigenous peoples their very survival is at stake In addition to the war in Iraq which remained the focus of intense media attention over 20 further major armed conflicts were ongoing in other parts of the world in 2005 as well as a range of lower intensity conflicts In three quarters of these armed conflicts violence was targeted at specific ethnic or religious groups Yet many of these conflicts could have been prevented if minority and indigenous rights had been respected This first edition of the State of the World's Minorities looks at key developments over the last year affecting the human rights and security of ethnic religious or linguistic minorities and indigenous peoples It includes a Preface by the UN Special Adviser on the Prevention of Genocide Juan E M ndez analysis of trends and legal developments by leading authorities on minority rights an overview by world region highlighting main developments and areas of concern statistical data on Peoples under Threat 2006 ratification tables for the main minority rights treaties and extracts from recently concluded treaties This major new reference work provides an objective analysis of how minorities and indigenous peoples are treated around the globe and with it a measure of the civilization of our societies

Political Islam, Citizenship, and Minorities Andrea Zaki Stephanous, 2012-07-10 Political Islam Citizenship and Minorities discusses the relationship between religion and politics in the Middle East and the future of political Christianity The emergence of political Islam and the recent changes in political Christianity in the region have both contributed to a new perception of the role of Arab Christians Political Christianity is a part of the political discourse in the Middle East it makes a major contribution to the political life of the region This book explores Arab political participation in general and particularly examines the role of minorities The author considers both the impact of political Islam on politics and the concept of a political system based on religious principles The Copts of Egypt and the Maronites of Lebanon are compared in order to examine the nature of political participation by Arab Christians and to consider the political theologies behind both communities Arabism as a broad concept that includes Islam and other faiths is our concern A new vocabulary and fresh concepts for the effective political participation of Arab Christians are introduced in this book and a new concept of dynamic citizenship that is based on the development of civil society and learns from the problems of the past is developed

Religious Minorities in Non-Secular Middle Eastern and North African States Mark Tessler, 2019-07-19 This book describes and compares the circumstances and lived experiences of religious minorities in Tunisia Morocco and Israel in the 1970s countries where the identity and mission of the state are strongly and explicitly tied to the religion of the majority The politics and identity of Jews in Tunisia and Morocco and Arabs in Israel are therefore shaped to a substantial degree by their status as religious minorities in non secular states This collection based on in depth fieldwork carried out during an important moment in the history of each community and of the region considers the nature and implications of each group s response to its circumstances It focuses on both the community and individual levels of analysis and draws in part on original public opinion surveys It also compares the three communities in order to offer generalizable insights about ways the identity political culture and institutional character of a minority group are shaped by the broader political environment in which it resides The project will appeal to scholars and students in the fields of Middle Eastern and North African studies Judaic studies Islamic Studies minority group politics and international relations and the Arab Israeli conflict

Towards a Better Life: How to Improve the State of Democracy in the Middle East and North Africa, 2010

Minority Politics in the Middle East and North Africa Will Kymlicka, Eva Pförtl, 2018-02-02 Projects of democratic

reform in the Middle East and North Africa have said little about the place of minorities and minority rights in their vision of reform implying that these issues are best deferred to some indefinite future While many people describe the Arab Spring as a battle for pluralism there is a reluctance to discuss what this pluralism might actually mean for the political claims of minorities for fear of triggering divisive conflicts and undemocratic tendencies Is there an alternative to this fearful deferral of minority politics Can we imagine transformative minority politics that is a form of minority politics that strengthens democratic reform in the region and that helps deepen a culture of human rights and democratic citizenship This volume explores whether this is indeed a realistic prospect in the Middle East and North Africa examining cases that include the Amazigh in North Africa the Copts in Egypt the Kurds in Iraq the Palestinians in Israel the minoritarian regimes in Syria and Bahrain and various ethnic minorities in Iran This book was originally published as a special issue of Ethnic and Racial Studies *Religious Minorities in the Middle East* Anne Sofie Roald, Anh Nga Longva, 2011-11-11 Focusing on the situation of both Muslim and non Muslim religious minorities in the Middle East this volume offers an analysis of various strategies of resilience and accommodation from a historical as well a contemporary perspective
