The Keys to High Level Production Million Dollar Producer, Incorporated, 2003-01-01 **Production Management Handbook** Brian Halford Walley, 1982 *5 Rules of Production* Marcus Karl Haman, 2014-11-24 Production is a lively cultural process with its own rules and structures In order to understand production correctly it must be learnt and experienced Not in the lecture hall but on the shopfloor Like every other discipline the production too is a field of enterprise with its own rules and structures Comparable with a kitchen It gives recipes and ingredients pots and other utensils which the cook can use to create a symposium of a treat A top cook learns the hard craft over several years despite that the taste is not of the same quality for every cook An example for this A champion cook writes a cookery book wherein he lists and describes the ingredients mentions exact quantities and discloses his very precise recipe so that just about everything is explained and described Do you really believe that it tastes as good if it is cooked by someone else Perhaps however it will always taste differently and never the same To the question as to why this is so there can only be one explanation Not everyone can cook And that is how it is also with the production Production must be understood Whosoever thinks that he has learnt production in the university makes a mistake Production is learnt on the shopfloor starting from scratch On the production line and not in the lecture hall And one thing is certain Production is more complex than one thinks *Guide to Basic Production Management* Buffa, 1971-01-01 Production Eliyahu M.
