Fieldwork in Geography: Reflections, Perspectives and Actions Rod Gerber,Goh Kim Chuan,2013-03-14

Geographers regard fieldwork as a vital instrument for understanding our world through direct experience for gathering basic data about this world and as a fundamental method for enacting geographical education The range of international geography and educational experts who contributed to this volume has demonstrated that the concept of fieldwork has a considerable history in the field of geography They have demonstrated that the theoretical aspects of fieldwork have been interpreted differently in regions around the world but the importance of fieldwork remains strong globally A fresh look at the pedagogic implications for fieldwork in formal education offers ideas both for promoting it in geographical education and for maintaining its place in the geography curriculum Audience Forward looking geographers and educators now recognise that alternative strategies especially those involving the use of information technology should be developed to reaffirm the

centrality of fieldwork in geographical and wider education Achieving Quality Learning in Higher Education Peggy Nightingale, Mike O'Neil, 2012-12-06 This study argues that there is little hope of maintaining quality in higher and further education unless those in academia share common goals It demonstrates how results can be achieved if the principles of high quality learning are applied along with total quality management type strategies **Applications of Work Integrated Learning Among Gen Z and Y Students** Gerhardt, Trevor, Annon, Paulette J., 2021-04-02 It has become evident within higher education and within or in partnership with the workplace that there is a growing demand for an integration of learning within the workplace Formal and intentional models and processes utilizing experiential learning methods and pedagogy are often referred to as work integrated learning However there is a vast cross conceptualization evident within the field between concepts such as work related learning WRL workplace learning WPL work based learning WBL work integrated learning WIL and experiential learning EL Furthermore there are vast differences between different applications such as apprenticeships higher degree apprenticeships HDA co operative education Coop internships placements projects sandwich courses practicums and more There is a new focus on the impact of WIL on the future labor force specifically of generations Z and Y Applications of Work Integrated Learning Among Gen Z and Y Students presents educational and theoretical concepts related to WIL and Gen Z and Y students as a workforce The chapters include coverage not only on these concepts but in depth research on the implications of WIL on these generations educational themes in WIL and WIL innovation The topic of WIL and all its applications are covered in a global context and for all fields of work focusing on the skills and expertise gained from the students of work based learning along with insights on how work based learning is implemented by teachers and educational administrations This book is a valuable reference tool for in service and preservice teachers administrators teacher educators human resources and career development management practitioners stakeholders researchers academicians and students interested in insight theory and practical examples of WIL from around the world and the impact these have within the workplace as related to generations Y and Z **The Michigan Affirmative Action Cases** Barbara Ann Perry, 2007 A compelling look at the two closely linked and controversial 2003 Supreme Court decisions that revisited the practice and constitutionality of affirmative action at the college level The result was a divided opinion that neither completely repudiated affirmative action nor completely condoned its practice **Cross-Disciplinary Approaches to Action Research and Action Learning** Mapotse, Tome Awshar, 2017-07-31 The complexity of 21st century lifestyle makes collaborative research and learning essential for all of the population both in well resourced and socio economically challenged regions Cross Disciplinary Approaches to Action Research and Action Learning is an advanced reference source including the latest scholarly research on the examination of the development of a community practice of research in order to improve problem solving in various fields Featuring extensive coverage on a broad range of topics such as social justice organizational development and global economy this publication is ideally designed for academics researchers scholars and

managers seeking current research on the promotion of collaborative research and learning *Wisdom Learning* Wendelin Küpers, Olen Gunnlaugson, 2016-12-01 In traditional business circles wisdom is viewed with a certain scepticism which is in part due to its historical associations with wisdom traditions and spiritual cultures However in business today wisdom is emerging not only as a viable but also a necessary organizational and management practice In particular practical wisdom is being updated and retranslated for today's issues and concerns in organizations In recent years leadership and organizational studies have initiated important changes in the way in which business as usual is conducted In response to the increasingly complex and uncertain conditions of our international business environment a growing community of scholar practitioners are pushing the boundaries of traditional organizational and leadership thinking and acting making inroads into processes and applications of practical wisdom and ways of wise leading and managing Given the unprecedented levels of challenges dynamics and uncertainties that today's organizations are exposed to there is a need for a more integrative and sustainable approach to managing Following the need for a reconsideration and revival of the meaning of wisdom the editors explore vitalizing possibilities for the learning of wise practices in organizing and leading This expansive range of domains where wisdom is currently being explored suggests a promising number of perspectives and possibilities for future inquiries and explorations into the nexus of wisdom and organization leadership management education and learning that benefits from cross disciplinary synergies This book will be of interest to those seeking to understand the growing significance of wisdom in relation to learning and teaching especially in business and management education **Living Word 2021-2022**
