Sin Radical Evil In Soul And Society:

Sin Ted F. PetersMartinezHewlett,1998-10-21 Sin Many Christians today have lost the ability to talk about it in personal terms For the last quarter century the theological establishment like society has consigned the human predicament to structures of political and economic oppression or to systemic evil such as race and gender discrimination In the process people have lost interest in the internal workings of the human soul attributing the evils of our world to social forces beyond the scope of personal responsibility Rethinking Faith James Newton Poling,2011-08 What can practical theology contribute to other theological disciplines and the church about the nature of God and the church s witness to Jesus Christ in the world What can we learn about the love and power of God in Jesus Christ from the community of survivors of violence Rethinking Faith urges all Christians to consider themselves practical theologians by drawing on their own experiences in making theological assertions Poling couples his understanding of the tradition with his work with survivors of violence to demonstrate the resilience of Christianity Problems with Atonement Stephen Finlan,2005 Examines the origins and outcomes of the Christian doctrine of atonement its biblical foundations development and theological questions surrounding it including questions about its relationship to the Incarnation Provided by publisher *God--The World's Future* Ted Peters,2015-08-01 God The World s Future has been a proven textbook in systematic theology for over twenty years Thoroughly revised and expanded this third edition is explicitly crafted to address our postmodern context and explains the whole body of Christian historical doctrine from within a proleptic framework Peters skillfully deploys this concept not only to organize the various theological areas or loci but also to rethink doctrines in light of key postmodern challenges from ecumenism critical historical thinking contemporary science and gender and sexuality issues *Reflections on My Call to Preach* Fred B. Craddock,2009 Travel with revered preacher and author Fred Craddock through his early years as he considers what made him take to the pulpit For some reason I felt I had to say Yes or No to the ministry so I could feel free again My siblings and friends talked almost casually about options and preferences as to careers but with no evident sense of urgency Not so with me I did not then nor do I now know whether the burden of choice was a trait of personality a kind of super conscientiousness whether the calling to ministry itself carried a weight a burden peculiar to the task itself Rightly or wrongly when I thought of possibly becoming a journalist that would be a choice 100 percent mine When I considered becoming a minister that was not totally my decision I was responding to God s will for me Of course I had been told that journalists lawyers teachers merchants farmers all could understand their lives as a vocation a calling but what I am telling you is that I perceived I felt I experienced the idea of being a preacher as different and that difference was sobering even burdensome That s why advice about not being in a hurry taking my time was not helpful even if wise If it was my decision why could I not make it now if it was God s decision why did not God tell me or at least tell my father or my mother I prayed for the ache to leave me Excerpt from Reflections on My Call to Preach **Ecotheology** Kiara Jorgenson,Alan G.

Padgett,2020-09-24 Just as God loves creation so are Christians called to care for it Now amid the accelerating degradation of our global environment that task has taken on greater urgency than ever How should Christians respond to the climate crisis and widespread pollution of earth s shared commons water and air How might Christian communities think about human responsibility to other living creatures In roundtable format Richard Bauckham Cynthia Moe Lobeda Steven Bouma Prediger and John F Haught navigate the layers of what it means for humans to live in right relationship with earth s lifecosystems After each contributor s essay the other three contributors issue a response including points of disagreement and questions thereby modeling for readers productive and respectful dialogue The ecumenical conversations in *Ecotheology* represent the diverse viewpoints of contributors theological and practical commitments exploring creation care through a variety of frameworks including natural science biblical studies systematic theology and Christian ethics *Fallenness and Flourishing* Hud Hudson,2021 *Fallenness and Flourishing* opens with defenses of the philosophy of pessimism first on secular grounds and then again on distinctively Christian grounds with reference to the fallenness of human beings It then details traditional Christian reasons for optimism with which this philosophy of pessimism can be qualified Yet even among those who accept the general religious worldview underlying this optimism many nevertheless willfully resist the efforts required to cooperate with God and instead pursue happiness and well being or flourishing on their own power On the assumption that we can acquire knowledge in such matters arguments are presented in favour of objective list theories of well being and the Psychic Affirmation theory of happiness and the question How are people faring in this quest for self achieved happiness and well being is critically investigated The unfortunate result is that nearly everywhere people are failing The causes of failure it is argued are found in the noetic effects of sin especially in inordinate self love and self deception but also in insufficient self love and such failure manifests both in widespread unhappiness and in that most misunderstood of the seven deadly sins sloth After a literary tour designed to reveal the many different ways that sloth can damage a life Hud Hudson provides a constructive proposal for responding to this predicament featuring the virtue of obedience This virtue is analysed illustrated and located in a new theory of well being **Recovering the Scandal of the Cross** Mark D. Baker,Joel B. Green,2011-08-02 Since its publication in 2000 *Recovering the Scandal of the Cross* has provoked thought among evangelicals about the nature of the atonement and how it should be expressed in today s various global contexts In this second edition Green and Baker have clarified and enlarged the text to ensure its ongoing critical relevance **The Fall and Hypertime** Hud Hudson,2014-06-26 Frequently alleged irreconcilable conflicts between science and religion are instead misdescribed battles concerning negotiable philosophical assumptions conflicts between metaphysics and metaphysics Hud Hudson provides a two stage illustration of this claim with respect to the putative inconsistency between the doctrines of The Fall and Original Sin and the deliverances of contemporary science The tension in question emerges through a study of the many forms the religious doctrines have assumed over the centuries and through a review of some

well established scientific lessons on the origin and history of the universe and of human persons The first stage After surveying various paths of retreat which involve reinterpreting and impoverishing Original Sin and minimizing and dehistoricizing The Fall one version of moderate realism about the doctrines is articulated critically evaluated and found both consistent with contemporary science and suitable to play a crucial role in the theist's confrontation with the Problem of Evil The second stage Recent work in the philosophy of time and in the philosophy of religion provides intriguing support for a Hypertime Hypothesis a species of multiverse hypothesis distinctive for positing a series of successive hypertimes each of which hosts a spacetime block After arguing that the Hypertime Hypothesis is a genuine epistemic possibility and critically discussing its impact on a number of debates in metaphysics and philosophy of religion Hudson reveals a strategy for unabashed extreme literalism concerning The Fall and Original Sin which nevertheless has the extraordinary and delightful feature of being thoroughly consistent with the reigning scientific orthodoxy

Transforming Spirituality F. LeRon Shults, Steven J. Sandage, 2006-06-01 The twenty first century has given rise to a growing interest in the intersection of science religion and spirituality Few books address these issues from multiple perspectives and theories To fill this void F LeRon Shults and Steven Sandage coauthors of The Faces of Forgiveness winner of the Narramore Award from the Christian Association for Psychological Studies continue their interdisciplinary dialogue in their latest work Transforming Spirituality In this book Shults and Sandage address the subject of spiritual transformation through the lenses of psychology and theology In addition to college and seminary students Transforming Spirituality will appeal to readers interested in Christian spirituality What is more it provides helpful insights for counselors psychologists and others who work in the mental health field
