The Miracles of Mentoring Thomas W. Dortch, 2000 **Mentoring Children and Adolescents** Maureen A. Buckley, Sandra Hundley Zimmermann, 2003-11-30 Written in a clear straightforward manner this comprehensive volume offers an overview of the concept of mentoring and information on the role that caring adult youth relationships play in fostering positive development for young people The book presents up to date research on the efficacy and limitations of mentoring types of mentoring programs and key figures in the mentoring movement It presents accessible information on issues crucial to developing implementing and assessing effective mentoring ventures Also included are an extensive collection of current practical resources and a directory of mentoring initiatives foundations and organizations A valuable resource for young people seeking adult connections this book is also beneficial to school personnel youth group leaders directors of volunteer programs and anyone who cares about young people and youth issues

The Dream Norman J. Mc Cullough, Norman J. MC Cullough B. a. M. a., 2012 The Dream a Manual to Facilitate Group Mentoring and Prevent High School Drop Outs for African American Hispanics European Americans and Others in Need of Positive Role Models in their lives is designed for individuals and groups who want to demonstrate their love for our youth in America and other locations throughout the world The book by way of its step by step and session by session

presentation gives the reader the opportunity to make a difference in the lives of a group of young people. Although one on one mentoring is not discouraged, this book focuses on the benefits of group mentoring and it gives the reader the tools needed including the *raison d'être* for the selection of a group mentor who can have a positive impact on 30-40 youth over a 5-8 week period of time. Especially during this time of concern about inappropriate behavior by adults, group mentoring can provide some protection because the emphasis is on group activities and not one on one contact. Moreover, given the events surrounding the death of Trayvon Martin, it is clear that for some communities we are talking about life and death. Trayvon was a 17th year old black male killed in February 2012. The session on the Law provides a role play about the do's and don'ts when confronted by the police. The book discusses why group mentoring is needed and the role of various parties in the group mentoring process. The role of the group mentor is key. The role of the family, mentors, media, God, and others is discussed so that the reader has a clear understanding of how all the pieces must come together to develop and present a viable program. A train the group mentor program is also available upon request.

Men on a Mission William Marsiglio, 2008-05-30. Men on a Mission provides the first comprehensive study of men who work and volunteer with kids in a variety of public settings. This engaging book brings to life diverse histories and experiences of men who have worked as coaches, teachers, youth ministers, probation officers, Big Brothers Boys Girls Club staff, 4-H agents, and the like. Drawing on in depth interviews with men between the ages of 19 and 65, ethnographic observations, and more than twenty years of research on fathers, William Marsiglio explores the many aspects of male mentorship of youth, including the motivating factors, the effectiveness of differing interpersonal strategies, how the work is perceived, the influences that youth work and fathering exert on each other, the ways in which such volunteerism affects men's personal development, and the impact of social policy and programmatic initiatives. He also highlights timely public debates about the feminization of work with kids, the culture of fear arising from the exploitation of children, public discussions about fatherhood, and community initiatives to help at risk youth. Situating men's youth work in historical perspective and discussing the status of youth today, this original and groundbreaking analysis offers a forward looking vision for getting men more involved and involved more productively in helping kids thrive.

Males Dr. William Ross,2014-09-01 Mentoring African American Males provides important black male research and student performance data to guide the efforts of those who accept the enormous task of standing in the gap to increase black male achievement Dr Ross provides guidance for individuals and institutions embracing the important role of developing mentoring programs or serving as a mentor to youth However what makes Dr Ross work such a critically important book for any individual or institution considering such a role is its insight into the social cultural framework within which mentoring must occur at every level from elementary school through college Equally insightful is the structure that such programs must take in response to the socio cultural constructs of the families communities and institutions where they will occur There are far more quantitative studies than qualitative on the topic of mentoring This text addresses that discrepancy and provides the results of several qualitative studies on African American males There is hardly any that offer a mixed method perspective that combine quantitative and qualitative methodological approaches This text reports on the research results that are qualitative in nature in addition to some that are from a quantitative and mixed method approach *Jet* ,2006-07-10 The weekly source of African American political and entertainment news *Jet* ,2006-07-10 The weekly source of African American political and entertainment news *Jet* ,2006 *Forthcoming Books* Rose Army,2001-06 What Black Men Should Do Now K.
