Y.) Metropolitan Museum of Art (New York, 1999 Displays over two hundred important objects representing the best of Medieval art as exhibited at the Metropolitan Museum of Art in 1999 **Building the Medieval World** Christine Sciacca, 2010 Some of the great and lasting achievements of the Middle Ages and the Renaissance are the architectural wonders of soaring cathedrals and grand castles and palaces While many of these edifices survive many more are lost and it is within the pages of illuminated manuscripts that we often find the best record of the appearance of these amazing buildings This volume illustrates the creative ways in which medieval artists represented architecture offering insight into what these buildings meant for medieval people Such structures were not just made to be inhabited they symbolized grandeur power and even heaven on earth Building the Medieval World accompanies an exhibition of the same name on view at the J Paul Getty Museum from March 2 through May 16 2010 Building the Medieval World is the fourth in the popular Medieval Imagination series of small affordable books drawing on manuscript illumination in the collections of the J Paul Getty Museum and the British Library Each volume focuses on a particular theme and provides an accessible delightful introduction to the imagination of the medieval world **The Medieval World of Nature** Joyce E. Salisbury, 2019-06-26 Originally published in 1993 The Medieval World of Nature looks at how the natural world was viewed by medieval society The book presents the argument that the pragmatic medieval view of the natural world of animals and plants existed simply to serve medieval society It discusses the medieval concept of animals as food labour and sport and addresses how the biblical charge of assuming dominion over animals and plants was rooted in the medieval sensibility of control The book also looks at the idea of plants and animals as not only pragmatic but as allegories within the medieval world utilizing animals to draw morality tales which were viewed with as much importance as scientific information This book provides a unique and interesting look at the everyday medieval world *Prognostication in the Medieval World* Matthias Heiduk, Klaus Herbers, Hans-Christian Lehner, 2020-11-09 Two opposing views of the future in the Middle Ages dominate recent historical scholarship According to one opinion medieval societies were expecting the near end of the world and therefore had no concept of the future According to the other opinion the expectation of the near end created a drive to change the world for the better and thus for innovation Close inspection of the history of prognostication reveals the continuous attempts and multifold methods to recognize and interpret God's will the prodigies of nature and the patterns of time That proves on the one hand the constant human uncertainty facing the contingencies of the future On the other hand it

demonstrates the firm belief during the Middle Ages in a future which could be shaped and even manipulated The handbook provides the first overview of current historical research on medieval prognostication It considers the entangled influences and transmissions between Christian Jewish Islamic and non monotheistic societies during the period from a wide range of perspectives An international team of 63 renowned authors from about a dozen different academic disciplines contributed to this comprehensive overview

**A Cultural History of Hair in the Middle Ages** Roberta Milliken, 2020-12-10 The Middle Ages were a time of great innovation artistic vigor and cultural richness Appearances mattered a great deal during this vibrant era and hair was a key marker of the dynamism and sophistication of the period Hair became ever more central to religious iconography from Mary Magdalen to the Virgin Mary while vernacular poets embellished their verses with descriptions of hairstyles both humble and elaborate and merchants imported the finest hair products from great distances Drawing on a wealth of visual textual and object sources the volume examines how hairstyles and their representations developed often to a degree of dazzling complexity between the years AD

800 and AD 1450 From wimpled matrons and tonsured monks to adorned noblewomen hair is revealed as a potent cultural symbol of gender age sexuality health class and race Illustrated with approximately 80 images A Cultural History of Hair in the Middle Ages brings together leading scholars to present an overview of the period with essays on politics science religion fashion beauty the visual arts and popular culture *Imperial Visions of Late Byzantium* Florin Leonte, 2019-11-27 Explores a Byzantine emperor's construction of authority with the help of his rhetorical texts Examines the changes in the Byzantine imperial idea by the end of the fourteenth century with a particular focus on the instrumentalization of the intellectual dimension of the imperial rule Integrates late Byzantine imperial visions into the bigger picture of Byzantine imperial ideology Provides a fresh understanding of key pieces of Byzantine public rhetoric and introduces analytical concepts from rhetorical literary and discursive theories Offers translations of key passages from late Byzantine rhetoric Manuel II Palaiologos was not only a Byzantine emperor but also a remarkably prolific rhetorician and theologian His oeuvre included letters treatises dialogues short poems and orations Florin Leonte deals with several of his texts shaped by a didactic intention to educate the emperor's son and successor John VIII Palaiologos He argues that the emperor constructed a rhetorical persona which he used in an attempt to compete with other contemporary power brokers While Manuel Palaiologos adhered to many rhetorical conventions of his day he also reasserted the civic role of rhetoric With a special focus on the first two decades of Manuel II Palaiologos rule 1391-1417 Leonte offers a new understanding of the imperial ethos in Byzantium by combining rhetorical analysis with investigation of social and political phenomena *In the Mirror of Persian Kings* Blain Auer, 2021-05-06 For a period of nearly eight hundred years Perso-Islamic kingship was the source for the dominant social and cultural paradigms organising Indian political life In the medieval world of South Asia Persian kingship took the form of a hybridized and adaptive political expression The Persian king embodied the values of justice military heroics and honor ideals valorized historically and transculturally yet the influence of the pre-Islamic Persian past and Persian forms of kingship has not yet been fully recognised In this book Blain Auer demonstrates how Persian kingship was a transcultural phenomenon Describing the contributions made by kings poets historians political and moral philosophers he reveals how and why the image of the Persian king played such a prominent role in the political history of Islamicate societies in general and in India in particular By tracing the historical thread of this influence from Samanid Ghaznavid and Ghurid empires Auer demonstrates how that legacy had an impact on the establishment of Delhi as a capital of Muslim rulers who made claims to a broad symbolic and ideological inheritance from the Persian kings of legend *A Critical Companion to the 'Mirrors for Princes' Literature*, 2022-12-05 Why devote a Companion to the mirrors for princes whose very existence is debated These texts offer key insights into political thoughts of the past Their ambiguous problematic status further enhances their interest And although recent research has fundamentally challenged established views of these texts until now there has been no critical introduction to the genre This volume therefore fills this important gap while promoting a global historical perspective of

different mirrors for princes traditions from antiquity to humanism via Byzantium Persia Islam and the medieval West This Companion also proposes new avenues of reflection on the anchoring of these texts in their historical realities Contributors are Makram Abbas Denise Aigle Olivier Biaggini Hugo Bizzarri Charles F Briggs Sylvie Edouard Jean Philippe Genet John R Lenz Louise Marlow Cary J Nederman Corinne Peneau Stephanie Piquignot Noelle Laetitia Perret Gnter Prinzing Volker Reinhardt Hans Joachim Schmidt Tom Stevenson Karl Uhl and Steven J Williams

Nothingness, Negativity, and Nominalism in Shakespeare and Petrarch Benjamin Boysen, 2020-11-09 Being exposed to the Nominalist expansion in early modernity Petrarch and Shakespeare are highly preoccupied with a Nominalist dimension of language and representation Against this background the study shows how these Renaissance poets advanced a special notion of subjectivity and identity as rooted in negativity otherness and representation The book thus argues for a new understanding of negative modes of subjectivity in Petrarch and Shakespeare A new and sharpened understanding emerging from an interpretation of Francesco Petrarch s notion of exile and of love in his great poetical cycle Rerum vulgarium fragmenta as well as a meticulous examination of the concept of nothingness in William Shakespeare s works Petrarch and Shakespeare poetically show how identity is alien and decentred yet also free and expanding In other words these poets illustrate how subjectivity is constituted by heterogeneity Moreover pointing to other examples of this negative subjectivity in Renaissance philosophy and poetry the study suggests that these models for subjectivity could be extended to other early modern writers
