Reducing Poverty An Institutional Perspective:

Reducing Poverty Lawrence F. Salmen,1992 *Business, Entrepreneurship and Innovation Toward Poverty Reduction*
Steven Si,David Ahlstrom,Wei Jiang,John Cullen,2021-07-26 Ways in which poverty can be reduced in both countries and regions through business entrepreneurship and government has been a hot issue for researchers and policymakers in recent years Governments can play an important role in helping the poor people by non profit organizations and others that help to seed business among the poor Businesses increasingly also see the large number of people in severe poverty not only as an issue for social concern but also as a potentially large untapped market of consumers for goods and services Some scholars have called for poverty reduction through entrepreneurship owing to the fact that it can be an efficient path to also change the poor s attitudes and behaviours from a passive mode to a more active mode towards poverty reduction economically and socially In addition the sharing economy brings opportunities where everyone is a micro entrepreneur There is a recognition that these types of entrepreneurship above could offer the greatest single potential means to move individuals out of poverty in the nations and regions in the next 5 10 years This book provides new and valuable analyses of poverty and business entrepreneurship and innovation in current nations and regions including developing and developed countries As business entrepreneurship and innovation can help to generate greater business activity in settings of severe poverty they will help to solve poverty as individuals in severe poverty are able to both generate greater incomes and accumulate greater assets as they participate with large firms in those activities The chapters in this book were originally published as a special issue of the *Entrepreneurship Regional Development* Institutional Development Ronald McGill,2016-07-27 This book reviews the theoretical perspectives on institutional development ID and third world city management It considers the practice of ID in city management by reviewing two related cases on organizational strengthening and building a planning capability both in local government The synthesizing chapters offer some guidelines on and tests for ID in city management practice The book therefore seeks to identify some general principles to guide the ID process in relation to third world city management

Policy Reform for Sustainable Development in the Caribbean Michele Garrity,Louis A. Picard,1996 The Caribbean countries and many other Third World countries in Latin America Asia and Africa have been under the yoke of structural adjustment measures for more than a decade Numerous studies have addressed the inequality of North South relations the lack of transparency in negotiations that have led to the signature of agreements the absence of a clear definition of responsibilities of the parties engaged the inadequacy and inadaptation of policies with regard to the socio cultural context and especially the refusal to take into account the social demands of the most deprived The criticisms formulated in this book can only find a beginning of solutions by the setting up of a solid administrative organization in which the public officials are made accountable and who once aware of the national and international stakes can confront the constraints involved in State international negotiation relations The book is a very rich presentation of the concept and the problems of structural adjustment and institutional development in the developing countries Beside the impressive introduction and the convincing conclusion the articles on these prerequisites for institutional sustainability present the most important empirical research results The contents is a clear description of problems failures and results in institutional reforms

Institutional Analysis and Economic Policy
Marc R. Tool, Paul Dale Bush, 2012-12-06 The purpose of this volume is to demonstrate how contemporary institutional economic analysis can be applied to the resolution of economic problems All of the essays in this book challenge the conventional wisdom in the problem areas addressed They advocate policy positions that often run contrary to views widely held by academic economists and policy makers alike The general literature of institutional economics is unorthodox beginning with its methodological foundations and continuing through the kind of policy analysis found in these pages The orthodox tradition in economics is commonly characterized as neoclassical economics Neoclassical economics fosters the myth that only the market can efficiently allocate a society s economic resources and equitably distribute its income It provides the intellectual defense for in which free markets are championed over democratic capitalist ideology policy formation which it contends is neither efficient nor equitable For both professional economists and policy makers of a conservative political persuasion neoclassical economics writes the script for a morality play in which the market is the good guy and the government is the bad guy As such it undermines the belief that free societies can enhance economic welfare through the use of democratic processes in the formulation of economic policies

Integrated Assessment of Scale Impacts of Watershed Intervention
V. Ratna Reddy, Geoffrey J. Syme, 2014-10-06 Integrated Assessment of Scale Impacts of Watershed Interventions is the outcome of a multi disciplinary research team of social scientists hydrologists groundwater and surface water modellers and bio physical scientists who have worked together over five years to develop an integrated model of the sustainability of biophysical economic and social impacts of watersheds Impacts of watershed interventions are

assessed at upstream mid stream and downstream locations of two hydrological units that are characterised with differential bio physical attributes The editors propose that watershed interventions when integrated with hydro geology and bio physical aspects have greater influence on the resilience of the socio ecological system This book takes these aspects in to consideration and in the process provides insights in to watershed design and implementation Integrates hydrogeology bio physical and socioeconomic aspects of watersheds in a hydrological context Provides a comprehensive understanding of the impacts of watershed interventions Assesses the role of watershed interventions in enhancing household resilience Provides hydrological and socio economic methodologies for design of sustainable watershed interventions including scale and institutional arrangements for implementing and sustaining watershed interventions **Comparative Development**

Perspectives Gustav Ranis,2019-03-08 This book provides comparative perspectives on problems of economic development in the 1980s It emphasizes improvements in economic institutions and policies associated with the development process and employs the comparative historical approach to evaluate dimensions of the development process *Communities and Organizations* Chris Marquis,Michael Lounsbury,Royston Greenwood,2011-11-23 Considers how diverse types of communities influence organizations as well as the associated benefit of developing an accounting for community processes in organizational theory This title focuses on social proximity and networks that has characterized the work on communities
