## **Rediscovering Hope Our Greatest Teaching Strategy:**

Rediscovering Hope Richard L. Curwin,1992-01-01 Provides strategies for teacher to create an atmosphere of hope and success in the classroom      **Discipline With Dignity for Challenging Youth** Richard Curwin,Allen Mendler,2004-01-01 Create positive change in your most challenging students with the help of practical strategies found in this resource Learn the five fundamental principles and seven goals that are the foundation of all effective discipline strategies The authors share proven practices for classroom discipline reveal reasons why students misbehave and offer 21 effective drug free ways to help students with ADHD      Creating a Democratic Climate for Kids Mary Lou McCormick,2020-10-28 The principles of democracy freedom and the rights of individuals are taught from textbooks but the principles of autocracy and dictatorship are still practiced in most schools and homes It is no wonder our children feel unsettled defiant and even outright rebellious Many of our young people are growing up ignorant of and uncommitted to the great principles upon which our nation was founded The way to make children committed to our democratic way of life is to make them full participants in it This new guide is provided to assist educators and parents in making our schools and homes models of democracy giving our kids the freedom of choice and bestowing on them the basic rights of citizenship Parents and educators must unite as democratic leaders to guide coach and stimulate our young people to assume responsibility for themselves The future of our nation may depend on it      Character Matters Thomas Lickona,2004-02-10 In Why Character Matters a leader in the character education movement and author of the landmark book Educating for Character Lickona now lays out 100 specific strategies that will help parents as well as teachers instill children with the values that will help them lead good and successful lives      Meeting Students Where They Live Richard L. Curwin,2010-04-15 Motivation and hope are two items in short supply in many urban schools But it doesn't have to be that way according to Richard L Curwin Based on input from teachers across the United States and on his own personal experiences Curwin offers suggestions that every school can use to keep students in the classroom and looking toward a brighter future In Meeting Students Where They Live Curwin urges teachers and administrators in urban schools to move away from a focus on control uniformity lack of tolerance and ironclad rules toward an approach based on compassion understanding tolerance and safety for all Each chapter examines problems common to urban schools and offers comprehensive long reaching remedies plus concrete strategies for engaging troubled and hard to reach youth Meeting Students Where They Live explores ways to Welcome all students Build lessons that involve and engage Stay motivated and energized Design assignments that students will actually do and Use evaluation to encourage and build learning rather than defeat it Meeting Students Where They Live also includes classroom activity sheets submitted by teachers working in a variety of urban environments from inner city schools to a detention center      **Discipline with Dignity** Richard L. Curwin,Allen N. Mendler,Brian D. Mendler,2018-04-16 In this revised and updated 4th edition Discipline with Dignity provides in depth guidance for implementing a proven approach to classroom management that can help

Hall-Rayford, 2012-09-10 Everyone knows by now or least thinks they know that a majority of students especially inner city students fall short on standardized tests in most public schools Media reports as well as government entities always infer that the fault of low student performance falls on the shoulders of the teachers Really Teachers have no control over the environment in which a child is raised Teachers have no control over whether parents read or do not read to their children Teachers have no control over district policies that do not add up to real school reform Teachers have no control over legislators who care more about politics than educating children So how is it that it is always the teachers fault that students do not perform well Student performance in schools excel when parents are actively engaged in creating and maintaining an environment that is conducive to learning raising children who are respectful and responsible getting involved in the business of learning in the schools with the local school board and in electing officials responsible for legislation regarding education Handbook of Psychosocial Characteristics of Exceptional Children Vicki L.
