

The stockbroker makes a commission of 20-30% on your order when you buy and when you sell. Stockbrokers usually hold the stock certificates for you.

TYPES OF ORDERS

Market Order-a stock order that gets you the best price at the time of the order

Limit Order-a stock order that costs more. You can request that the order not go through until the stock falls to a lower price that you want to pay.

Stop Order-a stock order that costs more. You can protect yourself from losing a lot of money with this type. You tell your broker to automatically sell your shares in a stock if it falls below a certain price.

WAYS TO MAKE MONEY WITH STOCK

Selling Long: These stock orders allow you to make money when a stock goes up in value.

Selling Short: This is a type of stock order that you can transact when you think a stock will decline in value. You can make money if it goes down; lose money if it goes up in value. (skit)
