Subnational Authorities and the European Union Stephan Lutzenberger, 2022-02-21

The European Union as a regulatory polity based on integration through law arguably relies more on legal compliance with its policies than any other political system. Proceeding from this point of departure, this book puts the spotlight on the subnational tier and scrutinizes its role in ensuring compliance. Drawing on a dataset of infringement proceedings against federal and regionalized member states, the book shows that strong shared rule, i.e. strong cooperation between national and subnational authorities, can improve national compliance records. In contrast, policy sectors with strong redistributive consequences impair subnational authorities' capacity to comply. In short, policy and politics matter more than polity.

The European Union and Asia, 2015-06-29. This volume represents the first in-depth interdisciplinary analysis of the past, present, and future of the European Union's relations with countries, non-state actors, and other partners across the Asia-Pacific region. The book is situated in the developing interdisciplinary discourse of EU foreign policy towards countries and regions across Asia and it offers a research-led critique of the construction and the elements of the EU-Asia political space. Written by an international team of experts from both Asia and Europe, the volume investigates the historical and cultural background as well as diverse representations and imaginations in regard to the Asia-Europe intercontinental dialogue. The book examines the varied patterns, policies, and priorities of the contemporary political, economic, and cultural relations linking the EU with its interlocutors in Asia. Moreover, this collection throws light on a selected number of issues pertinent to current EU-Asia interaction, such as human rights promotion, learning, and educational exchange, and the role of the mass media in the construction of Asia-Europe relations. The twelve chapters in this book cover a wide scope of subjects, including the EU's Relations with the Association of Southeast Asian Nations (ASEAN), the summitry of the Asia-Europe Meetings (ASEM), EU foreign policy choices in Asia, and EU contacts with Central Asia, Australia, and New Zealand. This text is of interest to undergraduate and postgraduate students, lecturers, the business community, decision makers, and practitioners in Politics, European Studies, Asia-Pacific Studies, International Relations, Law, Human Rights, and Business Studies.

The Oxford Handbook of Local and Regional Democracy in Europe, John Loughlin, Frank Hendriks, Anders Lidström, 2012-11-08. The Oxford Handbook of Local and Regional Democracy in Europe analyses the state of play of democracy at the subnational level in the 27 member states of the EU plus Norway and Switzerland. It places subnational democracy in the context of the distinctive Anglo, the French, the German, and Scandinavian state traditions in Europe, asking to what extent these are still relevant today. The Handbook adapts Lijphart's theory of democracy and applies it to the subnational levels in all the country chapters. A key theoretical issue is whether subnational, regional, and local democracy is derived from national democracy or whether it is legitimate in its own right. Besides these theoretical concerns, it focuses on the practice of democracy, the roles of political parties and interest groups, and also how subnational political institutions relate to the ordinary citizen. This can take the form of local referendums or other mechanisms of participation. The Handbook reveals a wide variety of practices across Europe in this regard. Local financial systems also reveal a great variety. Finally, each chapter examines the challenges

facing subnational democracy but also the opportunities available to them to enhance their democratic systems Among the challenges identified are Europeanization globalization but also citizens disaffection and switch off from politics Some countries have confronted these challenges more successfully than others but all countries face them An important aspect of the Handbook is the inclusion of all the countries of East and Central Europe plus Cyprus and Malta who joined the EU in 2004 and 2007 This is the first time they have been examined alongside the countries of Western Europe from the angle of subnational democracy

Accountability, Parliamentarism and Transparency in the EU Adam Cygan,2013 It was a great pleasure to find such a rich analysis of the role of national parliaments in the EU What I particularly like and what proves to be particularly fruitful is the combination of perspectives the EU law and national constitutional perspective including a comparative dimension the perspective that explains the role of national parliaments in the EU from past to present and even near future and last but not least the perspective of the interaction between the legal

frameworks and the political reality There is every reason to congratulate Adam Cygan wholeheartedly on this book Ton Van Den Brink Europa Instituut Utrecht The Netherlands One of the most outstanding specialists on the role of national parliaments in the EU has produced another impressive book about this dynamic topic It provides an illuminating overview of current practices it sharply analyses the legal status quo and it brings theoretical depth to the topic in multiple perspectives Olaf Tans Amsterdam University College The Netherlands This accessible and detailed book takes an interdisciplinary approach in exploring the position of national parliaments in the EU polity and in particular their position within the EU governance framework Adam Cygan analyses the impact of subsidiarity monitoring upon national parliaments and to what extent this provides new opportunities for national parliaments to be engaged in and exert influence over the EU legislative process While the post Lisbon position of national parliaments may have improved this book questions whether national parliaments can really be considered as central actors in EU affairs The author also queries whether subsidiarity monitoring has the capacity to create a collective bloc of horizontal actors which exert effective accountability over the EU legislative process Accountability Parliamentarism and Transparency in the EU will strongly appeal to academics parliamentarians parliamentary officials working in EU affairs as well as EU civil servants
