[The Reorganisation of British Local Government](#) John Dearlove, 1979-09-20 This volume was first published in 1979 just a few years after the Local Government Act of 1972 redrew the map of British local government Local authorities were also encouraged to change their organization and methods of work anxiety was expressed about finance councillor calibre and the credibility of the whole system itself and neighbourhood councils and public participation in planning were introduced John Dearlove's aim is to make sense of these changes and the discussion they generated He does this by showing that both the official case for reorganization and the academic discussion of it have hindered their own understanding by uncritically accepting superficial traditional wisdoms which fail to reveal the concealed ideological positions behind reorganization Thus he aims to develop a truly political perspective on reorganisation which is rounded out and given greater depth by the insertion at appropriate points of comparative material drawn from American experience and studies

British Political Facts David Butler, Anne Sloman, 1969-09-01 [Local government finance](#) Great Britain: Parliament: House of Commons: Communities and Local Government Committee, 2007-09-13 Attitudes towards the council tax are influenced by views as to its fairness with one of the concerns being that it does not take sufficient account of a household's income Council tax relief enables the liability of some households to be reduced Although

it is not a benefit it is called a benefit and in many ways operates like a benefit People only receive it if they make a claim and as a result there is an estimates 1 8 billion unclaimed each year The Committee believe that there are two main weaknesses in the operation of the current system Firstly the rules of eligibility are too tightly drawn to adequately reduce the burden to those in greatest need Secondly the take up is low They call on the Government to take urgent actions to tackle these problems

The New British Constitution Vernon Bogdanor,2009-06-03 The last decade has seen radical changes in the way we are governed Reforms such as the Human Rights Act and devolution have led to the replacement of one constitutional order by another This book is the first to describe and analyse Britain s new constitution asking why it was that the old system seemingly hallowed by time came under challenge and why it is being replaced The Human Rights Act and the devolution legislation have the character of fundamental law They in practice limit the rights of Westminster as a sovereign parliament and establish a constitution which is quasi federal in nature The old constitution emphasised the sovereignty of Parliament The new constitution by contrast emphasises the separation of powers both territorially and at the centre of government The aim of constitutional reformers has been to improve the quality of government But the main weakness of the new constitution is that it does little to secure more popular involvement in politics We are in the process of becoming a constitutional state but not a popular constitutional state The next phase of constitutional reform therefore is likely to involve the creation of new forms of democratic engagement so that our constitutional forms come to be more congruent with the social and political forces of the age The end point of this piecemeal process might well be a fully codified or written constitution which declares that power stems not from the Queen in Parliament but instead as in so many constitutions from We the People The old British constitution was analysed by Bagehot and Dicey In this book Vernon Bogdanor charts the significance of what is coming to replace it The expenses scandal shows up grave defects in the British constitution Vernon Bogdanor shows how the constitution can be reformed and the political system opened up in *The New British Constitution*

The Determinants and Efficiency of Local Authority Spending in England Mr.Tamim Bayoumi,Mr.James P. F.

Gordon,1991-01-01 This paper analyzes the efficiency and determinants of local authority expenditure in England during 1989 90 The capitalization of local spending in house prices is used as a test of efficiency and it is found that local services are in general excessive from this standpoint The determinants of local government spending are then estimated and local incomes the tax price faced by the electorate and local party control are found to be significant Application of the analysis to the recently introduced local government reforms suggest small effects on the overall level of spending

and early eighties was the undermining and then the end of the post war British consensus That consensus had been long in decline before the final seals were set by Mrs Thatcher s victories in 1979 and 1983 The consensus and the end itself had profound effects on the British polity they unsettled the distribution of power within the political parties and hence the working of the institutions of the government the direction of economic policy the character of local government and relations between government and interest groups were transformed What accounts for the ending in the mid 1970s of the policy consensus which characterised British politics for most of the post war period The essays in this collection seek to explore the causes and some of the consequences of this breakdown *The Treasury and British Public Policy 1906-1959* G. C.
