Reflections On The Death Of A Porcupine:

Reflections on the Death of a Porcupine and Other Essays David Herbert Lawrence, 1925 **Reflections on the Death of a Porcupine** David Herbert Lawrence, 1975 Reflections on the Death of a Porcupine and Other Essays D. H. Lawrence, 1988-01-29 This volume contains what Lawrence himself called philosophicalish essays written in the decade 1915-25. The topics range from politics to nature from religion to education the tone from lighthearted humor to mordant wit to spiritual meditation. For all these contrasts however the essays share many of the underlying themes of the mature Lawrence. Be thyself could be the volume's motto. As far as possible this edition restores what Lawrence wrote before typists, editors, and compositors made the extensive alterations that have been followed in all previous editions of the texts; on occasion entire passages removed by mistake or for reasons of censorship have been recovered. The introduction describes the genesis, textual history, and reception of the essays; notes offer help with allusions and other difficult points. Several incomplete and unpublished essays are reproduced in an appendix.

Reflections on the Death of a Porcupine and Other Essays D. H. Lawrence, 1988 **Reflection on the Death of a Porcupine** D. H. Lawrence, 2019-02-20 This collection of essays by the author of *Lady Chatterley's Lover* presents his musings on literature, politics, and philosophy in a newly restored text. Though D. H. Lawrence was one of the great writers of the twentieth century, his works were severely corrupted by the stringent house styling of printers and the intrusive editing of timid publishers. A team of scholars at Cambridge University Press has worked for more than thirty years to restore the definitive texts of D. H. Lawrence in *The Cambridge Editions*. Between 1915-1925 D. H. Lawrence wrote a series of philosophicalish essays covering topics ranging from politics to nature and from religion to education. Varying in tone from lighthearted humor to spiritual meditation, they all share the underlying themes of Lawrence's mature work. Be thyself. As far as possible, the editors of the *Cambridge Editions* series have restored these essays to their original form as Lawrence wrote them. A discussion of the history of each essay is provided, and several incomplete and unpublished essays are reproduced in an appendix.

Lawrence** Bethan Jones,2016-03-03 In the first book to take D H Lawrence s Last Poems as its starting point Bethan Jones adopts a broadly intertextual approach to explore key aspects of Lawrence s late style The evolution and meaning of the poems are considered in relation to Lawrence s prose works of this period including Sketches of Etruscan Places Lady Chatterley s Lover and Apocalypse More broadly Jones shows that Lawrence s late works are products of a complex process of textual assimilation as she uncovers the importance of Lawrence s reading in mythology cosmology primitivism mysticism astronomy and astrology The result is a book that highlights the richness and diversity of his poetic output also prioritizing the masterpieces of Lawrence s mature style which are as accomplished as anything produced by his Modernist contemporaries **D.H. Lawrence's Final Fictions** Ben Stoltzfus,2024-04-08 D H Lawrence s Final Fictions A Lacanian Perspective explores how literature thinks more specifically how the reading of fiction influences behavior Lawrence writes passionately about our alienation from ourselves from other people and from the cosmos He believes that we need to heed the voices of our unconscious and he shows us how to meld body and mind so that psychoanalytically speaking Id and Ego can come together In this endeavor there is a salient convergence between Lawrence s writings and those of Jacques Lacan the French psychoanalyst In this book Stoltzfus examines the poetics of seven major fictions that Lawrence wrote between 1925 and 1930 five productive years that are

referred to as his fabulation period In each of the book's seven chapters in tandem with Lacan's writings Stoltzfus analyzes seven major characters four of whom move from alienation to the renewal of self and the cosmos He argues that Lawrence's fiction is simultaneously descriptive and prescriptive by showing us how to circumvent dysfunction Stoltzfus brings literature and psychoanalysis together in readings that are both aesthetic and epistemological They are recipes for curing the

Examines the role of musical figures within late modernism presenting a new understanding of the politics and aesthetics of lateness D.H. Lawrence Dolores LaChapelle, 1996 This book will change the way you think about D H Lawrence Critics have tried to define him as a Georgian poet an imagist a vitalist a follower of the French symbolists a romantic or a transcendentalist but none of the usual labels fit The same theme runs through all his work beginning with his very first novel *The White Peacock* and ending with the last line of his final book *Apocalypse* Always it is nature He said this over and over again and no one especially those who feared the old ways of harmonious and balanced living on the earth understood him **Julian Huxley, Evolutionism and the History of Transhumanism** Ingrid Dunér, 2025-03-18 The evolutionary biologist Julian Huxley 1887 1975 attempted to promote a religion for the future which he would come to refer to as Transhumanism Transhumanism was an attempt to unite a more traditional humanistic view of the human as containing some form of core essence or potential with an evolutionary point of view of humans as a work in progress Before humans natural selection had been responsible for the transformation of life Through its ordering principles and through chance it had given rise to humankind which had ushered in a new phase of evolution Humanity stood on the threshold of yet another critical point in evolution The consciously purposive phase of evolution This open access book explores the history of transhumanism by analyzing how Julian Huxley's transhumanism develops and why it does at this particular point in time by placing it firmly within the context of his specific scientific and sociopolitical milieu starting roughly in the interwar years and stretching over the Second World War to the 1970s Continuing the study then focuses on the new transhumanists of the 1970s 1980s and 1990s and investigates continuity in mode of thinking contributing to a more coherent understanding of transhumanism its history and of modern projects of human enhancement The book captures how scientific and technological development in relation to society and social order shapes images and expectations of the future and of what future is desirable
