often considered within socio historical and socio political contexts whereby technical and legislative responses are sought. However this book explores the question: How ethically defensible is the notion of inclusion in relation to people with intellectual disability? The book contends that inclusion is a multifaceted complex concept in a dualistic and dichotomous relationship with exclusion. It is argued that historical and contemporary conceptualisations of exclusion for people with intellectual disability have been constructed from various philosophical and theological matrices imbued with particular values about personhood. Furthermore it is proposed that the ethical significance of inclusion and exclusion in the context of intellectual disability is defined and perpetuated by expressions of a particular socio symbolic order underpinned by patriarchy and kyriarchy and subjected to two controlling ethics: an Ethic of Normalcy and an Ethic of Anomaly. Inclusion and exclusion are conceived as phenomena relating to how membership is defined, legitimated or repelled by concealed, occluding boundaries acting within a patriarchal socio ethical fabric. The book argues that Ethical Inclusion is only possible through the rupture of these boundaries by a conceptual tool: A Transformatory Ethic of Inclusion. This conceptual instrument of rupture embraces the scholarship of feminist ethics and feminist theology. Such a rupture requires examining the ways traditional ethical frameworks themselves have conceptually diminished and devalued the authenticity of people with intellectual disability. A concept of integrality becomes imaginable. Conceptual analysis is framed using a crafting metaphor of a patchwork quilt which is infused with narrative and by which such an ethical exploration is undertaken and impaired. Traditional ethical theorising is confronted and transformed.

Tsitsi Chataika, 2018-07-27

This comprehensive ground breaking southern African centred collection spans the breadth of disability research and practice. Reputable and emerging scholars together with disability advocates adopt a critical and interdisciplinary stance to prove, challenge and shift commonly held social understanding of disability in traditional discourses, frontiers and practices in prominent areas such as international development, disability studies, education, culture, health, religion, gender, sports, tourism, ICT, theatre, media, housing and legislation. This handbook provides a body of interdisciplinary analyses suitable for the development of disability studies in southern Africa. Through drawing upon and introducing resources from several disciplines, theoretical perspectives and personal narratives from disability activists, it reflects on disability and sustainable development in southern Africa. The handbook further acknowledges and builds upon the huge body of literature that understands the social, cultural, educational, psychological, economic, historical and political facets of the exclusion of disabled people. The handbook covers the following broad themes: Disability inclusion, ICT and sustainable development, Access to education from early childhood development up to higher education, Disability employment, entrepreneurship and community based rehabilitation, Religion, gender and parenthood, Tourism, sports and accessibility.
