Reasonable Creatures Essays On Women And Feminism:

Reasonable Creatures Katha Pollitt, 1995 While many books focus on the broader socially ethical topics of widening participation and promoting equal opportunities this text focuses specifically on the lecturer's professional responsibilities It covers everyday real life moral dilemmas which confront university teachers when dealing with students and colleagues whether arising from facilitated discussion in the classroom deciding whether it is fair to extend a deadline investigating suspected plagiarism or dealing with complaints New York Magazine, 1994-10-10 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea Women's Voices and Feminism in Polish Cultural Memory Urszula Chowaniec, Ursula Phillips, 2013-02-22 Every time a so called woman's voice appears in the media in connection with any sphere of creative activity it finds itself confronted by the almost formulaic expression feminism today instantaneously suggesting that feminism is in fact a matter of the past and that if we want to return to this phenomenon then we need to explain ourselves Women's Voices and Feminism in Polish Cultural Memory seeks to elaborate the problem of generalization expressed by such formulas as feminism today while analysing how feminist sympathies have shaped Polish literature film and language This volume does not want to impose any hegemonic understanding of feminism or imply any a priori ideological assumptions about women's nature or role in society It seeks to identify what is particular to the Polish feminist experience It starts by asking such questions as what is feminism today or what can we learn from the history of Polish women's writing In answering these questions the women scholars who have contributed to the volume examine Polish cultural history and memory in the context of the transformations transitions and catastrophes of the last two centuries whilst firmly rooting Polish experience within the common European heritage **I Can't Believe She Did That!** Nan Mooney, 2025-06-25 I CAN'T BELIEVE SHE DID THAT offers a new and compelling perspective on conflict and competition among women in the workplace Nan Mooney explores how and why some women hurt each other on the job and what we can do to begin cleaning up the mess Based on real stories from real women I CAN'T BELIEVE SHE DID THAT provides a provocative social and cultural exploration of the often troubled and painful dynamics that unfold among female coworkers The massive influx of women into the workplace in the past thirty years means a whole new category of problems has arisen Suddenly women are working over under and alongside other women Their professional relationships are subject to the pressures and conflicts of organizational culture not to mention society at large Women on the job have grown more comfortable with ambition competition management and success but that hasn't negated the value they place on communication and relationships on being liked and being nice Striking a balance between these two selves is a delicate

undertaking and many women are uncertain how to interact in a workplace where such lines are regularly being blurred Working together women have fostered a breathtaking degree of positive change But there is another side to the story If women are to continue moving forward the time has come to examine honestly and unequivocally our very human impulse to compete with hurt and even destroy one another to get what we want In *I CAN T BELIEVE SHE DID THAT* Nan Mooney provides vivid insights on the emotional toll competition can take on women in business and charts a path towards more productive and fulfilling relationships for professional women everywhere Who's Who in Contemporary Women's Writing Jane Eldridge Miller, 2019-07-23 Unique in its breadth of coverage *Who's Who in Contemporary Women's Writing* is a comprehensive authoritative and enjoyable guide to women's fiction prose poetry and drama from around the world in the second half of the twentieth century Over the course of 1000 entries by over 150 international contributors a picture emerges of the incredible range of women's writing in our time from Toni Morrison to Fleur Adcock all are here This book includes the established and well loved but also opens up new worlds of modern literature which may be unfamiliar but are never less than fascinating *Bitch* Elizabeth Wurtzel, 2012-10-17 From the author of the bestselling *Prozac Nation* comes one of the most entertaining feminist manifestos ever written In five brilliant extended essays she links the lives of women as demanding and disparate as Amy Fisher Hillary Clinton Margaux Hemingway and Nicole Brown Simpson Wurtzel gives voice to those women whose lives have been misunderstood who have been dismissed for their beauty their madness their youth *Bitch* is a brilliant tract on the history of manipulative female behavior By looking at women who derive their power from their sexuality Wurtzel offers a trenchant cultural critique of contemporary gender relations Beginning with Delilah the first woman to supposedly bring a great man down latter day Delilahs include Yoko Ono Pam Smart Bess Myerson Wurtzel finds many biblical counterparts to the men and women in today's headlines She finds in the story of Amy Fisher the tragic plight of all Lolitas our thirst for their brief and intense flame She connects Hemingway's tragic suicide to those of Sylvia Plath Edie Sedgwick and Marilyn Monroe women whose beauty was an end ultimately in itself Wurtzel writing about the wife mistress dichotomy explains how some women are anointed as wife material while others are relegated to the role of mistress She takes to task the double standard imposed on women the cultural insistence on goodness and society's complete obsession with badness what's a girl to do Let's face it if women were any real threat to male power Gennifer Flowers would be sitting behind the desk of the Oval Office writes Wurtzel and Bill Clinton would be a lounge singer in the Excelsior Hotel in Little Rock *Bitch* tells a tale both celebratory and cautionary as Wurtzel catalogs some of the most infamous women in history defending their outsize desires describing their exquisite loneliness championing their take no prisoners approach to life and to love Whether writing about Courtney Love Sally Hemings Bathsheba Kimba Wood Sharon Stone Princess Di or waxing eloquent on the hideous success of *The Rules* the evil that is *The Bridges of Madison County* the twisted logic of *You'll Never Make Love in This Town Again* Wurtzel is back with a bitchography that cuts to the core In prose both blistering and brilliant

Bitch is a treatise on the nature of desperate sexual manipulation and a triumph of pussy power **The ^AMoral Skeptic**

Superson,2009-03-13 This book challenges assumptions that philosophers traditionally have made in setting out the demands of the skeptic who asks Why be moral It aims to show the ways in which philosophers should broaden narrow and otherwise fine tune the skeptic s position so that a defeat of skepticism is complete **Encyclopedia of Feminist Literature**

Perfect Madness Judith Warner, 2006-02-07 A lively and provocative look at the modern culture of motherhood and at the social economic and political forces that shaped current ideas about parenting What is wrong with this picture That s the question Judith Warner asks in this national bestseller after taking a good hard look at the world of modern parenting at anxious women at work and at home and in bed with unhappy husbands When Warner had her first child she was living in Paris where parents routinely left their children home with state subsidized nannies to join friends in the evening for dinner or to go on dates with their husbands When she returned to the States she was stunned by the cultural differences she found toward how people think about effective parenting in particular assumptions about motherhood None of the mothers she met seemed happy instead they worried about the possibility of not having the perfect child panicking as each developmental benchmark approached Combining close readings of mainstream magazines TV shows and pop culture with a thorough command of dominant ideas in recent psychological social and economic theory Perfect Madness addresses our cultural assumptions and examines the forces that have shaped them Working in the tradition of classics like Betty Friedan s *The Feminine Mystique* and Christopher Lasch s *The Culture of Narcissism* and with an awareness of a readership that turned recent hits like *The Bitch in the House* and Allison Pearson s *I Don t Know How She Does It* into bestsellers Warner offers a context in which to understand parenting culture and the way we live as well as ways of imagining alternatives actual concrete changes that might better our lives

The Trouble with Nature Roger N. Lancaster, 2003-05-01 Roger N Lancaster provides the definitive rebuttal of evolutionary just so stories about men women and the nature of desire in this spirited expos of the heterosexual fables that pervade popular culture from prime time sitcoms to scientific theories about the so called gay gene Lancaster links the recent resurgence of biological explanations for gender norms sexual desires and human nature in general with the current pitched battles over sexual politics Ideas about a hardwired and immutable human nature are circulating at a pivotal moment in human history he argues one in which dramatic changes in gender roles and an unprecedented normalization of lesbian and gay relationships are challenging received notions and commonly held convictions on every front *The Trouble with Nature* takes on major media sources the New York Times Newsweek and widely ballyhooed scientific studies and ideas to show how journalists scientists and others invoke the rhetoric of science to support political positions in the absence of any real evidence Lancaster also provides a novel and dramatic analysis of the social historical and political backdrop for changing discourses on nature including an incisive critique of the failures of queer theory to understand the social conflicts of the moment By showing how reductionist explanations for sexual orientation lean on essentialist ideas about gender Lancaster invites us to think more deeply and creatively about human acts and social relations

Inclusion Steven Epstein, 2009-04 As a society we have learned to value diversity But can some strategies to achieve diversity mask deeper problems ones that might require a different approach

and different solutions With Inclusion Steven Epstein argues that in the field of medical research the answer is an emphatic yes Formal concern with diversity in American medical research Epstein shows is a fairly recent phenomenon Until the mid 1980s few paid close attention to who was included in research subject pools Not uncommonly scientists studied groups of mostly white middle aged men and assumed that conclusions drawn from studying them would apply to the rest of the population But struggles involving advocacy groups experts and Congress led to reforms that forced researchers and pharmaceutical companies to diversify the population from which they drew for clinical research That change has gone hand in hand with bold assertions that group differences in society are encoded in our biology for example that there are important biological differences in the ways that people of different races and sexes respond to drugs and other treatments While the prominence of these inclusive practices has offered hope to traditionally underserved groups Epstein argues forcefully that it has drawn attention away from the tremendous inequalities in health that are rooted not in biology but in society There is for instance a direct relationship between social class and health status and Epstein believes that a focus on bodily differences can obscure the importance of this factor Only when connected to a broad based effort to address health disparities Epstein explains can a medical policy of inclusion achieve its intended effects
