Reference Realist In Library Academia:

The Reference Realist in Library Academia Patricia Gebhard, 1997-01-01 Part I examines direct assistance in the library Part II covers support for the reference desk such as alternative provisions of service and reference manuals In Part III collection activities instruction publications exhibits and other reference activities are explored Part IV takes a close look at departmental and library responsibilities Unobtrusive Evaluation of Reference Service and Individual Responsibility Juris Dilevko, 2000-09-30 Many reference librarians have been highly critical about unobtrusive evaluation studies But can their opposition be justified Or is it just a way to detract attention from serious shortcomings in reference service How can government documents reference service and reference service in general be improved Do librarians have enough general and subject specific knowledge to provide informed and intelligent answers to reference questions Would any business or non profit organization be satisfied with the traditional 55 percent efficacy rate in reference service revealed by unobtrusive evaluation studies Long a controversial topic in the specialized world of reference librarianship unobtrusive evaluation is nevertheless a useful tool in gauging the degree to which reference librarians are effectively performing their jobs Based on a nationwide study of government documents reference service in Canada this book examines the broad philosophical implications of negative attitudes to unobtrusive evaluation studies within libraries It also discusses what really happens when librarians make referrals to external sources Drawing on the insights of such library educators as Margaret Hutchins S R Ranganathan and James Wyer it also suggests overlooked ways that may help reference librarians deliver better reference service Finally it argues that such proposals as certification and recertification of reference librarians need to be seriously considered if librarians do not willingly take personal responsibility for improving their own knowledge levels **The Elements of Inquiry** Peter J. Burke, Sara Jimenez Soffa, 2018-03-23 *The Elements of Inquiry* covers the basic guidelines for graduate students doing an investigation or inquiry project It distills the rubrics necessary for teaching research methods and completing research projects and gives the student researcher a list of steps to follow to complete any type of inquiry project including formal research projects such as doctoral dissertations It was written to support the work of students in an educational leadership doctoral program but it will also assist the research efforts of college students at any level in any discipline The book begins by establishing the underlying philosophical concepts upon which all good research is based preparing students to get down to the nuts and bolts of conducting their own research and evaluating the research of others Fundamental concepts and rules of research are explained both for producers and consumers of social science and educational research Numerous practical examples illustrate the steps in the research process presented in the text There are end of chapter exercises for students to apply the concepts discussed in the chapter Templates for organizing and presenting research provide students with a game plan for success with their research The book ends with an up to date annotated bibliography of beginning and advanced research texts allowing students easy access to books that detail the more

specialized research topics While most research books detail one or more method in depth this text provides a broad introduction to many techniques and models used in doctoral dissertations and will be of particular value to those who are consumers of inquiry studies and research reports Key to the overview provided is the annotated bibliography that leads the reader to the next stage of understanding or doing research

Academic Libraries in Urban and Metropolitan Areas Gerard B. McCabe,1991-11-26 Solutions to the unique problems of academic libraries in urban and metropolitan areas are provided in this professional handbook Issues faced by the administrators of these libraries can differ markedly from those encountered by their counterparts in residential college towns with service demands emanating from both the surrounding community and their own academic community Written by experienced urban university librarians each chapter addresses issues unique to the in city academic library Reaching out to their communities to establish links with business industry and other libraries the administrators of the urban metropolitan libraries require a great degree of diplomacy and management skills Service demands arising from urban high schools place additional pressures on limited resources This handbook shows how the use of new technologies can assist the urban academic librarian in fashioning services for a nonresident faculty as well as a usually older student body comprised of many international and part time students The characteristics of city living and their impact on information seeking behavior are discussed Other topics covered are resource sharing setting fees staff and collection security environmental pollution and space requirements

Elements of Inquiry Peter J Burke,2016-09-15 Fundamental concepts and rules of research are explained for both consumers and producers of research reports The philosophical basis of research is examined and set forth as the foundation of a formal method of inquiry Clearly presents guidelines for research and demonstrates their use in the design and improvement of programs Provides guidance on what one should do as well as on what one should not to do in conducting research Numerous practical examples amply demonstrate the principles presented in this book End of chapter exercises provide an opportunity to apply the constructs discussed in the chapters An Instructor s Guide is included with your examination copy Table of Contents Part I The Beginning Chapter 1 Research As Inquiry Chapter 2 Consuming Research Part II The Rules Chapter 3 The Theoretical Basis of Research Chapter 4 The Purpose of the Study Chapter 5 The Design of the Study Chapter 6 Know the Evidence Chapter 7 Know the Evidence Source Chapter 8 Gather the Evidence Chapter 9 Review the Evidence Chapter 10 Display the Findings Chapter 11 Answer the Question Chapter 12 Determine Closure Part III Resources Chapter 13 Research in Action Chapter 14 Annotated Bibliography Glossary Composite Bibliography Subject Index Appendix
