Shadow in the Reflection Joe Niehaus, Mary Sikora, 2012-05 Can destiny be fulfilled in just one lifetime Dr Gregory Ambrose thinks so Through past life regression therapy with a young woman named Anne he finds himself carried over the centuries to not only a different time but a different reality Anne's memories act like tendrils drawing Ambrose into this most savage time with her Frustrated and confused Dr Ambrose reaches out to a colleague for help During their conversations he learns that one of this doctor's past life regression patients believes that he was some kind of Viking in another time not unlike the Vikings in Anne's memories The coincidence is too much and Ambrose's imagination and ambition tempt him down a dangerous path Determined to know the truth and understand the connection he begins to push the limits of his ethics What evolves is a story from another time when wizards and warriors battle for power The fate of two lands one fighting for unity the other for safety hangs in the balance as two druids play out their own endgame strategies At the same time two hearts seek their destiny with true love Fate lends a hand as all meet in a final battle Is it truly the end or just the beginning

this conference series served as a forum for getting together scientists from East and West Europe. Nowadays CAIP enjoys a high international visibility and attracts participants from all over the world. For CAIP 2009 we received a record number of 405 submissions. All papers were reviewed by two and in most cases three reviewers. Finally 148 papers were selected for presentation at the conference resulting in an acceptance rate of 36%. All Program Committee members and additional reviewers listed here deserve a great thanks for their timely and competent reviews. The accepted papers were presented either as oral presentations or posters in a single track program. In addition we were very happy to have Aljoscha Smolic and David G. Stork as our invited speakers to present their work in two fascinating areas. With this scientific program we hope to continue the tradition of CAIP in providing a forum for scientific exchange at a high quality level. A successful conference like CAIP 2009 would not be possible without the support of many institutions and people. First of all we like to thank all the authors of submitted papers and the invited speakers for their contributions. The Steering Committee members were always there when advice was needed.

Modern Painters: Of general principles and of truth John Ruskin, 1903 *Shadows of Being* Marko Uršič, 2019-01-15

This book is a study of the phenomena of shadows meant in a broader sense as symbolic forms. The shadow is a less real surface replica of some more real form. From the Platonic point of view empirical objects are shadows of ideas while from the modern natural point of view shadows are seen and conceived primarily as weaker replicas of bodies which give evidence of their material reality. In the first three essays here several topics from the Ancient Egypt and Greece to modern arts and sciences are considered while in the fourth essay the contemporary virtual reality, cyber technology and the internet as our parallel shadow world are discussed from the philosophical point of view. The main and innovative point of this book is the connection between the meaning of shadows in philosophy and art on the one hand and their role in modern science and technology on the other. The book will appeal to a wide span of readers from academic circles, students and artists to the general reader interested in the humanities especially in philosophy and art.
