Halbband Haspelmath Martin, 2008-07-14 No detailed description available for HASPELMATH ET AL LANG TYPOLOGY 1 TLBD HSK 20 1 E BOOK *Language Typology and Language Universals* Martin Haspelmath, 2001 This series of HANDBOOKS OF LINGUISTICS AND COMMUNICATION SCIENCE is designed to illuminate a field which not only includes general linguistics and the study of linguistics as applied to specific languages but also covers those more recent areas which have developed from the increasing body of research into the manifold forms of communicative action and interaction For classic linguistics there appears to be a need for a review of the state of the art which will provide a reference base for the rapid advances in research undertaken from a variety of theoretical standpoints while in the more recent branches of communication science the handbooks will give researchers both an overview and orientation To attain these objectives the series will aim for a standard comparable to that of the leading handbooks in other disciplines and to this end will strive for comprehensiveness theoretical explicitness reliable documentation of data and findings and up to date methodology The editors both of the series and of the individual volumes and the individual contributors are committed to this aim The languages of publication are English German and French The main aim of the series is to provide an appropriate account of the state of the art in the various areas of linguistics and communication science covered by each of the various handbooks however no inflexible pre set limits will be imposed on the scope of each volume The series is open ended and can thus take account of further developments in the field This conception coupled with the necessity of allowing adequate time for each volume to be prepared with the necessary care means that there is no set time table for the publication of the whole series Each volume will be a self contained work complete in itself The order in which the handbooks are published does not imply any rank ordering but is determined by the way in which the series is organized the editor of the whole series enlist a competent editor for each individual volume Once the principal editor for a volume has been found he or she then has a completely free hand in the choice of co editors and contributors The editors plan each volume independently of the others being governed only by general formal principles The series editor only intervenes where questions of delineation between individual volumes are concerned It is felt that this *modus operandi* is best suited to achieving the objectives of the series namely to give a competent account of the present state of knowledge and of the perception of the problems in the area covered by each volume **Lexical Plurals** Paolo Acquaviva, 2008-03-06 This book explores the wide variety of cases in which the plural of nouns is lexical When a plural is lexicalized it becomes part of what it is to know a certain word piece for

example is lexical because it means a plurality of a certain kind a multiple value not a set of physical objects like pennies and knowing this reading is knowing the word Languages exhibit countless examples of similar word dependent irregularities in the form and meaning of plural but these have never been analyzed in depth from a unified perspective Dr Acquaviva aims to do just that using analytic tools from formal semantics and theoretical morphology to shed light on the relation between grammar and the lexicon After an introduction setting out his approach he divides the book into two parts The first gives a structured description of the ways plurality can be lexicalized with an emphasis on description and categorization The second analyzes in depth different types of lexical plurals in Italian Irish Arabic and Breton A final chapter spells out the theoretical consequences for the analysis of the lexicon The book is unusual in combining a broad typological classification with a unified morphological and semantic analysis based on a formal framework
