pedagogic level Contemporary Task Based Language Teaching in Asia looks at the drivers stakeholders and obstacles across the region Some countries have adapted TBLT to deal with the local constraints others have found it hard to apply and many are still in the process of investigating its implementation in their specific contexts This collection is important to all involved in language development from curriculum reform to materials development It assists from programme evaluation to the setting of assessment standards The chapters cover all aspects of language education across Asia from primary to tertiary private and public education as well as innovations at local regional and national levels Water Rescue: Principles and Practice to NFPA 1006 and 1670: Surface, Swiftwater, Dive, Ice, Surf, and Flood Steve Treinish, 2017-11-21 Water Rescue Principles and Practice to NFPA 1006 and 1670 Surface Swiftwater Dive Ice Surf and Flood Second Edition Includes Navigate 2 Advantage is a complete resource for water rescue personnel and their organizations All six sub disciplines are broken down into Awareness Operations and Technician level chapters to better help you and your organization train to the levels your organization is ready to deliver in your response area Based on the 2017 Editions of NFPA 1006 Standard for Technical Rescue Personnel Professional Qualifications and NFPA 1670 Standard on Operations and Training for Technical Search and Rescue Incidents this single textbook is the most current and comprehensive water rescue textbook available

Examining AI Disruption in Educational Settings: Challenges and Opportunities Kessinger, Michael W., Nelson, Gera S., Lennex, Lesia, Nettleton, Kimberly Fletcher, 2025-05-21 The role of AI in education is slowly growing As a new technology its uses and capabilities have not been fully realized or understood AI provides many opportunities as well as challenges for supporting students teachers and skills development However from higher education faculty to preschool teachers the ways in which AI can support planning research and student learning are not fully understood When harnessed effectively AI has important implications for overcoming global concerns and increasing educational equality Examining AI Disruption in Educational Settings Challenges and Opportunities provides practical researched examples of how AI has been applied in educational settings It examines current AI policies and considers the ways in which education may change with the use of AI Covering topics such as field experience preparation critical thinking skills and global education patterns this book is an excellent resource for pre service teachers in service teachers higher education faculty technologists professionals researchers scholars academicians and more **Digital Library Use** Ann Peterson-Kemp, Nancy A. Van House, Barbara P. Battenfield, 2003-10-10 Viewing digital libraries as sociotechnical systems networks of people and technology interacting with society The contributors to this volume view digital libraries DLs from a social as well as technological perspective They see DLs as sociotechnical systems networks of technology information artifacts and people and practices interacting with the larger world of work and society As Bruce Schatz observes in his foreword for a digital library to be useful the users the documents and the information system must be in harmony The contributors begin by asking how we evaluate DLs how we can understand them in order to build better DLs but they move beyond these basic concerns to explore how DLs make a

difference in people's lives and their social worlds and what studying DLs might tell us about information knowledge and social and cognitive processes The chapters using both empirical and analytical methods examine the social impact of DLs and also the web of social and material relations in which DLs are embedded these far ranging social worlds include such disparate groups as community activists environmental researchers middle school children and computer system designers Topics Documents and society the real boundaries of a library without walls the ecologies of digital libraries usability and evaluation information and institutional change transparency as a product of the convergence of social practices and information artifacts and collaborative knowledge construction in digital libraries *Human Resources Administration*
