The Politics of the Hajj from a Comparative Perspective Muriel Gomez-Perez, Cédric Jourde, Marie Brossier, 2025-02-28. This book analyzes the contemporary politics of the Hajj in countries of Africa, the Near East and Southeast Asia. States must organize the mobility of approximately two million pilgrims every year. States also manage the flow of vast amounts of financial resources related to the Hajj, as well as the transmission of religious and political ideas about how the world ought to be governed. The contributions in this volume investigate how states attempt to manage the Hajj and the power relations they develop with pilgrims, religious leaders and entrepreneurs of various types. They also examine the Hajj organization from the viewpoint of pilgrims: how they make sense of the bureaucratic apparatus they encounter, how they navigate the constraints imposed upon them and how they seize opportunities to fulfill their religious, economic and social aspirations. *The Politics of the Hajj from a Comparative Perspective* closely analyzes political interactions between states, pilgrims, religious actors and entrepreneurs and the extent to which they have evolved over time.

Religion in Global Politics Jeffrey Haynes, 2014-10-13. One of the most resilient ideas about societal development after World War II was that nations would inevitably secularise as they modernised. However, as we come to the end of the secular twentieth century, it is obvious that religion continues to be an important factor in politics around the world. The author examines the continuing importance of religion, focusing upon the regions of Europe, the Americas, Africa and Asia.

Religious Politics in Global and Comparative Perspective William H. Swatos Jr., 1989-09-07. Current social and political theories which tend to dismiss religious resurgence as a deviant occurrence in the broad sweep of history do not provide an adequate framework for the study of the dramatic resurgence of religion as a worldwide political force. This book is the first to address the interplay of religion and politics systematically and on a global scale. Offering interpretive essays as well as quantitative comparative analyses, it develops a comprehensive theoretical framework and presents the most complete comparative account available of the realities of religious politics in the contemporary world. The first of the interpretive chapters focuses on the cultural factor as a means of clarifying the role of religion in the modern world system. The next two chapters examine the concept of the self in the context of globalization and the absence of solidarity as a unifying force in societal systems. The role of ultimate values in politics and the reasons for the emergence of militant religious movements in nation states is also considered. A worldwide study of religious change.

A Comparative View of Religions Johannes Henricus Scholten,1870 *Conservative Christian Politics in Russia and the United States* John Anderson,2014-09-19 This book explores the politics of conservative Christian churches and social movements in Russia and the United States focusing on their similar concerns but very different modes of political engagement Whilst secularisation continues to chip away at religious adherence and practice in

Europe religion is often quite rightly seen as an influential force in the politics of the United States and more questionably as a significant influence in contemporary Russia This book looks at the broad social movement making up the US Christian Right and the profoundly hierarchical leadership of the Russian Orthodox Church as socially conservative actors and some of the ways they have engaged in contemporary politics Both are seeking to halt the perceived drift towards a more secular political order both face significant challenges in handling the consequences of secularism pluralism and liberal individualism and both believe that their nations can only be great if they remain true to their religious heritage In exploring their experience the book focuses on shared and different elements in their diagnosis of what is wrong with their societies and how this affects their policy intervention over issues such as religious and ethnic belonging sexual orientation and education Drawing on political sociological and religious studies this work will be a useful reference for students and scholars of religion and politics Russian politics and American politics
