Miscellanea Codicologica F Masai:

Texts of the Passion Thomas H. Bestul, 2015-08-05 In this book Thomas H Bestul constructs the literary history of the Latin Passion narratives placing them within their social cultural and historical contexts He examines the ways in which the Passion is narrated and renarrated in devotional treatises paying particular attention to the modifications and enlargements of the narrative of the Passion as it is presented in the canonical gospels Of particular interest to Bestul are the representations of Jews women and the body of the crucified Christ Bestul argues that the greatly enlarged role of the Jews in the Passion narratives of the twelfth and thirteenth centuries is connected to the rising anti Judaism of the period He explores how the representations of women particularly the Virgin Mary express cultural values about the place of women in late medieval society and reveal an increased interest in female subjectivity

Early Music History: Volume 14 Iain Fenlon, 1995-11-16 Devoted to the study of music from the early Middle Ages to the end of the seventeenth century

The Oxford Handbook of Medieval Latin Literature Ralph Hexter, David Townsend, 2012-01-23 The twenty eight essays in this Handbook represent the best of current thinking in the study of Latin language and literature in the Middle Ages The insights offered by the collective of authors not only illuminate the field of medieval Latin literature but shed new light on broader questions of literary history cultural interaction world literature and language in history and society The contributors to this volume a collection of both senior scholars and gifted young thinkers vividly illustrate the

field's complexities on a wide range of topics through carefully chosen examples and challenges to settled answers of the past. At the same time they suggest future possibilities for the necessarily provisional and open-ended work essential to the pursuit of medieval Latin studies. While advanced specialists will find much here to engage and at times to provoke them, this handbook successfully orients non-specialists and students to this thriving field of study. The overall approach of *The Oxford Handbook of Medieval Latin Literature* makes this volume an essential resource for students of the ancient world interested in the prolonged afterlife of the classical period's cultural complexes for medieval historians, for scholars of other medieval literary traditions, and for all those interested in delving more deeply into the fascinating more than millennium that forms the bridge between the ancient Mediterranean world and what we consider modernity.

The Reforms of the Council of Constance (1414-1418) Phillip Stump, 2022-02-22 The first comprehensive study of the Constance reforms since 1867, this volume offers new explanations for the frequently alleged failures of the reforms while arguing that the successes were much greater than historians have generally acknowledged. The author analyses the specific reforms in light of the conflicting interests of reformers; then he probes the conceptual basis of the reforms, employing methodology developed by Gerhart Ladner. An appendix offers a new edition of the central source for the deliberations: the records of the Constance reform committee, using three newly identified manuscripts. The Constance reformers gathered a rich harvest of late medieval institutional reform thought and imagery. Under the central motto of reform in head and members, they put long-standing conciliar theories into practice, forging a pragmatic synthesis of hierarchy and collegiality.

The Hypotyposis of the Monastery of the Theotokos Evergetis, Constantinople (11th-12th Centuries) R. H. Jordan, Rosemary Morris, 2016-03-03 This book forms part of the Evergetis Project, which aims to investigate all surviving texts associated with the Monastery of the Theotokos Evergetis, founded in 1049 near Constantinople. An English translation of the *Hypotyposis*, the monastery's foundation document, is provided, accompanied by detailed notes. Previous scholarship on the authorship of the

Hypotyposis and the evolution of the text is discussed and linguistic analysis used to suggest that traces of the original foundation document by Paul Evergetinos can be identified within it The Hypotyposis was widely used as a model for later Byzantine and Slavonic typika and the precise relationship of these documents one to the other is demonstrated in detail The volume also includes prosopographical material on the known patrons of the monastery a discussion of its library English translations of later Greek and Latin texts referring to the monastery and a suggested reconstruction of Paul Evergetinos original foundation document *Medieval Scholarship: Biographical Studies on the Formation of a Discipline* Helen Damico, 2014-02-04 First published in 1998 Medieval Scholarship Biographical Studies on the Formation of a Discipline Volume 2 Literature and Philology is the second volume of three that present Biographies of scholars whose work influenced the study of the Middle Ages and transformed it into the discipline known as Medieval Studies Volume 2 provides thirty two accounts of men and women from the sixteenth century to the twentieth who developed medieval philology and literature into a profession Their subject deals with the languages and literatures of greater Europe from about the seventh century through the fifteenth and includes Celtic Scandinavian Germanic and Romance nations **Interfaith Relationships and Perceptions of the Other in the Medieval Mediterranean** Sarah Davis-Secord, Belen Vicens, Robin Vose, 2021-12-16 This book is a collaborative contribution that expands our understanding of how interfaith relations both real and imagined developed across medieval Iberia and the Mediterranean The volume pays homage to the late Olivia Remie Constable s scholarship and presents innovative thought provoking interdisciplinary investigations of cross cultural exchange ranging widely across time and geography Divided into two parts Perceptions of the Other and Interfaith relations this volume features scholars engaging with church art literature historiography scientific treatises and polemics in order to study how the religious Other was depicted to serve different purposes and audiences There are also microhistories that examine the experiences of individual families classes and communities as they interacted with one another in their own specific contexts Several of these studies draw their source material from church and state archives as well as jurisprudential texts and span the centuries from the late medieval to early modern periods *The New Cambridge History of the Bible: Volume 3, From 1450 to 1750* Euan Cameron, 2016-09-01 This volume charts the Bible s progress from the end of the Middle Ages to the Enlightenment During this period for the first time since antiquity the Latin Church focused on recovering and re establishing the text of Scripture in its original languages It considered the theological challenges of treating Scripture as another ancient text edited with the tools of philology This crucial period also saw the creation of many definitive translations of the Bible into modern European vernaculars Although previous translations exist these early modern translators often under the influence of the Protestant Reformation distinguished themselves in their efforts to communicate the nuances of the original texts and to address contemporary doctrinal controversies In the Renaissance s rich explosion of ideas Scripture played a ubiquitous role influencing culture through its presence in philosophy literature and the arts This history examines

The External School in Carolingian Society Hildebrandt,2021-09-20 This study explores one means of imparting Latin literacy in early medieval society the so called external school often presumed to have been a common feature of medieval monastic education It questions the prevalence of this institution and whether the external school can be used as evidence of relatively widespread literacy among the non clerical Carolingian population in particular By precisely defining and chronicling external schooling M M Hildebrandt invites the reader to reconsider conventional notions about the nature of the Carolingian educational program The author examines the intention of monastic founders and writers regarding education the effects of missionary activities on the religious training of non monks the attempts made by royal and ecclesiastical leaders to rationalize external schooling and the impact of ninth century political and economic turmoil on the development of this institution The scope of this book makes it of interest as a contribution to the current debate concerning the character of medieval literacy as well as a source book for the study of early medieval monastic education **Interpreting Proclus**
