Politics Of The National Health Service:

The Politics of the National Health Service Rudolf Klein, 1983 *Creating the National Health Service* Marvin Rintala, 2003 The origins of the NHS are the subject of this study that presents evidence on the key players who participated in the founding of the system The author also traces those who opposed the NHS

The National Health Service Charles Webster, 2002 The foundation of the National Health Service on 5 July 1948 was a momentous development in the history of the United Kingdom Issues of health care touch the lives of everyone and the NHS has come to be regarded as the cornerstone of the welfare state and as a model for state organised health care systems elsewhere Yet throughout its history the Service has existed in an atmosphere of crisis Charles Webster's political history is an entirely new and original examination of the NHS from its inception through to its management under the first term of the current Labour government providing the necessary framework for assessing its future as we enter the new millennium

A National Health Service? John Mohan, 1995-03-20 This book contrasts the proposals of the Royal Commission of the late 1970s with the very different set of priorities enshrined in the 1989 White Paper and describes how the changes between the two documents came about It argues that the NHS reforms should be seen not as the inevitable product of technical developments nor as a consensus response to narrowly managerial difficulties within the NHS but rather as part of a wider political strategy towards state provision of welfare The book strongly emphasises the uneven geographical impacts of post 1979 changes a topic usually underplayed by analysts of social policy and draws heavily on previously unpublished material

Science, Politics and the Public Good Nicolaas A. Rupke, 1988-06-18 An exploration of the relationship between scientific ideas technology government and politics demonstrated by examples from the last 150 years including the birth of the NHS the Channel Tunnel radiation protection the atomic bomb and power and nuclear power in the US and USSR

Power, Politics, and Universal Health Care Stuart Altman, 2011-09-27 Essential reading for every American who must navigate the US health care system Why was the Obama health plan so controversial and difficult to understand In this readable entertaining and substantive book Stuart Altman internationally recognized expert in health policy and adviser to five US presidents and fellow health care specialist David Shactman explain not only the Obama health plan but also many of the intriguing stories in the hundred year saga leading up to the landmark 2010 legislation Blending political intrigue policy substance and good old fashioned storytelling this is the first book to place the Obama health plan within a historical perspective The authors describe the sometimes haphazard piece by piece construction of the nation s health care system from the early efforts of Franklin Roosevelt and Harry Truman to the later additions of Ronald Reagan and George W Bush In each case they examine the factors that led to success or failure often by illuminating little known political maneuvers that brought about immense shifts in policy or thwarted herculean efforts at reform The authors look at key moments in health care history the Hill Burton Act in 1946 in which one determined poverty lawyer secured the rights of the uninsured poor to get hospital care the three layer cake strategy of powerful House Ways and Means Committee Chairman Wilbur Mills to enact Medicare and Medicaid under Lyndon Johnson in 1965 the odd story of how Medicare catastrophic insurance was passed by Ronald Reagan in 1988 and then repealed because of public anger in 1989 and the fact that the largest and most expensive expansion of Medicare was enacted by George W Bush in 2003 President Barack Obama is the protagonist in the climactic chapter learning from the successes and failures chronicled throughout the narrative The authors relate how in the midst of a worldwide financial meltdown Obama overcame seemingly impossible obstacles to accomplish what other presidents had tried and failed to achieve for nearly one hundred years **The New Politics of the National Health**

Service Rudolf Klein, 2001-01 Suitable for students of Social policy Health policy Public policy and Nursing as well as health care professionals This exciting new book covers the political history of the NHS from 1948 to the present day It traces the way in which successive governments have tried to deal with problems of a centralised health care system specifically the tensions between central control and local responsiveness and between managerial influence and medical autonomy In doing so it examines the role of different actors in the health care policy arena political parties professions consumers and interest groups *Monthly Catalog of United States Government Publications* United States. Documents,1976 The political economy of health care Tudor Hart, Julian,2010-09-01 With a foreword by Tony Benn Drawing on clinical experience dating from the birth of the NHS in 1948 Julian Tudor Hart a politically active GP in a Welsh coal mining community charts the progress of the NHS from its 19th century origins in workers mutual aid societies to its current forced return to the market His starting point is a detailed analysis of how clinical decisions are made He explores the changing social relationships in the NHS as a gift economy how these may be affected by reducing care to commodity status and the new directions they might take if the NHS resumed progress independently from the market This edition of this bestselling book has been entirely rewritten with two new chapters and includes new material on resistance to that world wide process The essential principle in the book is that patients need to develop as active citizens and co producers of health gain in a humanising society and the author s aim is to promote it wherever people recognise that pursuit of profit may be a brake on rational progress **U.S. Government Purchasing, Specifications, and Sales Directory** United States.
