already been made and that LRMT has already been identified as the appropriate transport solution We have included some limited discussion of policy and technical issues where these directly impact the LRMT PPP approach The approach is presented in nine sections and in preparing it the author drew on current international LRMT PPP experience through a series of interviews and case studies The sections covered are 1 Urban Transport and Light Rail Light Metro Transit LRMT 2 Selected Technical Aspects 3 Incorporating Private Sector Participation in LRMT Initiatives 4 Understanding and Allocating Risk 5 Specifications Oversight and Performance Management 6 Funding and finance 7 Developing a PPP Agreement 8 Procurement 9 Conclusions and Recommendations
