The first International Conference on Myopia was sponsored by the Myopia Interna tional Research Foundation in New York City in 1964 The second conference was held in San Francisco in 1984 the third in Rome in 1986 the fourth in Singapore in 1990 and the fifth in Toronto in 1994 The conferences were held every four years as satellite meetings within the Interna tional Congress of Ophthalmology In recent years however the incidence of myopia throughout the world and the mechanisms of myopia have been has increased rapidly studied by many researchers using animal models Against this background at the fifth conference held in Toronto in 1994 it was decided to hold the International Conference on Myopia every two years I am honored that the organizing committee selected me as the host for the sixth International Conference on Myopia Progress in the field in the

two years between the fifth and the sixth International Conferences on Myopia has been astounding. Although the mechanisms of myopia have not been clarified, many questions concerning myopia are arising from disciplines representing the entire spectrum from clinical findings to molecular biology. Thus in the sixth International Conference on Myopia the program provided for discussion of a wide variety of subjects including epidemiology, pathogenesis, experimental myopia and treatment. A number of doctors from Asian countries where the incidence of myopia is especially high reported on recent epidemiology in their countries.

Volume two includes chapters on cataract surgery in complex situations, combined cataract and glaucoma surgery and new concepts of femtosecond laser. With contributions from specialists in the USA, Spain and South Asia, these two volumes include more than 270 full colour images and illustrations. Each chapter ends with a summary by the Editor in Chief. Key points. Comprehensive two volumes presenting complete review of cataract management. Examines advantages and disadvantages of numerous techniques. Internationally recognised author and editor team.

Refractive Surgery with Phakic IOLs Jorge L Alio, 2012-10-30. Phakic IOLs (intraocular lenses) are surgically implanted lenses used for the permanent correction of common vision errors such as myopia (short sightedness). These implants, which resemble contact lenses, are placed either between the cornea and the clear lens in front of the eye and the iris (the coloured part of the eye) or just behind the iris. This second edition provides a comprehensive review of the technology and clinical indication of phakic IOLs, their contraindications, how to handle surgical complications and practical issues in their use in refractive surgery. Divided into two parts, the first section discusses the basic principles of refractive surgery with phakic IOLs and the second part examines their implantation, including for astigmatism correction, combined and additive procedures and new trends. Key Points. Comprehensive review of technology and clinical indication of refractive surgery with phakic IOLs. Examines basic principles and implantation techniques. Authored by highly experienced ophthalmic specialists in Europe and the USA. First edition published in 2003.

Cornea and Refractive Surgery New Orleans Academy of Ophthalmology. Session, 1998 Preface From Friday morning February 21 1997 through Sunday February 23 at noon members and guests of the New Orleans Academy of Ophthalmology heard presentations and discussions of the latest techniques and trends in the study of corneal diseases and surgery including refractive surgery This was the subject of the Forty Sixth Annual Symposium of the Academy The speakers comprised a group of eight clinician surgeons with a wealth of experience and a well respected talent for innovation in their areas of expertise From trends in bacterial keratitis to ocular surface disease and healing to the latest opinions on anterior segment reconstruction and refractive surgery the topics covered were diverse and timely Especially interesting were the discussions generated by the panelists presentations and by the question and answer sessions The demands placed on the speakers at the Annual Meeting of the New Orleans Academy of Ophthalmology are large and multiple and probably greater than for most other educational

conferences Each speaker commits to preparing several lectures and usually a panel discussion for presentation and all speakers are asked to participate in the panel discussions and question and answer periods The topics are chosen by the program committee and we sometimes ask speakers to present a subject that is not in their area of research or primary interest This usually means researching and preparing a completely new lecture And last but not least all speakers commit to preparing chapters and completing panel discussions for this book And these duties are added to already busy practice and speaking schedules in fact the speakers are selected because they have new ideas and useful things to say that everyone wishes to hear Not all invited speakers are up to the task but this year we were fortunate that all of our first choices accepted the challenge Because of the rapidity of change in both refractive surgery and anterior segment treatment we have attempted to provide the transactions as rapidly as possible This urgency has again added more demands on the time and energy of the speakers And this group of authors has responded admirably to our requests Because of their efforts the reader can use this publication as an update and as a gauge to his her present practice guidelines I wish to thank all eight speaker authors for their efforts on behalf of the New Orleans Academy of Ophthalmology and the readers of this publication The information presented here was put on paper by the authors but we readers are the ones who benefit In addition they have added to a forty year tradition of publications by the New Orleans Academy of Ophthalmology I hope that readers consider this book as timely and as useful as previous issues of the Transactions I also wish to thank Monica L Monica MD President of the NOAO and the Executive Committee for supporting the program and this publication As always a considerable amount of time and effort came from Emily Busby executive secretary of the NOAO and my thanks go to her as well Lastly Marguerite McDonald MD deserves much credit in the organization of the meeting and the program Her knowledge and experience were truly indispensable Daniel A Long MD
